Isonomi: The Great Masonic Secret: Science of Government

Foreword:

Shalom, hotep and 13Ahavah to all who bliss this works with your precious attention and focus. It is my sincere hope and will that this compiled work of divine and right knowledge will elevate, protect, inform, uplift and inspire you to a better existence and future. This information has been hidden from my people for too long but now is the time of great revealing so that we may free ourselves from the shackles of bondage and be resurrected from mental death and live as we were always meant to, which is in harmony with our consanguinity and true customs and culture: Love, Truth, Peace, Justice and Freedom for All. This level of scholarship is brought to you by Th Elders of the Moors Order of The Roundtable, just a few of the loyal and Faithful Moors who carryout and embody what it is the Prophet Noble Sheik Sharif Abdul Ali A.K.A. Drew Ali uncovered and brought back to the Asiatics of Th North Gate/ North-West Amexem/North-West Afrika. May Th Divine will of Allah light Th flame of your consciousness and revive Th ancestral greatness of thy pedigree. All is well and well is all.

Part I: Order

“When a sleeping woman wakes, mountains move”.

-Chinese Proverb

Intro:

There is a science to life; therefore, there is a science to government which is called civics. This is the basic function of how we as beings interact and cohabitate with each other. It is the law that runs the planet and one must be well versed in it if one hopes to achieve the status of master navigator upon the Earth plane. You cannot totally immerse yourself in the abstract/spiritual without harnessing/mastering the physical reality of existence for they are both reflections of each other. You cannot claim to love a G-d you don't see and love not your brother and sisters you see everyday. Likewise, you cannot claim to know the inner workings and mysteries of life but have no knowledge of the laws that govern your everyday life.

Chapter 1: Woman: The Applied Science of the Number 9

(A) Th House of God

I. Misconceptions

There are countless books, pamphlets and articles extolling the virtues and greatness of the ancient, advanced civilizations and empires of the Asiatic Moabite/Moorish Nation and the descendant nations. Granted many national names and geographical locations of nations on the map have been changed by European sociologists and reconstruction writers. Unfortunately, there are at least 2 major flaws that proliferate these works:

- 1) First Flaw: the popularly accepted false claim that these ancient peoples were of the great – quote, unquote- “black nation”.
- 2) Second Flaw: the overemphasis on patriarchal rulership and government structure, relative to the ancient civilizations and the implication of only minor support roles by the so-called “black” queens (women).

One must give all due respect to the researchers, writers and authors of a number of these literary works- many are superlative, well produced and well presented. Nevertheless, these 2 flaws are too destructive and unbalanced to ignore. They are promoted to hide, distort and skim the truth- neutralizing the energy of natural positive vibration and proper concepts of nature. These 2 flaws are inexcusably and arrogantly incorrect.

Addressing the 1st Flaw: There is not, nor ever was a nation of people attached to the human civilization, bearing a pedigree/parentage or national name such as “negro, colored, black, African-American, etc. To make these brands and labels retroactive in antiquity is not only untrue, but ultimately misleading, destabilizing and non-productive. All this, done in the name of black history, self-esteem and re-education. Fraud!

The names negro, black, colored- as appellations of the human race- were coined by the peregrines/pilgrim Dutch master colonists. The use of these “tags” describes “chattel” property of the Albus Gaul nations. These names are not proper nouns, but adjectives. They separate the people, who take them as real, from humanity. This is one of the deceitful social engineering methods used for justifying the institutionalized less-than-human treatment of the enslaved Asiatic Moors.

These negative and debased words (negro, black, colored, etc.) are modern appellations used in social affairs and were not put officially into documentation as substitutes for national names, until the 1700's. Therefore, there is no such thing as any ancient black history or black people who did anything on behalf of humanity. Undo the fraud!

Addressing the 2nd Flaw: One must, again, acknowledge and give credit to the great efforts put forth and the quality presentation and execution of many of the works of the authors, claiming black-ness as a nation of people.

There is no truth, balance or honor in the spirit of the overall literacy works, due to these facts: when the slave labels and brands of negro, black, colored, etc., are attached to any part of humanity of ancient heritage- it does not, and cannot apply. These words are European chattel brands and cannot be applied to true history, retroactively! Prior to the enslavement of Moors (which was accomplished through war and maintained by book burnings and the alteration of records in the late 1700's) no such names were attached to the Moors (Asiatics of Northwest Amexem/Afrika/America).

As we enter the realm of ancient Asiatic civilizations, in mind, spirit and written form- to retrieve a oneness with our ancient mothers and fathers-

we must reclaim the truth of reality that most of the ancient civilizations were matriarchal and not patriarchal. The fundamental truths of nature and nature's laws bring a sense of consciousness and unity of mind with the ancient ones. Even when the Moors adopted the patriarchal forms of government, the women were always conferred with in serious council, before any major actions or decisions were made. This was the standard ancient and modern culture. Mutual counsel (balance) with the Elders both male and female was, in governing the national affairs were strictly adhered to.

If one goes into the sphere of the genetic and spiritual intelligence of the mind (there is no way out) all life comes out of the womb of a Mother. Mother is the root physical cause, who brings the physical manifest effect of the bodies (temples) of man. Matriarchy is the natural state of social order, in nature- intelligent beings should not be threatened by the truth. Patriarchal forms of government (unbalanced) do not harmonize with nature. They are usually enforced and coerced political/economic man-made control systems. Patriarchies must be artificially maintained by force of arms, fear, guilt, superstition and religious dogma, due to their lack of harmony with the natural universal order.

Patriarchal government systems are popular to the Albion (Albino) European nations. Matriarchal forms of government systems were the norm, in the ancient Asiatic civilizations. Due to the dissolution of the imperial Moroccan empire and the destructive expansion of Albus Gaul colonialism, much of the true Asiatic national heritage, literature and sciences were destroyed and/or out to flame. Humanity has lost incalculable knowledge due to the massive book burnings by the conquering nations of Christendom. These angry and selfish acts have set the world's (man and mankind) progress back a minimum of a 1000 years.

The massive burnings of Moorish literature and the murder of many Moorish women, by decapitation, brought the western hemisphere to an extremely low state of humanity. The burnings of the “witches of Salem”, commonly referred to in Union States history, was in reality, the burning at the stake of many Moorish women- called the “witches of Salaam”. Salam/Salem is Anglis for the Moorish Salaam. Salaam means peace. The purpose of the burnings was to destroy historical evidence of the earth and planet (astrological) cosmology culture of the aboriginal and primitive Moors.

The Moors were masters of nature’s laws, herbology, earth polarity, alchemy, metallurgy, astrology, geometry, metaphysics, law, government, anti-gravity, forces of nature, etc. They lost much of the knowledge due to natural and man-generated destruction. The pilgrims called Moorish science “demonology “, and went all out, in the names of their gods, to destroy the sciences and the people of those sciences (the Moors). The rest is his-story- with current historical abuses and events verifying these facts!

To counter these political, economic, social and psychic attacks against the primitive Moors- the sciences and heritage/culture of the ancient ones is being exposed to the masses. The negative effects these attacks have had on our people have been devastating. Unfortunately, through subjugation, our people are so backward as to believe (as they have been taught) that human beings are identified by colors and shades, as opposed to national pedigree names. Our people need to be re-taught the buried and hidden heritage and culture of their own bloodline- the ancient Moors.

This treatise is presented to and for the Moorish children, descendants of the ancient Master fore bearers of the Earth, for the royal future and promised protected lands of their (our) forefathers which they are to be

enlightened to and inherit after the universal revelation of truth. This is their (our) birthright. In honor of our mothers and fathers, the ancient ones, is presented a portion of tone of the most ancient and secret lessons of the ages- “Woman: the applied science of the number 9 and government.”

II. Woman: The Divine source of physical life

Woman is the divine source, through which all physical life forms come. She, the feminine, is without doubt the most powerful being in existence- the literal stargate, the Most High Creative Womb. Life comes through the womb, therefore all that lives, or is to live, is first essentially, a part of her (womb-man). The Manifest energies or monads come into existence through her. These facts are clearly written in the book of life- natural law/Mother nature. She is the “gate” through which all humanity enters the realm of flesh- femina (Ma) and mas (son). All humanity is her progeny- this is the indisputable fact, which cannot and will not change. Is there any doubt?

Woman builds the physical forms of man, within her womb- bringing life. It is in woman’s nature to cultivate and structure civilization with moral governing principles for her offspring (progeny). She then teaches her offspring these systems for survival and sustenance. Matriarchy is the most natural form of government. She who is in order brings beings best able to cultivate and ordain rules of order for life and society! The vibratory energy and vitality of the whole human race is carried by, traced through and dependent on woman, her state of conditioning and her state of mind!

What and who woman is, what she knows, what she thinks, how she feels, what she eats, her temperament, the planetary alignments and energies in the solar system- combined with the forces of nature- are her master building tools! She must be aware of these fundamental natural truths, as

they will function positively or negatively, depending on elements and conditions. This is a science, not a dogmatic belief system. If she has been enslaved, mis-taught and subjugated, she must be freed and taught by those who know! If those who know do not assist in her resurrection, then the laws of reciprocity and compensation will manifest with a vengeance through nature's mandate- this is called justice- the two-edged sword!

III. Her Subjugation

The pale (European) masters of slavery and vectors of nations are astrological and mathematical scientist. They are well aware of the power which is naturally inherently in women. Never underestimate their cunning and manipulative approach to government. In order to enslave a people, it is important to control the woman (womb). He who controls the woman (womb) surely controls the nation (her children). This is the highest secret knowledge used by all the slave masters. Those having this knowledge know the key to civilization!

Knowledge of the workings of the womb is so powerful and vital to civilization that it is kept in secret societies and among the so-called elite and upper caste government rulers. The study of the womb is mandatory in the science of government, social correction or engineering and controls. Womb science can be used to positive or to the negative. Womb science will never be found in any textbook readily available to the masses, less more to state wards and slaves. Most all womb science, which was always a part of Moorish culture, was stamped out by burnings, lynching and torture during early and mid periods of the current Union States Society's slave and ward system.

To the misfortune of humanity, the fundamental truths of womb science have been lost in allegory, fables, and fairy tales or suppressed on a global scale. The mass perpetuation of dogmatic subjugation doctrines and idol-god worship, corrupted and mis-represented as godly, has been

perpetuated through blind faith religions. All organized modern religions are guilty of subjugating the Moabite/Asiatic woman and her offspring, at different levels and degrees. The ultimate purpose of the dogmatic patriarchal religious doctrines is the subtle cultivation of murder, slavery, hatred, theft, suppression, oppression and subjugation of the Asiatic Moorish Mother. This has been successfully done in the names of masculine idol-gods and the worship of them.

(B) Sacred

I. Religion

The word religion is derived from the Moorish Latin word, religio, which expresses respect for that which is sacred/divine, universally manifested by and through “All” in nature.

Religion was founded by the ancients as an elementary teaching tool for children designed to introduce them to the science of life i.e. the inner workings of nature. In its proper context, Religion is not dogmatic but is an elementary science used to bridge the gap between flesh, mind and spirit. It was not created to control the minds of others but rather to learn and master the inner chambers of your own as well as to explore, find, purify and exude the truest nature of your heart.

The forces of nature and the atomic interplay of the planets in our solar system were given names by our ancient fore-mothers and fore-fathers so as to simplify and make relatable the infinitude of creation. Most of the names have evolved or changed by the perception and will of the people of varied dialects and languages. The study of these phenomena is ancient and is called cosmology, which is masonry and astrology. Astrology means the study of the stars and masonry is to combine and build with forces of nature. The former is analysis and the latter is the practical application and function of the acquired knowledge of the universe.

Some of the names given, so as to describe Th Supreme Reality, by ancient humanity were Elohim, Allah (All Law), Thoth, Parabrahm, Yahweh, The Great Spirits, The 7 Eyes of Allah, The All-Seeing Eye, The Grand Architect, etc. To be more specific, to the Moorish culture, these are the names of the Elohim:

- 1) Micha'El- The Sun- Sunday
- 2) Gabri'El- The Moon- Monday
- 3) Zama'El- Mars- Tuesday
- 4) Raphe'El- Mercury- Wednesday
- 5) Sachi'El- Jupiter- Thursday
- 6) Ana'El- Venus- Friday
- 7) Cassi'El- Saturn- Saturday

The Elohim are symbolized on the crown of **The Goddess of Liberty-**walking the water in New York harbor. She (the Statue) is made of copper-applied to an iron framework. Copper is the alchemical metal for the planet Venus- Ana'El- Friday.

The universe itself is a creative womb. It ebs and flows, pulls and pushes out, expands and contracts, pulsates, creates and operates with positive and negative forces, etc. Out of al the tangible evidence that man can see and relate to- that expresses the universe and its workings- woman herself is the purest reflection of the cosmos being a physical manifest creator or generator of life and spirit.

It is definitely impossible for a nation that is dominated by various secret orderism to solve its economic and social problems in the atomic age. One might logically ask: How can one help himself and others without exposing his secrets?

The code of mathematics scaling from 0-9 and 3, 6, 9, and 12 constitutes the ever-present code of law which never grows old or rather never loses its usefulness. Neither will air and heat or light and electricity; nor the woman, children and the letters of the alphabet. The whole of the body of which comprise the one great body of the ever-present living truth is, therefore, neither a mystery nor a secret and will never pass away.

All secret orderism involving religion, symbolism and mystic passwordism are our own ignorance of the realities which dwell within us. That which individuals have in their minds unexpressed is a secret. Having expressed to another, which is in mind, then the great secret has been exposed to the outer world.

The inner world is our universal sub-conscious mind which dictates to our reasoning mind. Thus, our sub-conscious mind is the inner world referred to as the "All Seeing Eye". Our reasoning mind is the outer world referred to as "The light of the world", all of which derives from woman, the creator of all men in the course of 9 months, from conception to birth. Thus, woman is the Grand Master Architect and Carpenter of the human body and mind, which makes all ones Moslems/Moors regardless to the shade of skin and color of eyes. All males are sons of 9 which have many attributes and representations one of which is 100% (360o).

I Woman Know Thyself

I. Mathematics and the Zodiac: Secrets of the number 9

The secrets of the number 9 involving woman and child, and the 12 signs of the Zodiac is referred to as "The Rejected Stone" thus, the stone that the sociologist Christian world rejected in the days of old becomes the head of the corner in the atomic/Aquarian age, which is as follows:

THE FIRST MONTH OF THE YEAR

April is the first month of the New Year, in harmony with the Rising Sun in the Northern Hemisphere, on the Tropic of Cancer, which occurs every year on March 21st and ushers in the spring season.

The earth's axis to its orbit evolves about the Sun at the rate of one degree per day, and 30 degrees per month. It completes its annual revolution of 360° every year on March 20th, in the 12th sign of Pisces. Thus, the rays of the Sun pass through 12 different regions of the earth called signs in the course of a year, calculated from the sign Aries to the sign Pisces.

Knowledge of the 12 signs of the Zodiac involving woman, child and the secrets of the number 9 is as important as the letters of the alphabet which qualify them to read and write.

II. Conception

Conception always occurs while the rays of the Sun is in a certain sign of the Zodiac and the child is born 9 months later while the rays of the Sun is in another sign of the Zodiac.

For example:

- **If conception** occurs while the rays of the Sun are in the sign Aries, between March 21st and April 18th, the child is born when the rays of the Sun enter the sign Sagittarius (between November 22nd and December 20th.)
- **If conception** occurs while the Sun is in the sign Taurus, Between April 20th and May 20th, the child is born when the Sun enters the sign of Capricorn (between December 21st and January 18th.)
- **If conception** occurs while the Sun is in the sign Gemini, between May 21st and June 21st, the child is born when the Sun enters the sign Aquarius (between January 19th and February 19th.)

- **If conception** occurs while the sun is in the sign Cancer, between June 22nd and July 22nd, the child is born when the Sun enters the sign Pisces (between February 20th and March 20th.)
- **If conception** occurs while the Sun is in the sign Leo, between July 23rd and August 23rd, the child is born when the Sun enters the sign Aries (between March 21st and April 19th.)
- **If conception** occurs while the Sun is in the sign Virgo, between August 24th and September 23rd, the child is born when the Sun enters the sign Taurus (between April 20th and May 20th.)
- **If conception** occurs while the Sun is in the sign Libra, between September 24th and October 22nd, the child is born when the Sun enters the sign Gemini (between May 21st and June 21st.)
- **If conception** occurs while the Sun is in the sign Scorpio, Between October 23rd and November 21st, the child is born when the sun enters the sign Cancer (between June 22nd and July 22nd.)
- **If conception** occurs while the sun is in the sign Sagittarius, between November 22nd and December 20th, the child is born when the sun enters the sign Leo (between July 23rd and August 23rd.)
- **If conception** occurs while the Sun is in the sign Capricorn, between December 21st and January 18th, the child is born when the sun enters the sign Virgo (between August 24th and September 23rd.)
- **If conception** occurs while the Sun is in the sign Aquarius, between January 19th and February 19th, the child is born when the Sun enters the sign Libra (between September 24th and October 22nd.)
- **If conception** occurs while the Sun is in the sign Pisces, between February 20th and March 20th, the child is born when the Sun enters the sign Scorpio (between October 23rd and November 21st.)

This concludes in brief the applied science key of the 12 signs of the Zodiac involving woman, child and the number 9- 9 months from conception to birth. This process of simple scientific universal facts has proven that every child is born while the Sun passes through one of the 12 signs of the Zodiac, and that the sign under which children are born governs their lives from cradle to grave. That which cannot be proven by mathematics and reasoning is definitely dangerous to the human progress.

During 9 months from conception to birth, the child in its creator's womb (mother), has passed through the 9 cosmic regions or signs of the earth, in harmony with the Sun, from which it molds its physical form, mind, memory and characteristics, qualified for cultivation as it slowly grows up during life.

If women on a national scale possessed the applied knowledge of the secrets of the number 9, they would be supremely qualified to educate their children to the practical side of life during its 9 months maturity from conception to birth. Then, there would be no need for the institutions of religious mystery worship, idol or image god. Jail houses, prisons and insane asylums would not be needed for there would be no racial hatred or crime.

The secrets of the number 9 and 12 signs of the Zodiac involving woman and child, from conception to birth, is referred to in the book of Revelations as, the opening of the "7 Seals", from which has marked the very end of Christian theology and the rise of women, with civilization, namely the Asiatic Moorish woman of North-West Amexem/America/Afrika who have been labeled negro, black, colored, etc., by the sociologists of the Roman Cross Order.

You (woman) are advised to always read the interpretation of the Sun in each sign of the Zodiac during the 9 months maturity of your child and concentrate on realities, equality, unity, economic and social progress, peace and justice. Then your child will be born well educated, endowed with practical down-to-earth morals and progressive wisdom, and will fear no evil.

As the Sun is the giver of life, we are born into the world endowed with wisdom ready for cultivation as we slowly advance. Therefore, the interpretation of the Sun in the 12 signs applies to our daily activities as well as at birth. The fact remains that the human body constitutes the 12 signs of the Zodiac- space and time.

Man is mind, matter, motion and form, which measurably perfect the form of past memory of its many manifestations in life. Memory or mind never forgets. Mind is the cause of all things; which, therefore, makes woman the law of cause and effect or evolution. She is responsible for the acts of her child. The more knowledge woman possesses of the universe, the wiser the child will be when it is born. Woman is the great creator of both good and evil.

III Venus and Woman

Venus is the most brilliant planet in our solar system, orbiting at about a little over 67 ($6+7=13$) million miles from the sun. Her orbital cycle is 225 ($2+2+5=9$) days around the Sun. Her vibratory color is green, and was called by the ancient Moabites, Ishtar and/or Astarte, the Goddess of Fertility.

Woman's menses (menstrual) cycle is governed by the Moon. The ovary cycles an egg 13x a year or once every lunar month. The lunar month is approximately every 28 days. The word month comes from Moon. Woman

releases an egg (ovum) in harmony with the lunar cycle 13x/revolutions around the Earth a year or approximately once every 28 days, 1 hour 51 minutes. This natural planetary cycle and its obvious relative relationship prove women to be the living calendar of the Earth's divine beings in human form. $13 \text{ cycles} \times 28 \text{ days} = 364$. $1 \text{ hour}, 51 \text{ minutes} \times 13 = 24 \text{ hours} =$ degree or day. $1 + 364 = 365$.

This brought about the ancient and still interesting recognition of the 13 lunar months, in harmony with the solar months, which would be better called signs. $13 \text{ lunar months} + 12 \text{ solar signs} = 25$, which numerically breaks down to $2+5=7$. The number 7 is in harmony with the 7 ruling planets of this solar system. They are called in unity the Elohim. The 7 ruling planets work in harmony with Earth and in unity with the entire solar system. This constitutes the circle of life, the zero Zodiac circle, the Cardinal Cross, it is also called the cycle of 7, circle 7 or the mundane cross; all of these mean the same thing.

IV. The Universal Birthmark

Nature (Mother) has marked her "progeny" at birth with love and life. This is the Seal of Nativity" and is universal all humanity. This universal birthmark is called the navel- the only true birthmark of man, undeniable and true.

False doctrines and beliefs have misled humanity into believing that the birthmark was any unusual blemish on the skin or some other physical abnormality that was apparent at birth. Untruths cannot live under the Sun. Let us see navel from another point of view (angle/angel):

- Nav= navigate: to travel through, to steer, direct, or plot a course.
- El= Elohim: God; the 7 universal laws of nature; the combination of the cosmic forces as one.

The navel is a small scar, usually at the center of the abdomen (solar plexus), marking the place where the umbilical cord connects to the fetus. Umbilical comes from the Moorish Latin word umbilicus meaning “navel, the center”. The umbilical is the cord like structure which connects the fetus with the placenta of the Mother, serving food and blood to the fetus. This same cord removes the waste; this cord is the organ that only Mother produces within her womb (uterus) during pregnancy.

Now the ‘solar plexus’ is a network of nerves in the abdominal cavity behind the stomach and in front of the uppermost part of the aorta. The aorta is the main artery of the body, carrying blood from the left ventricle of the heart to all the organs and parts, except the lungs.

The word “solar” comes from the Moorish Latin “sol” which means Sun. The universal birthmark “navel” is at the center of the “sol” (solar plexus) and has the appearance and general shape of an “eye”.

Therefore, man is the temple of the master builder; “sol” of man’s temple or ‘Solomon’s Temple’. No male can complete Solomon’s temple because only woman is the master builder of the forms (body) of the human race.

V. Monad to Nomad

Woman, the master builder, takes the energies of the 7 ruling planets and the substances of the Earth, and forms her progeny in the “great magnetic womb” in the cycle of 9 months. The minute and simple single-celled organism within her womb, becomes a temple for the one inseparable spark; the spirit of woman and man manifesting itself in every expression in the Zodiac, through each unit or person in the human race. The spirit/spark is called monad, from the Moorish Latin “monad”.

When the great building of man is done, the “monad” becomes the “nomad”- the man- spirit, traveling and roving about the Earth; the traveling man- Son of God. Woman is magnetic, her son is electric expressive light and vibrations, manifesting etheric (spirit) and dense (physics).

VI. Atom and Eve (Adam and Eve)

In the biblios heliotech (holy bible), we have the story of Adam and Eve. This is symbiotically represented as man and woman. As the story unfolds, Adams, the “mas” (male) begets Eve, the “femina” (female/womb-man). The God of the universe made Eve from the rib of Adam.

The story of Adam and Eve serves as a very good focal point from which to begin to examine and view the human race.

The **Crescent and the Star** and the symbolic **Madonna and Child** symbolize the **Widow and the Son**, The **Virgin and the Child** as **Mother and Son**. These symbols mean, **Luna (the Moon - Gabri-El)** and **Astarte (Venus - Ana-El)**. The **Moon and Venus** - the governors of fertility and fecundation in **Woman and in the Earth**.

The **Mundane Circle**, the **Coptic or Celtic Cross**, the **Swastika**, the **Circle Seven**, and the **Master's Seal** all mean the **Zodiac** and its inner-relationship to **Earth, Woman and Man**.

Hexalpa - the dual trine is the geometric representation of the Moabite/Moorish **Fez**. The symbolic math is thus: **3** angles and **3** planes + **3** angles and **3** planes - together - the Spirit and the Flesh, as it is above, so shall it be below. The **four 3's** are: **3** in the North; **3** in the East; **3** in the South and **3** in the West. These are the twelve (12) houses of the Zodiac. Each plane of the equilateral pyramid represents **120** degrees. $3 \times 120 = 360$. $2 \times 360 = 720$. $7 + 2 + 0 = 9 = \text{WOMAN}$. The Moabite/Moorish Woman has given a crown of knowledge and wisdom to her Sons, within the span of **9** months, in the most illuminated school of the universe - Her Womb. The **Fez** symbolizes the above and the Zodiac.

Now, due to war, Peace Treaties, political subversion and social engineering, the European Nations, through usurpation, have economic, social and juristic control over the Moorish Provinces (America). Hexalpa above the head of the Flving Eagle on the European side of the dual United States Seal symbolizes the Moorish Fez and is indicative of the enslavement of the Moors, and the burial of Hiram Abiff (Unconscious Moors), in the dark Corner of His own Temple/mind (lack of knowledge of Self and History and Geography).

The Moors of the Maghrib, have been made illiterate by force of Colorable Laws, through political and religious institutions - established and supported by the Colonies/States and agents. Agents are bound to the European guilds, groomed and chosen from among the Moorish descendants, labeled negro, black and colored and given the mission of the overseer. The "agents" job is to encourage the use of State adhesion contracts and State religion. This reinforces the fraud of The Black Codes of 1724.

The promotion of artificial names, such as *Black Nation, Negro Nation, Colored Nation, African-American Nation, West Indian Nation, etc., are fraudulent*, as no such nations exist or ever existed. Anyone using such tags, which are **substitutes** for a National Name, is proclaiming to the world that they are not part of the human family, but are *Union States wards*, whether done consciously or through ignorance, the result is the same - no rights, protections or recognition by National or International Nations and Communities. At Law.

These devoid of parentage/pedigree words are code words to describe the Chattel property of the Dutch and Anglis Masters. The false names separate the unconscious Moors, labeled black, negro, colored, Afro, etc., from the **Human Family** and the **Nations** of the Earth. This renders them as State property.

Chapter 2: Divine and National

(A) Moorish Divine and National Movement

I. Sheik Sharif Abdul Ali (Noble Drew Ali)

About nine decades have passed [1913 A.D. +] since **Noble Drew Ali** [Sheik Sharif Abdul Ali] officially established and organized a functional and modern social and political forum, conceived and visualized for awakening and activating the ‘enslaved’, nationally - dormant and unconscious descendants of the Ancient Moabites / Moors of North America. This Organization and Forum was structured to address and span the broad and general areas of social needs and spiritual concepts corrections. Economic and political development, with instructional rules for harmony and stability was addressed and deemed of paramount concern. Concentric efforts were allotted to ‘true’ spiritual reeducation needs and necessities to remove the presiding polarized mental state existing amongst the natural people. Other multifaceted efforts were geared toward Moorish Culture and ‘Proper-Person’ reintroduction - made to uplift the Moorish Nation of North America.

Noble Drew Ali’s works, efforts and Instructions included knowledge-based directives for enhanced and advanced ‘functional knowledge’ of Ancient Moabite / Moorish Philology and High Culture Disciplines. Prudent and proven Government and Civilization Principles were devoted to ‘personal growth’ and advancement and to family progress, for general corrective improvements. Moors were given knowledge of ‘true’ Government Order and structure; with a call to ‘enforce’ the Constitution of The United States of America. Conscious Moors are to take an intelligent, active stand and position on National and World Issues. Particular emphasis was put upon Moors to be ‘active’ and not passive, and to take our places among the affairs of men! Thus, in these days, we see the exercising and grooming of those ‘active’ natural persons [Moors]

who understand and recognize the 'formerly - veiled' truths about their Unalienable Rights and Birthrights.

II. Caveat Emptor

Moors are men, upright, independent and fearless who care for their loved ones and follow the Prophet to a destiny which is neither uncertain nor unknown. They are fortified by the impregnable doctrine built upon Love, Truth Peace, Freedom and Justice. It is therefore, folly at its greatest height for smelly culprits with their insidious plans to invade such realm.

They try and try but their own bad planning brings down wrath upon their heads like the sword old Damocles had. Intrigue and scurrilous cunning find a difficult path to travel within the ranks of the Moors. This is so because the Moorish Movement has been well planned by Prophet Noble Drew Ali, whose latent powers are abundant, unknown and may be called into action, as a matter of defense, at any moment.

Prophet Noble Drew Ali knows the people within his ranks who are interested. They are vanguard of the Movement as the Moorish hordes increase here in America. All of the Moors are active not passive. A member's interest can only be in one direction and having traveled over the road years before; the Prophet knows where every member is along the road.

A few feet below is another road where schemes work, where traitors grin, and culprits bask in the sun. They think they are on the same road with true Moors, but the Moors are high above on a pinnacle where they might view the destructionists as they fall for the last time and their bones bleach in the sultry mid-day sun.

Hungry scavengers flying high, catch scent, devour and leave crying out: Caveat Emptor — cast out the dead carcass. The Moors high above see these plotters, purveyors, the worst that exist, hurl themselves downward by their own works as the hawks wait.

III. Divine Warning by Th Prophet

The citizens of all free national governments according to their national constitution are all of one family bearing one free national name. Those who fail to recognize the free national name of their constitutional government are classed as undesirables, and are subject to all inferior names and abuses and mistreatments that the citizens care to bestow upon them. And it is a sin for any group of people to violate the national constitutional laws of a free national government and cling to the names and the principles that delude to slavery.

I, the Prophet, was prepared by the Great God Allah to warn my people to repent from their sinful ways and go back to that state of mind of their forefathers' Divine and national principles that they will be law-abiders and receive their divine right as citizens, according to the free national constitution that was prepared for all free national beings. They are to claim their own free national name and religion. There is but one issue for them to be recognized by this government and of the earth and it comes only through the connection of the Moorish Divine National Movement, which is incorporated in this government and recognized by all other nations of the world. And through it they and their children can receive their Divine rights, unmolested by other citizens that they can cast a free national ballot at the polls under the free national constitution of the States Government and not under a granted privilege as has been the existing condition for many generations.

You who doubt whether I, the Prophet, and my principles are right for the redemption of my people, go to those that know law, in the City Hall and among the officials in your government and ask them under an intelligent tone, and they will be glad to render you a favorable reply, for they are glad to see me bring you out of darkness into light. Money doesn't make the man, it is free national standards and power that makes a man and a nation. The wealth of all national governments, gold and silver and commerce belong to the citizens alone and without your national citizenship by name and principles, you have no true wealth, and I am hereby calling on all true citizens that stand for a National Free Government, and the enforcement of the constitution to help me in my great missionary work because I need all support from all true American citizens of the United States of America. Help me to save my people who have fallen from the constitutional laws of government. I am depending on your support to get them back to the constitutional fold again that they will learn to love instead of hate, and will live according to Love, Truth, Peace, Freedom, and Justice, supporting our free national constitution of the United States of America.

I Love my people and I desire their unity and mine back to their own National and Divine standard because day by day they have been violating the national and constitutional laws of their government by claiming names and principles that are unconstitutional. If Italians, Greeks, English, Chinese, Japanese, Turks, and Arabians are forced to proclaim their free national name and religion before the constitutional government of the United States of America, it is no more than right that the law should be enforced upon all other American citizens alike. In all other governments when a man is born and raised there and asked for his national descent name and if he fails to give it, he is misused, imprisoned, or exiled. Any group of people that fail to answer up to the constitutional standards of law by name and principles, because to be a citizen of any

government you must claim your national descent name. Because they place their trust upon issue and names formed by their forefathers.

The word Negro deludes in the Latin language to the word nigger; the same as the word “colored” deludes to anything that is painted, varnished and dyed. And every nation must bear a national descent name of their forefathers, because honoring thy fathers and they mothers, your days will be lengthened upon this earth. These names have never been recognized by any true American citizen of this day. Through your free national name, you are known and recognized by all nations of the earth that are recognized by said national government in which they live. The 14th and 15th Amendments brought the North and South in unit, placing the Southerners who were at that time without power, with the constitutional body of power. And at that time, 1865, the free national constitutional law that was enforced since 1774 declared all men equal and free, and if all men are declared by the free national constitution to be free and equal since that constitution has never been changed, there is no need for the application of the 14th and 15th Amendments for the salvation of our people and citizens.

So, there isn't but one supreme issue for my people to use to redeem that which was lost, and that is through the above statements. Then the lion and the lamb can lie down together in yonder hills. And neither will be harmed, because Love, Truth, peace, Freedom and Justice will be reigning in this land. In those days the United States will be one of the greatest civilized and prosperous governments of the world, but if the above principles are not carried out by the citizens and my people in this government, the worst is yet to come, because the Great God of the Universe is not pleased with the works that are being performed in North America by my people and this great sin must be removed from the land to save it from enormous earthquakes, diseases, etc.

And, I, the Prophet, do hereby believe that this administration of the government being more wisely prepared by more genius citizens that believe in their free national constitution and laws and through the help of such classes of citizens, I, the Prophet, truly believe that my people will find the true and Divine way of their forefathers, and learn to stop serving carnal customs and merely ideas of man, that have never done them any good, but have always harmed them.

So, I, the Prophet, am hereby calling aloud with a Divine plea to all true American citizens to help me to remove this great sin which has been committed and is being practiced by my people in the United States of America, because they know it is not the true and Divine way and, without understanding they have fallen from the true light into utter darkness of sin, and there is not a nation on earth today that will recognize them socially, religiously, politically or economically, etc. In their present condition of their endeavorment in which they themselves try to force upon a civilized world, they will not refrain from their sinful ways of action and their deeds have brought Jim-Crowism, segregation, and everything that brings harm to human beings on earth. And they fought the Southerner for all these great misuses, but I have traveled in the South and have examined conditions there, and it is the works of my people continuously practicing the things which bring dishonor, disgrace, and disrespect to any nation that lives the life. And I am hereby calling on all true American citizens for moral support and finance to help me in my great missionary work to bring my people out of darkness into marvelous light.

—**From the Prophet**

IV. Plea to the Nations

Our Divine and National Movement stands for the specific grand principles of **Love, Truth, Peace, Freedom, and Justice**, and I, the

Prophet, am applying to all loyal, faithful Moors, Members, and the American citizens to help me in my great uplifting acts of uplifting fallen humanity among the Asiatic race and nation, for I have suffered much and severely in the past through misunderstanding of what the movement was dedicated to.

It is the Great God Allah, alone that guides the destiny of the Divine and National Movement. I know **all true American citizens are identified by national descent names** to answer and apply to the free national constitution of this free National Republic of the United States of America. That's why I am calling on all true national citizens to help me morally and financially in my great work I am doing to help this national government. For without a free national name, with a descent flag of your forefathers, there is not a national divine title of the government in which we live.

This is from your true and Divine Prophet unto all American and foreign sympathizers.

—*Prophet Noble Drew Ali*

(B) Sovereignty and Government

I. Sovereignty

Sovereignty is the supreme political authority and self-sufficiency of a nation of people to govern their internal affairs without interference or dictation from a foreign government. The national/internal affairs include making laws, executing or applying the law, collecting taxes and levying contributions, making war or peace, forming treaties of alliance, entering into commerce with foreign nations, and the like.

The sovereignty of a nation of people is tied to their birthright. Birthrights are people's unalienable rights that are lawfully recognized at birth by

international governments. The sovereignty of a nation is lawfully recognized by their nationality, tribal appellation/title, land, constitution, flag and seal. These national symbols, when publicly declared, when consistently used in the public, and when registered with the governments of the earth particularly in the sovereign nation in which the people live or visit, allow a nation of people to be lawfully recognized by the international body politics, thereby, receiving international protection at law. However, when a nation of people's birthrights are usurped or denied they are no longer sovereign. As a result of this social civic action the nation of people no longer have the supreme political authority and self-sufficiency to administer their internal affairs and will no longer be lawfully recognized by the international community as sovereign. Also, as a result of the aforementioned social civic act, the enslaved nation of people will no longer receive international protection at law. These social civic acts constitute involuntary servitude which means that a foreign government is interfering or dictating the internal affairs of a once sovereign nation of people.

II. Parentage Names

Names and particularly parentage/pedigree names are synonymous with nationalities and lawfully tie people to land, constitution, flag, and seal, thereby, giving them national and international protection at law. Parentage titles and nationalities identify and distinguish consanguinity throughout the world. As case in point the parentage names Lincoln, Williams, Jefferson, Jones and Franklin indicate that the persona with these pedigree names are of English ancestry, therefore their nationality is English and their national land is England.

The family names De Vinci, Danatello, Boccaccio, Abruzzi and Donizetti indicate these persons with these surnames are of Italian descent, therefore, their nationality is Italian and their national land is Italy.

The parentage names Waldseemuller, Von Bullock, Steimetz, Humboldt and Tischendorf indicate that those persons are of German pedigree, therefore, their nationality is German and their national land is Germany.

The Asiatics of North-West America (North-West Afrika/North-West America), whose bloodline can be traced throughout the ages all the way to the very beginning of civilization, have been called many names; some they made themselves and others they were called. The last legal title/appellation of the Asiatics in/on/of this hemisphere is Moor, which is a culmination of all the tribes of the world really. The specific titles/attributes are:

- Ali: most noble; ethereal; law bringers; reserved for those who have done great humanitarian works through the mastery of their discipline of study.
- El: law makers; law givers; the executives; those who are well studied and are a light of wisdom; scholars and students alike; force and power
- Bey: law enforcers; governors of land i.e. landlords; O-Bey the law; Muftis for Moorish society; proficient in jurisprudence and the application of law
- Dey: knowledgeable in the cosmological disciplines; masters of astrology
- Al: earned degrees in mathematics, geometry, psychology etc.; of the law; feminine form of El
- These titles are known and respected throughout the world as well as this continent and for confirmation of this fact research house joint resolution 75:

THE GENERAL ASSEMBLY OF PENNSYLVANIA
FILE OF THE HOUSE OF REPRESENTATIVES

RESOLUTION NO. 75

MR. WITKIN, IN PLACE' APRIL 17, 1933.

MOORISH-AMERICAN SOCIETY OF PHILADELPHIA AND
USE OF THEIR NAMES

Many sons and daughters of that proud and handsome race which inspired the architecture of Northern Africa and carried into Spain the influence of its artistic temperament have become citizens of this Nation

In the City of Philadelphia there exists a Moorish-American Society made up of Moors who have found here the end of their quest for a home and of the children of those who journeyed here from the plains of Morocco

This Society has done much to bring about a thorough absorption by these people of those principles which are necessary to make them good American citizens

These Moorish-Americans have since being here missed the use of the titles and name annexations that were so familiar at home and which are used in accordance with the doctrines of the religious faith to which they are adherents therefore be it

Resolved, That this House commends the Moorish-American Society of Philadelphia for the efficient service it has rendered the Nation in bringing about a speedy and thorough Americanization of these former Moors and that in accordance with the fullest right of religious independence guaranteed every citizen we recognize also the right of these people to use the name affixes El or Ali or Bey or any other prefix or suffix to which they have heretofore been accustomed to use or which they may hereafter acquire the right to use.

**SPEECH OF HIS EXCELLENCY MAATI JORIO
AMBASSADOR OF MOROCCO**
at the
MOORISH CENTENNIAL CELEBRATION
Honoring
NOBLE DREW ALI
January 11, 1986, The Howard Inn - Washington, D.C.

It is a privilege for me and for the other staff members of the Embassy of Morocco to attend this, The Noble Draw Ali Centennial Tribute Dinner. Please let me take this opportunity to express to you our collective appreciation for your kind invitation and my personal appreciation for having been chosen to receive the Ambassador of the Faith Award. I am greatly honored. It is also a pleasure for us to be in the company of such distinguished guests as those here tonight and to be taking part in such a joyous celebration. We are happy to bring you all greetings from His Majesty King Hassan II and the people of Morocco.

By now, I have been made well aware of your devotion to strengthening the ties linking the Moorish American Community to Morocco. Morocco, for its part, welcomes your interest and your work for a better understanding between us. I would like you to know that your efforts have not gone unnoticed. Your initiative is to be both respected and encouraged. As to us, we in turn, have every intention of doing all possible to make our relationship a vibrant and a special one.

But for that goal to be met, we must also look to the future. We cannot limit ourselves to considering just the historical aspects of our relationship, thereby believing that good relations between us are a matter of fate. Rather, we should understand our cooperation to be a living entity, able to grow and open the future. It is here that we can begin to recognize the importance of our children's role. Whatever advances we make, it is our children who will have to follow through.

Morocco is awaiting your proposals. We are pleased and proud to have the Moorish Community as one of the bridges between Morocco and the United States as a new voice in the network of our longstanding relationship.

Thank you.

Embassy of the
Kingdom of Morocco

This is just another piece of evidence to coincide with H.J.R. 75 so as to shed light on the fact that our bloodline and heritage is known and respected and that people take us more serious than we do ourselves.

III. Nationality

Nationality, which arises at birth, coming from the word nativity which means to be born, is the hereditary genetic birth line of any people of the same parentage. In divine natural law and in the harmonious national and international civic/common law, nationality lawfully bonds any people of the same pedigree together. Nationality determines the political and social status, position or rank in a society. In the categorization of citizenship, status is the first issue, at law, that must be addressed or considered in the national and international civic arena. Furthermore, nationality distinguishes between the primitive aboriginal sovereign people and foreign nations and/or aliens in all sovereign nations. Nationality determines all rights and privileges to the resources and benefits of the land and who has limited rights and privileges to the same. A national written constitution, agreed upon by the sovereign peoples, protects their sovereign rights to all resources and benefits of their sovereign nation. Whereas, foreign nationals have limited rights and privileges to the resources and benefits through treaties that their governments make with the sovereign government in which they visit or live. The treaties made between the primitive aboriginal sovereign nation (home government) and any foreign sovereign nations are constitutionally in force.

The treaty of peace and friendship of 1786, 1787 and 1836 is the longest running treaty in the world. Also see the treaty of Tripoli and here are excerpts from a book titled "Index of British Treaties 1101-1968:

1666

This is why they stripped of our nationality so as to side-step their obligations, via article 6 of the American Constitution for the United States republic. This is also why in the 1705 "Black codes of Virginia" article 49, the Europeans make a specific reference to Moors and how they are not subject to the Roman Catholic statutes and are distinguished from "negroes, blacks, etc."

IV. Birthright Inherited National Land

*Moors, Order Of The Roundtable**Civics***AMEXEM**

Northwest and Southwest Amexem along with the adjoining Islands— Land of the Moors, the descendants of the Ancient Moobites.

In these Contemporary times, Amexem is called America.

— Home —

These are some of the Names Amexem has been called:

Amexem

Mu

MRC

Moroc

Al Moroc

Northwest and Southwest Africa

North and South America.

America is the prefix of Amexem and the suffix of Africa = Ame-rica.

America = Al Moroc

American = Al Moroccan

Al Moroccan = Moorish American

Moors: The descendants of Moroccans and born in America. Al Moroccans.

— Bro. Tal Tarik Bey — Moors Order Of The Roundtable, Northwest Amexem

The land of a sovereign people is their heritage. Heritage is the tangible substance that is owned and possessed by right through inheritance/birthright. It is passed down through generations and is possessed and titled in the tribe's (nation's) attribute/appellation. National land is protected and maintained with the knowledge of the people's birthright- nationality, parentage, title, national constitution,

flag and seal. The culture and heritage belong to the sovereign national i.e. the aboriginal and primitive people of the land.

Holy Circle & Koran, Chap. 47 verse 6-7:

6. The Moabites from the land of Moab who received permission from the Pharaohs of Egypt to settle and inhabit North-West Africa; they were the founders and are the true possessors of the present Moroccan Empire. With their Canaanite, Hittite, and Amorite brethren who sojourned from the land of Canaan seeking new homes.

7. Their dominion and inhabitation extended from North-East and South-West Africa, across great Atlantis even unto the present North, South, and Central America and also Mexico and the Atlantis Islands; before the great earthquake, which caused the great Atlantic Ocean.

This is our (Moors) land as we are the true Americans which is affirmed and confirmed through our pedigree/bloodline and is further corroborated via the 1828 and 1936 Webster's unabridged 20th century dictionary whereas an American is defined as:(n) An aboriginal or one of the various copper-colored natives found on the American continent by the Europeans; the original application of the name.

V. National Constitution

A national constitution is the lawful written contract among the sovereign people of one nation traced through mother. The sovereign people of one nation agree to submit themselves to the agreed upon law and jurisdiction of their parentage nation for the promotion of their general welfare, protection and their individual as well as collective rights to life, liberty and property. This is their birthright.

Political rights and civil liberties are received when the people of one nation, in majority vote, agree to surrender some of their sovereignty in a limited capacity. Political rights and civil liberties can only be exercised in the formation or administration of the government. These political rights and civil liberties are established and recognized by a national written constitution. This constitution/contractual agreement give the sovereign people of the nation the rights and privileges to participate directly or indirectly in the national government.

The sovereign people delegate some of their sovereignty in a limited capacity in a government structure. Qualified electors and/or representatives among the people are selected and thereby given the sovereign power relinquished to them by their sovereign peoples. The qualified electors and/or representatives in turn, delegate power to others selected among the sovereign body of the one nation to assist in governing the affairs of the sovereign body.

The qualified electors and/or representatives have the responsibility to govern the internal affairs of the nation, i.e. executing or applying the law, collecting taxes and levying contributions, making war or peace, making treaties of alliance, entering into commerce with foreign nations and the like. (See C.M. Bey's work- Zodiac Constitution; and Organic American Constitution 1791)

VI. National Seal

The sovereign people create a national seal to express and preserve their customs, culture, language and to protect their birthright heritage, furthermore, this national symbol is the principle seal of a nation and is used to/for authenticating documents of high importance or ceremony, issued in the name of the sovereign or chief executive authority. It serves to identify the nation in the same manner as a signature of an individual,

organization or other entity to authenticate written material emanating there from

The Great Seal of the Continental United States

The Great Seal of The Continental United States Moorish nation represents the de jure sovereign authority of the primitive and aboriginal Moors, emanating from birthrights and inheritance. That is the Moors have sovereign authority over their jurisdictional affairs and the land of Al Moroc (North, Central and South America and the adjoining islands). Furthermore, the Great Seal represents the Federal Republican Government with dually involved and separate but interactive jurisdictional affairs (FEDERAL and STATE). The Treaty of Peace and Friendship of 1787 A.D. was signed between his Imperial Majesty of the Emperor of Morocco and the United States of America is the lawful document that has formed the alliance between the Moors and the occupational European colonist.

The Seal of the United States of America

The Seal of the United States of America represents the limited jurisdictional sovereign authority of the peregrinus/pilgrims Albinus Gauls the occupational European colonist emanating from war and ultimately resulting in the signing of the Treaty of Peace and Friendship in 1787 A.D. That is, the occupational European colonists only have sovereign authority over their jurisdictional affairs and not over the land of Al Morocs (North, Central and South America and the adjoining islands). The Seal of the United States of America further represents the states' (occupational European colonists) side of the dually involved government- FEDERAL and STATE- with separate but interactive jurisdictional affairs. The secrets of why these two seals appear together on the back of the unconstitutional Federal Reserve Bank's one note (so-called dollar bill) distributed in the foreign juristic United States of America.

VII. National Flag

The sovereign descendants of a nation create a national flag to express and symbolize their parentage, customs, culture, language and to protect their heritage. Moreover, the flag symbolizes a nation's jurisdiction and authority over the national land. The claim over the land may be de jure or de facto. If a nation's claim over a national land is de jure, it means that the people's rights to the land were passed down rightfully through inheritance.

If the claim of the land be de facto, as it is the case of the Union States Society (U.S.A.), meaning that the national land was usurped. The true de jure heirs to the land, being Moors/Moroccans, are the only ones who have rightful claim to the land which is North, Central and South Amexem/America/Afrika. We are the only true sovereign nationals; everyone else is an alien/foreigner to these lands. The Star-spangled Banner (red, white and blue with stars) represents the members of the Union States Society i.e. the U.S.A jurisdiction over their colonists/states as well as its subjects and not the land called North, Central and South America (North-west and South-West Amexem/Afrika).

.The National Flag (Moorish Nation)

The national flag of the Moabite Moorish Nation of North America (North Gate). This bright cherry red flag with the 5-pointed green star in its center is the national flag of the Moorish Nation. Have you ever thought of why the Christmas colors are red and green and why a 5-pointed star adorns the top of the tree? The red and green colors and the 5-pointed star are used in celebrating the taking down of the Moorish flag, thus, the defeat of the Moorish Nation.

It has been taught in the United States of America's reconstructed history that George Washington as a young boy was so honest that he once said, "I cannot tell a lie, I chopped down the cherry tree." Did you really think that George Washington chopped down a real cherry tree? This was a code

signifying the taking away of the Moorish birthright/paradigm from the natives of the land. Most of reconstructed history is hidden in symbology.

The Treaty Flag (Continental)

The continental flag, which is the flag of the continents and has the pine tree or the evergreen, representing everlasting life, as man is mind and there never was a time when man was not- thus everlasting life.

Star Spangled Banner

The Flag of the Colonial States of the Union (representing the English, Irish, Germans, French, Scottish and the Dutch (Holland) Companies/Corporations/Guilds is: A flag of 7 red stripes and 6 white stripes, totaling 13. It has a blue canton, containing stars, which symbolize the States. The stars are white. It was officially adopted in 1932.

*Nations without a flag to represent them are dead nations; that is to say, their names are no written in the universal Book of law (nature).

(C) Jurisprudence

I. Political Status

Political status has been a topic that has been vaguely addressed in the study of jurisprudence. Yet it is the first issue at law that must be addressed or considered nationally or internationally. Why have the scholars of jurisprudence not addressed the profound importance that political status plays in national and international law? Why have they not addressed the corporate status of the Moors (now labeled and classified as black, negro, colored, African, etc.) and the legal significance these slave brands have in national and international law? A careful examination of political status will give the Moors, who have these brand names, the inner/overstanding of the importance of nationality and the danger “at law” of using these chattel brands as identities.

Political status is the categorization of citizenship, non-citizenship, social position or rank in a society with direct effect in relationship to rights, immunities and privileges. It is the first issue at law that must be addressed or considered nationally or internationally. The following categories determine the status of the people/person and what laws apply in society

Status Categories:

- 1) Nobility/Sovereign/Free White Person
- 2) Foreign National
- 3) Foreign Subject
- 4) Resident Alien
- 5) Non-resident Alien
- 6) 14th Amendment Artificial Person

I. Nobility/Sovereign/Free White Person

(A)Nobility: Moors are the Nobles of North, South and Central America (Al Moroc) and the adjoining islands by hereditary birthrights. This type of caste system, which is based on hereditary birthright, was developed by the Moors. The Albion (Europeans/Romans/Red-Men) changed this caste system to a class system which is based on wealth and hidden in codes, black and white, implying colors when they conquered the Moors, thus, usurping the hereditary nobility.

Ali, El, Bey, Al, and Dey are the Moorish noble titles to the lands- North, South and Central America. These Titles of nobility are the only lawful titles to the land. They are the titles of honor and nobility that are referred to in the constitution for the united states of America that their contracted citizens (Albion/Roman males) cannot claim and remain a citizen of the U.S.A. If so they would be in violation of law and no longer remain a contracted citizen of the United States of America. The original article 13 that the English sociologists and social engineers now exclude from the common civic literature for the masses, states this point of law.

(B)Sovereign (We Th People): Moors are the sovereign body that is referred to as “We the people” in the preamble of the constitution for the united states of America. Moors are the true national sovereigns of the great seal continental united states of Federal Republic.

Sovereigns have supreme political authority. We, Th Nobles, are the primitive/aboriginal people of the land. Moors have all the benefits and rights to the land. Moors have absolute authority and rulership over the land in accord with nature. The absolute authority and right to land is granted through inheritance, genetics and pedigree. This absolute authority and right cannot be bought or sold. It is only gained and maintained through heredity/consanguinity.

(C)Free White Person: Black's Law Dictionary 4th Ed. 1968:

FREE WHITE PERSONS. "Free white persons" referred to in Naturalization Act, as amended by Act July 14, 1870, has meaning naturally given to it when first used in 1 Stat. 103, c. 3, meaning all persons belonging to the European races **then commonly counted as white, and their descendants, including such descendants in other countries to which they have emigrated.**

It includes all European Jews, more or less intermixed with peoples of Celtic, Scandinavian, Teutonic, Iberian, Latin, Greek, and Slavic descent. It includes Magyars, Lapps, and Finns, and the Basques and Albanians. It includes the mixed Latin, Celtic-Iberian, and Moorish inhabitants of Spain and Portugal, the mixed Greek, Latin, Phoenician, and North African inhabitants of Sicily, and the mixed Slav and Tarter inhabitants of South Russia. **It does not mean Caucasian race, Aryan race, or Indo-European races, nor the mixed Indo-European, Dravidian, Semitic and Mongolian peoples who inhabit Persia.** A. Syrian of Asiatic birth and descent will not be entitled to become a naturalized citizen of the United States as being a free white person. The Moors are the true free white natural persons/people of the America (Al Moroc) through consanguinity/pedigree/bloodline and heritage. Free white person does not mean Caucasian race!!!

Free white people refer to the primitive aboriginal true nobles of the land-North, South and Central Amexem/America (Al Moroc) and the adjoining islands.

II. Foreign National:

Foreign nationals are citizens of a foreign nation. They are non-residents of a foreign nation they visit. They often do not plan to reside in the States, but only visit as in a vacation stay. They do not apply for residency in the States. Nor do they surrender their birthrights and sovereignty by applying for naturalization in the juristic United States of America. They possess a nationality card that identifies their parentage/pedigree nation and a time limited visa or green card. Their nationality card along with a time limited visa and green card shoes proof of registering with the nation they visit. The foreign nationals' birthrights and sovereignty are recognized through their nationality and is protected by national and international law. Their national written constitution, national standard (flag) and seal represent them in whatever nation they may visit. Furthermore, foreign nationals receive protections, immunities and limited rights and privileges to the benefits and resources of the nation they visit through treaty (ies) their sovereign government has with the nation in which they visit. Treaties are constitutionally in force. All rights and immunities are rooted in sovereignty. All sovereignty is rooted in birthrights. All birthrights and sovereignty is rooted in nationality: nature's law.

III. Foreign Subject (Non-indigenous/primitive):

Foreign subjects are citizens of a foreign nation. They give up their allegiance to their pedigree/parentage nation and relinquish it to the foreign juristic United States of America Corporation. This means they have relinquished their birthrights and sovereignty to the foreign juristic United Sates of America Corporation. As a result, they have no national and international

protection at law. As subjects, they are bound to obey the law; thereby locked into the status category as property of the Union States Society. They become classified as displaced persons.

The naturalization process in the United States of America is a deceptive methodology of stealing birthrights and sovereignty through the unconstitutional/ ex post facto/ fraudulent 14th amendment from otherwise non-subject jurisdictional people.

IV. Resident Alien: Resident aliens are citizens of a foreign nation. They have not relinquished their birthrights and sovereignty to the foreign juristic United States of America Corporation. They possess a nationality card identifying their pedigree/parentage nation. They have become permanent residents and register with the United States government or any government in which they reside at that time. They have a national constitution, national standard (flag) and seal that represent them and are protected by national and international law. However, resident aliens do not have the same rights to all benefits afforded to the citizens of the nation of which they have become a permanent resident. In the foreign juristic United States of America Corporation, the English Roman/European male is the only contracted citizen, excluding all others even the English female. The resident aliens are afforded limited benefits (privileges) as a non-citizen.

Example: Foreign nationals who come to the foreign juristic United States of America Corporation on a visa and apply for residence in one of the States. The visa has a time limit and they must reapply to extend their residency.

V. Non-Resident Alien: Non-resident aliens are citizens of a foreign nation. They have not relinquished their birthrights and sovereignty to the

foreign juristic United States of America Corporation; therefore, they have national and international protection at law. They have not applied for a visa nor registered with the government in which they visit. However, they possess a nationality card, identifying their pedigree/parentage nation. They have a national written constitution, national standard (flag) and a seal that represent them and are protected by national and international law.

The Union States Society classifies them as “illegal aliens”. This de facto government defines: illegal aliens” as people who sneak over the borders and who do not register with the government. They either have a relative or a friend cover for them, or find a method to attain “falsified” documents/paperwork relative to the jurisdictional claims of the Union States Society. The Union States Society has de facto authority over the piece of land now called the United States of America and over the primitive people, who are in a denationalized state with the brands negro, black, colored, Afro-American, African-American, Latino, Puerto Rican, Indian, West Indian, etc. Classified “illegal aliens” often receive benefits as a result of what the foreign juristic United States of America Corporation, with its headquarters in England, classifies as false identification/paperwork.

VI. 14th Amendment Artificial Person: This is the status category that the Union States society uses to classify the aboriginal Moors of North-West Amexem/America that are denationalized by way of the accepted labels/brands (negro, black, colored, etc) who are in fact the true nobles/sovereigns/free white persons (legal status). They do not have a publicly declared nationality and matching identification, therefore, they are stateless. In a denationalized state the Moors are locked into the status category as chattel property of the Union States Society.

As a result of relinquishing their birthrights and sovereignty to the foreign juristic United States Corporation Company with the labels negro, black, colored, African-American, Hispanic, Latino, Puerto Rican, Indian, West Indian, etc., knowingly and unknowingly, the denationalized Moors have voluntarily contracted their labor, bodies, progeny (children) and of all products state sanctioned and ordained marriages to the confederation/constitution contract party citizen (Roman/English male).

The unconstitutional, ex post facto and fraudulent 14th amendment has been used to continue to enslave the labeled Moors through contracts and to deceive them into believing that they are citizens of the Union States Society/Corporation. Also, labeled Moors believe they have rights guised as civil rights, when in fact they do not have any rights in their denationalized/stateless status. They, however, are granted privileges that are revocable at any time by the confederate colonists (Romans/Albion).

I. 7 Root Causes of "Black" Problems

- 1) A lack of knowledge of self; which is tied to parentage, through heritage and cultural orientation; with sovereign rights to the land and its resources.
- 2) A lack of de jure nationality, a national flag and national seal, to solidify the distinction of the above: in the international community.
- 3) A lack of birthrights (self-authority) and heritage (land and resources), due to theft, by foreign and alien Roman colonial incorporated companies/states.
- 4) A lack of sovereignty, due to theft of birthrights, and the lack of a written constitution, originating from self, for national and international protections of sovereign rights and immunities.

- 5) A lack of enough honest or knowledgeable true (de jure) representatives of the people (branded as blacks), who are willing to admit to or tell these truths, rather than capitalize on the profitable social and political opportunities opened due to these civic wounds.
- 6) A commonly held attitude of cultivated weak and sluggish will, when the pressure of work, finance and sacrifice becomes evident to bring true (de jure) law and a teaching of sovereign capacity to the stage of reality. This weak tendency must be reversed, with priorities clarified by proper civic instruction.
- 7) Above all- before any people can be recognized by the international community of nations- publicly declare your nationality! From this point, the rights and freedom solving process begins!

* No politically oppressed people can rise from civil death without knowledge of nationality, birthrights and sovereignty!

II. Chattel

Chattel is a Law term, which has been, and is, politically applied to human beings who have been ‘dehumanized’ by the U.S. Demos’ artificial - person -constructs, and acts of forced enslavement. Chattel means ‘an article of goods or a thing’; and is specifically applied, in law, to goods movable and or immovable; except such as have the nature of ‘freehold’ status. **Chattel** is also spelled, **catel** and is the same word as ‘**cattle**’. The subtlety of its political use, within society, is to make the apparent ‘distinction’ between a ‘socially and politically-neutered’ or ‘civilly-dead’ human being and that of a ‘common beast of the field’. (Refer to the William Lynch Papers). Negro is, thusly, a favored ‘**sobriquet**’ coined by modern-day European slave-holders occupying North America, in order to regulate and distinguish ‘chattel property’ from ‘free Moors’, other free peoples, or from free nationals, designated as sovereigns from other free

African or Asian National or Political States. The 'brand', **negro**, is Latin and defines as 'black', meaning 'loss of consciousness' and of 'social, moral and civil death'. Thus, much emphasis was put upon that mental and social state of 'civil death' and 'spiritual-death' and recognized as a person suffering of a 'broken' spirit.

The occupying Europeans' artificial creation of the '**corporate - negro - status'** laid the illusory groundwork needed for the 'colorable' erection and construction of '**false jurisdictions'** and '**straw-man'** constructs - used to fund and support their fictive claims of authority, legality and law. These 'colorable' social / political fictions and jurisdictions were invented for veiling 'bureaucratized, forced servitude' and to carry out 'birthrights -theft' against the Aboriginal and Indigenous Moors. Thus, false corporate jurisdictions are the institutionalized origins for functionally applying 'color-codes', 'color-of-law' and the fictionally justified term, "**colored people**". The 'negro status', in its social nature and profits-generating effects, involves activation of the firmly held and undignified '**Black Code Systems'** - deemed toward political separation of such 'neuter classified' beings from the illustrious and High Culture Knowledge of Civilization, and absent from affecting the authority-operative governing affairs of '**self**' or that of the Human Family. Lacking an authentic knowledge of the sortilege use the 'negro-legal fiction', denies one a clear understanding of true Law; of true World History; and of High Culture, which gives stability and supports to Human progress, in general, and to Western social and political developments.

III. Identity Crisis

The word **IDENTITY** is a noun. Derived from the old Moorish Latin word, *identitas*, or ultimately, *idem*, meaning same. Identity denotes who a person is, what a thing is, or individuality. The unresolved question

amongst the oppressed and suppressed peoples, branded negro, black, colored, west Indian, etc., is that the names they are marked with, as national and parentage and pedigree names, are clearly not the names of their forefathers. Most slaves bear the names of the European Slave holding families. Their names are alien and not the same as their forefathers. What is wrong and who is seriously addressing this issue?

Crisis

The word **CRISIS** is a noun and is an unchanged Moorish Latin word meaning, the turning point in a disease, toward life or death. Crisis also means an emergency. The very life and culture of the branded and labeled people, suppressed by the European occupational Union States Society is in a **CRISIS**.

One of the many and numbered **SOCIAL CASTE** traps, disrupting the oppressed dark and light olive Asiatic Community in the Americas, is the continuing **NATIONAL IDENTITY CRISIS**. There are major social and economic issues facing our people, who have been denied their right to sovereign self government. Most are unaware of the true sources of their oppression.

Politically supported and protected social and economic disruption engineering, has been traditionally directed by the colony/States, against the indigenous peoples of the Americas (Al Morocs). The brands and labels of **NEGRO, BLACK, COLORED, INDIAN, WEST INDIAN** etc., have been accepted as true and are feigned retroactively into ancient history. These chattel brands and labels (fraud) are given de jure and legitimate reality in the States' educational systems of the West.

With the absence of the true national descent names of your Moorish forefathers, the nations of the Earth have no lawful or legal obligation to recognize the heritage, birthrights, and immunities of the people. You cannot inherit that which is your forefathers if you don't recognize or acknowledge them (self) or bear their national names. The identity of your forefathers and yourselves must be in harmony as one and the same people!

Solve Nothing Opportunists

The world needs graduation, but the overseer leaders and teachers are unwilling to instruct or teach. The People are in want of knowing, but the selfish LEADERS and religious GOD-SELLERS are too busy collecting wealth for themselves. They never support or admit to truthful and applicable information that they do not control. They refuse to reveal the fundamental CIVIC truths which, they know very well, would begin to free the People. Most of them would have to condemn themselves. Ignorance is a heavily promoted money generating business within the Union States Society of America. **THEY DO NOT WANT IGNORANCE TO END - RHETORIC IS THE ORDER OF THE DAY! TRUE. WORKABLE SOLUTION ORIENTED INFORMATION IS QUICKLY DISMISSED AS MERE UNSUPPORTED OPINION!**

There is a striking similarity between **MOST ALL** the **traditional APPOINTED**

LEADERS and religious GOD-SELLERS. They have much in common with the

OPRESSORS of the poor and politically unprotected peoples in the Americas.

For example; review and examine the following:

A. These Leaders usually claim to **KNOW GOD** (having direct conversations), but **DO NOT, CAN NOT** or **WILL NOT**, identify the people they **LEAD**. They claim not to have the ability or resources to find the records or truth as to who or what the true national and parentage names of the enslaved peoples are! When questioned, they will often make statements like: “Don’t question the word of God” or “The slave records were lost on a ship that sank off the coast of Virginia”, etc.

B. The Leaders and God-Sellers always have a new or different version of God and religion to sell to, or force on the oppressed peoples. Another obvious and common similarity is that these all-powerful Gods are always financially destitute and desperate for money. They always claim that their God is the same God, but yet different from everybody else’s God. This is done without qualifying either Gods.

C. The State Ordained Leaders continuously establish organizations and institutions, costing MLLIONS upon MILLIONS of dollars to run yearly, but solve little to nothing, relative to the true problems facing the people. The people are cultivated into passively tolerating their social and economic oppression, with naive praises of false success.

D. These ordained Leaders come amongst the oppressed and poor people, asking for MORE money, to continue the previous failures - then they leave again, as usual - expecting the poor people to pay bills with - and live on blind faith. Question! Why don’t these leaders and God-Sellers stop asking for money and live on the blind faith that they perpetrate among the poor and oppressed.

E. These ordained State Leaders will spend millions of the people’s dollars paying lawyers to get equal pay for a woman or man working for some company charged with racism- calling it a win. Upon examination of the expenditures and suffering, they could have bought many a company out - lock - stock and barrel for millions less. The violating company could then serve the people and create jobs and ownership among the people. That

position however is too much like resolution, common sense, honesty, and problem solving.

F. These traditional LEADERS and GOD-SELLERS consistently claim to be called by a GOD, ORDAINED by a GOD, yet never give instructions for direct and measurable communication with that GOD. The poor and oppressed never quite pray enough, give enough or have enough blind faith! These overseers never teach the oppressed peoples of a route to economic control and stability, or of a direct relationship with these Gods, independent of paying off these LEADERS and GODSELLERS on a consistent basis. When the People's money STOPS, the GOD STOPS!

G. These traditional LEADERS and GOD-SELLERS blatantly claim ORDINATION by the ALMIGHTY GOD AND DIVINE CREATOR. However, upon just a little investigation and research, one will quickly discover these people to be ORDAINED, SANCTIONED, LICENSED, INCORPORATED and SUBJECT to the very suppressive and oppressive Colony States that they claim HOLY separation from! It would be fair to see them for who they really are... AGENTS OF THE STATES and ROMAN SOLDIERS! Why don't they admit to what is obvious and provable? They have strong faith and confidence that the ignorant, (often by choice) masses will not read or study for themselves! The middle-man's leech inspired job is secure!

TRUTH STANDS ALONE AND NEEDS NO APOLOGY!

Adjectives, as applied to people

Adjectives describe, they do not identify. The words, negro, black, and colored are adjectives and have been used to label Moors who have been reduced to servitude, by European Colonists. These words, in spite of their popular acceptance, cannot be properly used to identify any human being. This fact alone should end any continued argument on behalf of the

fictitious names and the state of the persistent Identity crisis. An example of the proper use of adjectives is:

A. She bought a BLACK Rolls Royce. Rolls Royce is the noun - BLACK describes the Rolls Royce.

B. The condition of the nation looks very BLACK. The word NATION is the noun and subject in the statement. BLACK is descriptive of the NATION'S condition.

C. The man has a BLACK heart. Man is the noun and black describes or implies an evil character or nature of the man.

Negro is the Latin word for BLACK. State ward agents and scholars will vehemently defend against and claim NEGRO to be a nation of people, while declaring themselves to be BLACK but not NEGRO. The word NEGRO is used in the Spanish and Portuguese dialects of Latin. The Dutch Master Slave holders initiated and coined the use of the words, black, negro and colored, to describe their chattel property. The Colony/States and their overseers carry on the tradition.

Colored

The word COLORED, is another of the States slave and ward labels used in European

Colony/State social engineering. It is an adjective, meaning:

1. Having color; not BLACK or WHITE.
2. Anything which has been painted, stained or dyed.
3. Any thing appearing to be other than what it truly is.
4. One of the slave labels and brands used by European sociologists and anthropologists to categorize any and all peoples of the Earth, outside themselves.

5. A word attached to all and any fraudulent or artificial ordinance or law.
6. Tinged by prejudice, emotion, desire for effect, etc.
7. Biased and deceitful.

Black

The word, BLACK, is also one of the States slave and ward labels, used in European

Colony/State social engineering. It is an adjective, meaning:

1. The opposite of white, Evil and wicked; mourning.
2. Reflecting little or no light.
3. Negro.
4. Dirty and filthy.
5. Death. .
6. Black Canons
7. Evil and wicked; mourning.
8. Absence of all moral light or goodness.
9. Disastrous or foul and displeasing.
10. Dismal, gloomy and unlike the other members of a civil society.
11. Temporarily blind or unconscious.
12. To blot out, suppress or withhold.

Isn't it strange, yet revealing, that scientists, researchers and scholars of the world can take a firm position and tell you about the existence of dinosaurs, dating millions of years ago - writing this information in books? On the other hand, these same scientists, researchers and writers seize with amnesia and contusion, when faced with the challenge of revealing the true identity of the peoples they have held and still hold to servitude, through force of non-representative government, usurpation and false information.

State Agents

State Agents, as referred to in this article, are people who surreptitiously operate, singularly and/or in organizations to undermine economic, social and national progress amongst oppressed peoples - namely Moors, in the Americas, branded with adjective tags.

Traditional State Agents are directly employed within organized public sub-agencies. The unsuspected State Agents are usually persons calling themselves negro and black leaders from God, but are ordained as leaders, by Union State governments, Union States government agencies or industrial politicians and/or persons behind the scenes. Their ultimate mission is to keep any and all indigenous Moors from sovereign power of self government.

Agents are politically controlled by and for the Slates' benefit. They feign sincere interest in the problems and affairs of the people labeled, black - using unworkable 'rights causes' to divert attention from true issues that need to be addressed. These agents are regularly featured by the Union States' mass media - usually have religious and political jobs (network) and live economically comfortable lives.

An AGENT is a PERSON or THING which acts as a representative, deputy, helper or intermediary of or for another. An AGENT is any power, person, authority or cause that produces an effect. An ignorant person can be an AGENT to his or her own ENEMY and assist in self-destruction. Many Slaves and Wards were chosen by the several States' governing bodies or agencies to be AGENTS against their own peoples' interests.

This does not mean that every leader, calling himself or herself black, negro or colored is consciously a State agent. A person can be a State agent through blind faith or ignorance. Due to the fact that the words, black, negro and colored, etc., are State Colony slave codes, any so-called leader who promotes' these TAGS are undoubtedly State Agents. Ignorance of a subject matter in which many of these people make their livings off the people, does not excuse them from the responsibility to be educated and well schooled in such matters. The oppressed and subjugated people always pay the price for others (agents and the States) profiting off this socially negative servitude adhesion contract slavery industry.

Most **AGENTS** are well schooled and are conscious of their work and missions - very few are not conscious of what they do! A binding tax status is often used to lure adhesions to the STATES. One of the trick adhesions is the **501 - C 3 tax exempt trap**. Tax cannot be used as a coercive instrument to grant rights. Rights cannot be sold by governments to the people - especially if the people are not of their Constitutional Contract or Pact. The power to grant tax relief, implies and contracts the power to tax Oppressive Corporate States have traditionally used TAXES to force oppressed people into submission economic subjugation and industrial extinction.

There is no honorable need for protecting the existing ignorance - in reference to the IDENTITY of our branded People. The oppressed Peoples have been trained and taught to think and believe that the labels - black, negro, colored. are variations of a nationality or the national names of human beings. This popularly accepted position of thought is false!

High social status is bestowed upon the STATES' ORDAINED SCHOLARS, LEADERS, TEACHERS and GOD- SELLERS who teach,

promote and sanction the brand names as the nationality of the oppressed peoples. Their willingness to trade and hide the truth for a benefit is well established for the record! The truth is here - they can stop deceiving and pretending!

A common dictionary is readily available to most ADULTS and CHILDREN. The most effective way to expose the truth on the IDENTITY CRISIS issue is to keep it simple and to the point! If a child can read it, certainly an adult should be capable of understanding.

NOTE: The Student will take notice that most modern editions of the dictionaries, made available to you, are stripped of much vital historical and etymological information, relative to many older volumes. This is not accidental. It was done with the recognition that more people are able to

read, today Reading, studying and research is counter to the active forced illiteracy and social engineering war waged in the past and present history of the United States at America, including all territories under her influence and jurisdiction.

Webster's Universal Unabridged Dictionary:

Mor ii. [L. Maums Cr. Mauros, a Moor, from mauros, black or dark.]

1. A native of the northern coast of Africa, called by the Romans, from the color of

the people, Mauritania, the country of dark-complexioned people; a native of

Morocco.

2. A member of any of the African or Asian dark races adopting the Mohammedan

religion; in history a Saracen or an Arab.

3. A negro; a black.

Black (blak) adj. Of the darkest possible hue; without light, very dark, as, a black night; gloomy, discouraging, as, a black view of things; dressed in black, as, the Slack Prince; having a dark skin, as a Negro; sullen, inimical, as, a Mack look; discolored, as, a black eye.

Black (blak) vi. & vt. To become or to make black; blacken, as shoes; discolor, as the flesh around the eye, with a blow.

Compound Word:

Compound word: A compound word is a word made by combining two or more words to create a new word. **Example: Show** is a word. **Place** is a word. These two words have totally different meanings. When the two

words are put together, they form another word; Showplace. Showplace is a compound word.

The word **Black-A-Moor** is a compound word. This was the **last word used in the early history of the Americas that has any part of truth left of our true national identity**. Later, slave holders dropped the national name, **Moor (proper noun)** and called us by the **adjective, black**. This was done to give credibility to the adjective, BLACK, and to project it as a PROPER NOUN. Thus, stripping us, THE MOORS, of our national identity, the word BLACK describes the defeated and branded Moors' political, social and economic status - **black**.

The European sociologist aid scholars clearly attempt to legitimize the words, black and negro. They promote their use as proper nouns, by equating these adjectives with the proper noun, Moor. This manipulation at the records and reading materials is designed to confuse those who have little education and tack background information into the secret histories of the West. Further proof of negative intent is exhibited by the common use of the words, black and negro, and by the conspicuous absence of the use or acknowledgement of the proper national name. Moor or Moorish.

Who are the black-a-moors?

Who are the Black-a-Mores? Webster's Seventh Collegiate Dictionary: Note below that the adjective, **black** is not capitalized. The proper noun, **Moor** is capitalized because it is the true identity of the people who are presently marked with the brands and labels, negro, black, colored, etc.!

The Students and people who bear the brands and labels, negro, black, colored, etc. may take notice of how the States' Slaves, Wards or mis-educated people can be misled and misguided. Due to the States' educational institutions and social/economic engineering controls, many do not know, understand or recognize the difference between an *adjective* and a *proper noun*.

It is vitally important to keep in mind that those of us most passively submissive under The Union States Society's instruction and influence are trained to **substitute beliefs for knowledge**. If confronted with factual information, many of our people will often EQUATE FACTS with more OPINION. THERE IS A MARKED PATTERN of unwillingness or inability to discern the difference in value. In Slave and Ward culture, BELIEFS are more important than KNOWLEDGE!

To continue with intelligent examination of the subject matter at hand, and to counteract false instruction, let us further explore commonly available information from ordinary dictionaries.

As one can easily deduce from common and readily available books, such as the dictionaries found at home and in institutions, the true identity of the people labeled negro, black, colored, etc. is no secret and, in truth, never has been. The conquerors and their agents have worked diligently to promote and ensure ignorance at the expense of the oppressed. Everybody in power knows - and is well aware of who they have enslaved - but the enslaved people, themselves? It seems that reading for oneself has been cleverly cultivated as a sin by some highly trusted people- who might they be?

A major reason that the false negro and black slave labels are accepted as true national identity names is due to repetitious enforcement through literature distributed by institutions and propagated by the traditionally highly trusted religious leaders. Most of these leaders are not elected by the people, but are assigned by and built up by the States' and the State's controlled press. The majority of these States agents belong to one of the many secret societies under European corporate control, whose mission is to subjugate the Moabite Woman and Her progeny (off spring).

For those who desire more knowledge of the subjugation and slavery processes used to conquer the Moors, a dedicated study of the INQUISITION and the BLACK CODES of 1724 would do wonders!

The true and most effective **KEY** to conquering a nation of people is to **control the Woman and her womb**. All advanced military attacks are based in this fact. This is not taught to the common soldiers in military organizations - they are just given instructions to attack women and children under guises of necessity. He who controls the Woman controls the Nation.

The defeat and enslavement of the Moabite/Moorish Nation in the Western Hemisphere is the most secret history in all public literature! Both the history and culture is kept from public consciousness as much as possible, by the ruling Colonial States and their European citizen subjects. This Status Quo condition of social rot is agreed to and supported by many Moabite/Moors, who use, maintain and cherish the black and negro labels and European names, titles and positions awarded to them for their service. They sell the blood of their own people for a few pieces of silver.

The Crescent and the Star is one of the most significant symbols of the Moabite/ Moorish Nation. The Crescent symbolizes Luna, the Moon. The Star symbolizes Ishtar, the planet Venus. The Crescent and the Star, together, symbolize the Cosmos and the high cultured sciences of the Ancient Moabite/Moors! Both the Moon and Venus represent fertility and fecundity. The Moabite/Moorish Woman and her reproductive cycles of 13 are governed by these planets. This is known and respected by the alien occupational conquerors of our civilizations and they use this information in all military actions against the Moors.

In symbology, the subjugation of the Moabite Woman is shown as a circular crest or badge displaying the head of the SPHINX with the Crescent of I.S.L.A.M. superimposed behind Her head. The Scimitar (sword) is displayed behind her head. The horns of the Crescent are pointed downward. The Moabite/Moorish star is displayed in red, within the horns of the Crescent, beneath Her head. This also symbolizes the Moabite/Moorish Woman as the true KEY to HUMANITY. The SPHINX is the Masonic symbol of the Moabite/Moorish Woman.

WHEN SHE WAKES UP — CHANGE WILL COME

The day comes quickly, when the Moabite/Moorish Woman will be awakened to Herself, Her true power and metaphysical oneness with the Cosmos. This is called the **REVELATION of the AGES**. Then, and only then, will the world of human society begin to ascend to its true quality of humanity and HIGHEST CIVILIZATION ORDER. As long as she is asleep and unconscious, the Moorish nation will be oppressed. What her state of mind and her social condition reflects—so goes the nation. Only she produces both female and male. Nationality is derived from her, as your creator who endows you with unalienable rights of birth.

III. Few Actual facts about Moors- A people in adversity

(1) Negro and black are synonymous (as is colored and African-American)- they mean exactly the same thing. Black is derived from English-Latin (vulgar) and negro is from Moorish Latin which later became known as Spanish. Black means *civilter mortuus*, unconscious, debased social and moral condition and death.

(2) The word America does not come from Europeans as it has been assumed, due to the reconstructed history. America is actually a

corruption of the Moorish Latin words, Al Moroc, meaning descendants (Al) of Moroccans (Moroc).

These are some of the names of America:

- Amexem (means “mixing” hence why America is considered the great melting pot)
- Mu (Mother’s Unity)
- Moroc (Mahgrib Al Aqsa= Most Extreme West)
- Al Moroc
- Northwest and Southwest Afrika
- North, Central and South America
- America is the prefix for Amexem and the suffix of Africa= Am-Rica
- America= Al Moroc
- American= Al Moroccan
- Al Moroccan= Moorish American
- Moors are descendants of Moroccans and born in America. Al Moroccans

(3) The commonly used word “white”, as applied to Europeans is a political caste label and not a pedigree name/title/appellation/attribute. The Whigs party, which was of the “red peoples” (red skins), as colonizing Europeans called themselves, prior to 1854, adopted the word “white” peoples party in Philadelphus (Philadelphia), with the 1854 to 1863 emancipation proclamation. This must be known and inner/overstood by all Moors, when making any serious social or political communications. These actual facts must always be considered and factored into all civic activities. They will prove invaluable as Moors address politics, economics, social change, fraudulent voting rights or benefits. Remember- All political activities and benefits are measured by status first (your nationality and legal standards), in all lawful or legal procedures.

(4) When the word “Christian” is used by Europeans/Romans in politics, literature and history, it is definitely and only in reference to the Anglo-Saxon political and social/economic system i.e. Europeans and their institutions. Christendom is void of benefit to any oriental (people of the rising sun) peoples or their political, social and economic conditions or institutions. Do not get emotional, for lack of knowledge, or take these facts personal; they are presented for your objective observation and benefit.

(5) The commonly used word “black” as applied to Moors is a political caste label and not a natural pedigree title/appellation/attribute. The colonizing Dutch masters coined the “black” label, along with other adjectives, as appellations for their indentured servants (Moors) as void of their rights “chattel property”. Blacks are categorized in government circles and amongst sensitive social engineering policy documents as “it”.

(6) Concerning the Americas, a number 1 priority political position of all European colonists and their descendants is to speak to Moors only in terms of displacement. Displacement is a cardinal rule when referring to their relationships with or conversing with the Moors; especially those labeled as blacks and negroes. This is a necessary tool of psychological warfare in the usurpation of the land and the Moor’s sovereignty. They teach their agents among the Moors to do the same; issuing letters and degrees to them as political, social and economic incentives- beware!

(7) Notice and analyze the reference to the unnatural alliance between the negroes and the union leagues, as traditionally mentioned by the klanners. Examine carefully, the operations and principles statement of 1868 by the order of the Klu Klux Klan. This is clearly exposing the fact that negroes cannot and never lawfully or legally be citizens of the colonial

Union Society of the United States of America. Any actions on the part of any government official, officials or citizens of the Union States, which imply or try to make negroes citizens of their Union- by whatever means is definitely a violation of the constitution. The constitution is the charter and the supreme law of the land from which their government derives any valid or de jure law or authority. This position is correct and valid, on the part of the K.K.K., although generally not accepted or constitutional by naïve, unread or misinformed people. The word negro, as an appellation was coined and designed to label displaced Moors. Who, by virtue of war, subjugation or mutual agreement, became the corporate chattel property of the Union of States European citizens and not citizens themselves. Their U.S. of A. constitution of the 6 European nations of North America supports this fact. Moors must also cease the active fraud of using the Albion/Roman colonist's family surnames.

(8) As negroes and blacks (synonyms), Moors have no rights at law, that any (quote-unquote) "white" man needs to or is obligated to respect or honor. Negro and black etc., are false appellations. Muur/Moor is the true national pedigree appellation of the subjugated peoples misrepresented as black, and has standing at law- nationally and internationally. The persistent and insistence of the use of the black and colored brands legally imply "acquiescence" at law. Negro is not of the human family, but it is legally categorized as "it" or a "thing", and has no human rights to review or protect by any constitution. This is the absolutely legal and valid position of the K.K.K. and the Union of States Society. Moors need to learn the truth about the danger of holding on to, substituting and using the fraudulent slave brands/labels as identities.

(9) A most troubling and effective political manipulation tactic has been used against the subjugated Moors in the Americas. That tactic is the placement of Quote-unquote, "blacks and negroes" in token political

positions, with pseudo-government powers, which are designed to trick, oppress, tax and maintain suppression among their own peoples. These range in the areas of municipal police, operating in a non-sovereign capacity, judges and politicians operating in a non-sovereign capacity and the sub-government agents and agencies- all with no true sovereign authority derived from the people they govern. This gives the appearance of the existence of mutuality and agreed sovereign relinquishment of rule and authority from the negroes/blacks who are unqualified [having no self-authority], to the otherwise, fake, fraudulent usurpers and de facto Union of States Society corporation governments and UNION citizenry. This color of law position is deceptively used to govern, steal and claim jurisdiction over primitive native Moorish people's land, sovereignty, affairs and birthrights.

IV. Roman Ordnanances- Social Mind control and engineering

- Tithing (taxes)
- Mass
- Inquisition
- Black Codes
- Forced servitude and subjugation
- Class/Caste system

The church uses its ordinances or canon laws to rule the oppressed Moors and the states use de facto ordinances (ordnanances) or canon laws to rob and rule the oppressed Moors labeled black, colored, negro, Puerto Rican, Latino, Hispanic, etc. There is no separation between church and state and there never has been....they are one!

Observe the relationship between the words and break the "spell":

- 1) The church issues ordinances....canon (pseudo-religious) law.
- 2) The state issues ordnanances....cannon (gun) law.

- 3) The church and state cooperative UNION for going to and fro the earth, destroying and devouring nations. They rule the conquered Moors by ordinance and ordnance = the church and state powers = ordained law by the gun (cannon).
- 4) Canon and cannon = church and state: both claiming sovereign rights by GOD and country- acting as the peacemakers, yet are in actuality, the peace breakers! The avowed enemy and oppressors of all native/primitive peoples, the church and state falsely claim to be separate, while fraudulently proclaiming to be operating in the people's best interests. With feigned love and deceptive concern, this highly organized and unholy UNION robs the people's sovereign birthrights by force of arms (cannons).

- Church (silent orchestrator)
- Overseer agent (the open active enforcers)
- State (the directors)

The reason why the Moors in the Southern United States were brain-washed out of our Moorish nationality and into believing that we all are the descendants of slaves purchased in Africa was in order for the southern European plantation owners to;

1) Get around the Moroccan treaties with America and England which would not allow them to enslave Moors

2) To take our land in the south

3) Kidnap and enslave free Moors in the slave states under the "fugitive slave law acts"

4) To take us from under the treaties signed by America which said that the 'original inhabitants of the land shall be admitted into the union as soon as possible, and in the meantime, they were to be protected in their right to property, persons and way of life. (Louisiana Purchase, Treaty with Spain

for Florida / 1819, Treaty for Mexico, which will be in the next issue) Because our Moorish ancestors assisted America in their bid for independence, and we were the first to recognize her independence, America is obligated to assist us in our bid for independence and self-determination, in this day and time. We cannot continue on as we are. We must go for ourselves and be responsible for ourselves, the same as any other people. By being dependent on America, we do ourselves a disservice and create an unwanted burden on the rest of America.

7 slave clauses:

- 1) Article 1, section 9, clause I: “The migration or importation of such persons as any of the states now existing shall think proper to admit, shall not be prohibited by the congress prior to the year 1808, but a tax or duty may be imposed on such importation, not exceeding \$10 for each person.”
- 2) Article 4, section 4: “The United States shall protect...., and on application of the legislature or of the executive against violence.”
- 3) Article 4, section 2, clause 3: “No person held to service or labor in one state, under the laws thereof, escaping into another, shall, in consequence of any law or regulation therein, be discharged from service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due.”
- 4) Article I, section 8, clause 15: “To provide for calling forth the militia to execute the laws of the Union, suppress insurrections and repel invasions.”
- 5) Article 5: “...Provided that no amendment which may be made prior to the year 1808 shall in any manner affect the first and fourth clauses in the ninth section of the first article.”
- 6) Article I, section 9, clause 4: “No capitation, or other direct tax, shall be laid, unless in proportion to the census of enumeration herein before directed to be taken.”

7) Article I, section 2, clause 3: (as 3/5's of a person is how all slaves are legally counted) "Representative and direct taxes shall be apportioned among the several states which may be included within this Union, according to their respective number, which shall be determined by adding to the whole number of free persons, included those bound to service for a term of years, and excluding Indians not taxed, three-fifths of all other persons."

Timeline of reconstruction:

- 1774: colony/states cut down Moorish Flag
- 1776: colony/states Union's declaration of Independence
- 1779: colony/states Union begins to "reconstruct" (officially) official records of Moors. Began use of brands negro, black, colored, etc. officially.
- 1789: George Washington is appointed the 9th president of the U.S.A. - proprietor of the Moorish palace/Casablanca (Whitehouse).
- 1803: The Louisiana territory theft by the Union States
- 1863: Abraham Lincoln's emancipation proclamation
- 1865: Black codes officially adopted by the several states
- 1868: Formation of Klu Klux Klan

V. Christian Black Codes

Article 1: declares the expulsion of the Jews from the colony.

*Note: reveals the fact that the so-called blacks are the true "Jews", and that it was always known by the Romans/Albion.

Article 2: makes it imperative on masters to impart "religious" instruction on their slaves.

*Note: reveals the unquestioned blind faith and naïve religious outlook exhibited by the labeled and branded Moors (blacks).

Article 3: permits the exercise of the Roman Catholic creed only, every other mode of worship is prohibited.

*Note: Exposes the fact that Christianity was forced on the slaves, and did not originate with their forefathers in the form practiced today.

Article 4: negroes placed under the direction of supervision of any person other than a Catholic, are liable to confiscation.

*Note: exposes the origin of the “no one can tell me anything, but a Christian ‘white’ man attitude displayed by most people bearing the “black” brand.

Article 5: Sundays and holidays are to be strictly observed. All negroes found at work on these days are to be confiscated.

*Note: reveals the origin of the blind faith dedication to packing their master’s/God’s churches on Sundays, by the slaves, who self-righteously accuse the prophets of the East of sanctioning such practices.

Article 6: We forbid our white subjects, of both sexes, to marry with the blacks, under penalty of being fined and subjected to some other arbitrary punishment. We forbid all curates, priests, or missionaries of our secular or regular clergy and even our chaplains in our navy, to sanction such marriages. We also forbid all our white subjects, and even the manumitted or free-born blacks, to live in a state of concubinage with slaves. Should there be any issue from this kind of intercourse, it is our will that the person so offending, and the master of the slave should pay each fine of three hundred livres. Should said issue be the result of concubinage of the master his slave, said master shall not only pay the fine, but be deprived of the slave and of the children, who shall be adjudged to the hospital of

the locality, and said slave shall be forever incapable of being set free. But shall this illicit Intercourse have existed between a free black and his slave, when said slave according to the forms prescribed by the church, said slave shall there by set free and the children shall become free and legitimate; and in such a case there shall be no application of the penalties mentioned in the present article.

*Note: reveals the origin of the “let the state have my children” attitude exhibited by slaves and wards.

Article 11: masters shall have their Christian slaves buried in consecrated ground.

*Note: exposes the origin of the common and obvious rejection of Eastern culture and religion by branded Moors (blacks). Encouragement to act contrary to one’s own self and people is probably one of the most glaring character flaws observed among the “slave: descendants. This behavior apparently originates from a subverted people attempting to please their God-master the slaveholder, whose name they bear.

Article 52: We declare that the acts for the enfranchisement of slaves, passed according to the forms above described, shall be equivalent o an act of naturalization, when said slaves are not born in our colony of Louisiana, and they shall enjoy all the rights and privileges inherent to our subjects born in our kingdoms, or in any land or colony under dominion. We declare, however, that all manumitted slaves, and all free-born negroes are incapable of receiving donations, either by testamentary dispositions or by acts inter vivos from the whites. Said donations shall be null and void, and the objects of said donations shall be applied to the benefits of the nearest hospital.

*Note: All Moorish nationals, master masons, doctors of law and students of history- take note! Article 52 of the Christian Black Codes is the foundation for the de facto; ex post facto, unconstitutional and fraudulent

(pretend the slaves are citizens of the U.S.A.) 14th and 15th amendment civil rights fraud! Those among the people who know law are well schooled and are aware of these facts! Exposes origin of fake rights and privileges displayed in color-of –law ordinances and rules.

Examples and effects of black code ordinances:

- A. The states use force of arms and regulations to deny any sovereign activity among the defeated and enslaved Moors labeled black, colored, negro, Indian, West Indian, Latino, Hispanic, Puerto Rican, etc. They, as blacks, have little to no knowledge of what sovereignty is and the agents among them certainly will not teach such subject matters. Ergo, assistance from ignorant and willing slaves to assure their dependent and servile position to the states.
- B. The states use regulations and coercion to deny legislative status to all marriages, not sanctioned by the states. They ordain ransom fees for such marriages for the states' coffers. All non-state sanctioned marriages are labeled as illegitimate, along with any offspring coming from such marriages or natural unions not arranged through STATE (G=GOVERNMENT; O=ORDINANCE; D=DEPARTMENT) agencies. Slaves must pay the state in order to legally mate. This infers control of the womb to the states' authority, thus, slave family birth control. Refer to article 8 of the Christian black codes to see the origin of states' marriage licenses; article 7 reveals the origins of state laws on conditions of marriage; article 9 reveals the origin of the several states use of the welfare system and its sub-agencies' abuse of power, used to control adhesive contracted and enslaved families and especially their offspring. Article 9 is used by state agencies to confiscate slave/ward (children) without lawful due process, as slaves (blacks) have no constitution for their lawful protection. See also article 20

for the origin of state subsidiaries of medical welfare as well as article 21.

- C. The states use force of arms, taxation and regulations to deny any enslaved Moors (blacks) ownership of property or land. All property in the possession of slaves will be the property of the state. A tithe (tax) or rental fee will be maintained, hidden as use and property taxes. These taxes will be extracted by force with confiscation as a legal threat and action, if not adhered to! No area of possessions or property held by the unsuspecting slaves will be left untithed/taxed. With all things tithable, no slave/ stateless person will ever be free and all land and property will essentially remain in the church and colony control. Slaves will build and maintain state/colonists' properties and stolen land with diligent determination, thinking that they are owners of the property they possess. This state of fiction lives merely and only on blind faith and belief! The states issue only floating titles to any property, real estate or land. All slaves are forced to register their properties to the state (colonists). This gives all power of attorney and property rights to the states/colonists which legally, but unlawfully denies property rights to the primitive and aboriginal people (Moors) to whom the land and property truly belongs. With this process, Moors are charged with a tax debt in their own land on their own property to a foreign entity (fictional sate) that actually does not exist. This is how the land, America (Al Moroc), is stolen from the original people, Moors. The states/colonists, posing as the government, are the thieves, not some secret men hiding behind the mountains, belonging to some secret order. To see the origin of the above effects, see article 22 of the C.B.C.s.
- D. The states methodically ordain burdensome taxes, rules and regulations on land, property and business to assure a general state of stress, duress and poverty among all the defeated Moorish

slaves (branded as blacks). This domestic administrative war act serves to foster perpetual economical chaos and disorder in and among the Moorish dynasties/tribes, with the colony/states growing richer and wealthier in the process! See article 22 and 23 of the black codes. Any slave unwilling to produce a pre-determined level of income for the states' coffers are subject to fines and jail. Ordinances for controlling and regulating Moorish tribes are relegated to the states' "nigger industry" and enforced through state agencies. Punishment, fines or jail is mandatory for any parent unable or unwilling to maintain state mandated standards of ward dependence. Ward and subject obedience to laws ordained by any of the several state governments is obvious in all municipal and local laws, rules and regulations. Observe!

- E. The integrated nigger industry is essentially the black codes in their past and present operative state. These codes pervade all state, county, cities, municipal agencies and courts. The ordinances, rules, laws and regulations of the Union States Society are the very heart of their economic existence. The rest is history, leading up to the present corruption and social disorder of the united states of America, falsely labeled as racism, prejudice and the so-called "double standard" laws.
- F. In modern times, the states' slave catchers carry the title of bounty hunters! They work as municipal and corporate contractors. Slavery in the Union of States did not end in 1865, as taught to the controlled subject public. The masses are encouraged to religiously believe that the emancipation proclamation of January 1, 1863, by President Abraham Lincoln, ended slavery in the United States of America, proper and became law in 1865. This is not the case. The fact is that the emancipation proclamation applied only to states which were in rebellion. 1865 was actually the year when most all the states' governments adopted the black codes officially! Even

the most severely affected victims of the codes often believe they are suffering from what has been called racism. Unfortunately, they have no idea of the brevity of the monster, whom they, and their children have been dealing with and suffering from! Article 24 of the black codes shows the origin of forcing slaves/wards to pay the states for permits to march or have public assembly. Article 24 also indicates the origins for slaves/wards having to pay the states for licenses to work or conduct trade. Article 24 also indicates the lack of any meaningful protections or self-authority in legal matters when it involves slaves/wards (blacks).

- G. All church and state sanctioned marriages in all aspects come directly under the states' police powers! The states' police powers are Roman soldiers! See article 7 of the black codes. The marriage license, the unsuspecting signers of the states' licenses and the children from such marriages are (chattel) state property, sealed by the marriage certificate contract with the state! The uninformed people, who marry under the authority of the church and the state, are made wards and slaves by contract- sealed by their own signatures to the licenses and certificates of the union states. How many people are aware of this fact? Very few! The slaves (blacks) have been taught to think that they have made their vows of marriage to and before Th Divine Supreme Creator. This is not the case and is the farthest thing from anything resembling truth! The unsuspecting victims of church and state marriages buy and sell themselves, never having a clue that they have made a pact (contract) withy the states/colonists, the avowed enemies of themselves and their fore-bearers!
- H. Slaves, having no legal self –authority, shall be forced by the state, county and municipal courts' colorable officers, to pay the states' lawyers of the English Bar Association, to represent them in all legal affairs. This activity takes place due to the legal fact that as

wards (blacks) they have the legal status of a child or a minor (minority) and cannot legally speak for themselves. This is why state judges always act as agents for the Bar Association of which they are members! The obvious conflict of interests displayed by magistrates acting as solicitors for their bar association in the feigned-as-fair courts is proof beyond a doubt that the state courts are operating with the black codes and not constitutional law. The origin of the laws and rules governing the status of the wards (minorities) in the Union States of America's Jurisdictions may be found in article 25 of the black codes.

- I. The origin of the common arrogance practiced by the officers and magistrates of today's Union of State's courts and their acting with assumed jurisdiction, in the affairs of people labeled negro, black and colored may be found in article 26 of the black codes. For insight into the origin of the fraudulent property taxes, enforced by the states and their sub-agencies, refer to article 22 of the black codes!
- J. The states' practice of taxing and confiscating enslaved Moors (labeled blacks) out of their homes, land and property may be referred to in article 40 of the black codes. The states' slave/ward child confiscation laws used by their welfare system" is again found in article 40 of the black codes.
- K. The common occurrence of police brutality and murder of branded Moors at the hands of the states' officers is legendary in the Union States' history. Police routinely plant evidence to trump-up false charges and use the power of the states and the force of arms to abuse constitutionally unprotected slaves/wards (blacks). The arrogant position usually displayed by the state, city and municipal police is based on their knowledge of the state courts' leniency historically afforded them by influence of article 39 of the black codes.

To drive home the importance of status and the legal and lawful truth of this subject matter I implore you, the reader, to research 4 law cases that will confirm the aforementioned: the sundry free Moors act of 1790, Dred Scot v. Sanford 1854-57, William Dungee case of 1855 with Abraham Lincoln and Plessy v. Ferguson 1896. All this are landmark Supreme Court cases that shed light on the factor of status and the Moors of The North Gate/North America/ Turtle Island? Ameru/ Amexem are indeed Moors and cannot ever nor was ever intended to be citizens of the Union and any attempt to do so is a violation of law both Divine and National on the part of Moors (labeled as Blacks) and the criminals who perpetuate the fraud.

Beloved Seastars and Brethren, children of the Sun, Moors you (we) will never have any national and international protection at law as long as we you (we) continue to identify yourselves as one of the slave/ward brands. We surrender our birthrights, knowingly or unknowingly, when we disassociate from our parentage-national title/attribute/appellation.

We are who our fore-mothers and fore-fathers were without a doubt. Our ancestors were not English/Anglis and therefore did not carry Roman/Albion parentage titles, such as Smith, Jones, Johnson, Coburn or Buckner.

We will not be free until we honor our Mothers and Fathers by reclaiming our birthright/inheritance- Moorish Noble titles, nationality, land, constitution, flag, seal and clearly inner/overstand what sovereignty really means. This is an indispensable social civic act in which we must participate, if we are to be truly free from bondage to the chattel contracted affairs of the colonist-English, Dutch (Holland), Scottish, Irish, French and Germans.

In order to be recognized by the nation in which we live and those of the entire earth we must pay homage to our ancestors i.e. go back to practicing our ancient customs and culture which includes among other things our attire and dress (fezzes, turbans, amulets, long dresses, hijabs, feathers, etc) and our divine creed of Love, Truth, Peace, Justice and Freedom. Homage is also extended by way of our Noble titles- Ali, El, Bey, Dey and Al. These titles belong only to us (the sovereign people of the land), our nationality (Moors/Moroccan), our national heritage/birthright land- North, South and Central America (North-West and South-West Afrika/Amexem), our national constitution (great seal zodiac constitution), our national flag (Moroccan flag; having red field, with 5 pointed green star in the center ), our treaty flag (continental flag displaying a red field with a green cedar/pine tree contrasted by a white canton) , and our National Seal (the Great Seal) the pyramid (Kunta-earth star)

VI. I.S.L.A.M. (Internal Self Law and Management)

Islam is Law, Order, and Governmental Principles. The Metaphysical Philosophy of the functional dispensation of Islam (the life science) would be expressed by the conscious human interchange associations embodied within Jurisprudence. This is heavily rooted in Ancient Moabite / Moorish Culture and Government. Thus, we see among Neophytes and the Erudite of Jurisprudence, the glyphic presentment of Islam as, **I.S.L.A.M.**

This *acronym* stands for: **I, Self, Law, Am, Master**. Another glyphic expression of this Philosophical Degree of Social Science would be: **M.A.** This stands for **Master Astrologer** or **Moorish Adept**, which implies the same. An Adept relates to a Moorish American natural person who has achieved a higher degree of practical expertise in the Philosophies and Culture of Moorish Science. This Degree is conjoined with the fundamental social and political skills related to a comprehensive historical knowledge of man, and of the Social Duties one has, or seeks to acquire, toward interior and exterior Justice. This Philosophy is primordial to maintaining a Civilized Society.

The Self

Self is a substantive which serves as a reflexive or as an emphatic personal pronoun. It relates to one's personal welfare and interests as an object of concern, and emphatically indicates that the reference is to the natural person mentioned, and not to some other.

Character

Character is that quality of variables that relate to the peculiar nature, distinctive mark or essence of one's mental or moral constitution. Character is measured to the positive or to the negative, according to the words, works and deeds of the being, as to whether such aspects are good or bad, harmonious or inharmonious, etc. Culture, in accord with recognition to fairness and justice towards others is an aspect of good character. Thus, a study of one's 'Self' has ever been a part of Civic Duty instructions in Civilized societies.

Law

Law is a rule, an order, a pattern, a plan, or a system to which a phenomena or actions co-exist or follow each other, in a phrase, “Cause and Effect”. Law relates in the sciences of observation, or principles which are deduced from specific and particular facts. These facts being mathematical or scientific conclusions (cause and effect) and are put to words or statements, which express those acquired facts, effects or potentials for occurrences if and when certain conditions are present. When we make references to Law in the physical sciences, they are called, Natural Law or ‘Nature’s Laws’ and (in general) are the notations or rules that are related to that which is Divine. As an example, Astrology deals with the Divine Workings of Nature— and is expressed as, ‘The Laws of Nature’. Thus, the Philosophy of Astrology deals with the Laws of Nature, which govern the Cosmos / Universe, and affects Man and the environment.

Sovereignty is that essential public Authority expressed by an independent civil society, and that said Authority has no superior. The Sovereign is the unification of all the powers, and belongs solely to the people; resting in the Body Politic of the Nation.

Part 2: Origin

“Comprehension is the foundation of effective knowledge. If you don’t know or don’t grasp what it is your learning and/or seeing, then the info will go over your head and not in it. Like wise if you don’t know the origin/root of a problem then the chances of curing and correcting it is impossible.”

Intro: Everything can be explained because everything has an origin, a foundation from which all things stem, thus, an ever-flowing paradigm is constantly evolving but the truth will always remain the same. Those who do not know the past are doomed to repeat the mistakes and suffer the same failures of those who came before. In order to evolve one must consolidate the entirety of one’s existence and peel back the layers of mystery/heritage and antiquity so as to build on the successes of those that came before and also gain wisdom by viewing objectively the mistakes made and align them with the flaws of the present and eliminate that which is cancerous to an effective, progressive and positive progression to a better future.

Chapter 1: His-story

(A) The Story of Yaqub

I. The Fall of the Empire

Knowledge is the seed or root of power. Being without it is most detrimental to oneself. Wisdom is Th Creator Herself and those who despise wisdom and instruction are fools (Pro. 1:7). Furthermore, one should aspire to “know wisdom and instruction; to perceive the words of innerstanding...” (Pro. 1:2)

With these thoughts, bear in mind that the history of the Moorish nation and all its related subjects have not been taught since 1863 here in North America. They have been eliminated from public libraries and the curriculum of all institutions of higher learning, high schools, colleges, and universities of the U.S.A. and abroad of the pale Roman/Albion society. Unfortunately, the Albion society indoctrinated the “negro” to believe that their fore-fathers and fore-mothers were brought from somewhere else as “salves”. This is the biggest lie the world has ever known and is the basic reason why whenever truth appears among the so-called blacks the majority will flee from it laden with fear, jealousy, hatred and violence. For you see, the “blacks” of North America believe that they have been told the truth all along- but they haven’t. So, when the truth appears they cannot handle it. As a matter of fact, they will not believe /trust anything unless it comes from the “white man’s” mouth, the Roman indoctrination system, or their formal publications. This is all the result of the lack of knowledge of truth. Paradoxically though, this great truth is the key that will set them free again, referring to the bible in which most “blacks” swear by, Paul says, “Prove all things; hold fast to that which is good.” (I Theso. 5:21) The following is evidence and shall be proof toward which so-called blacks should hold fast.

The original ancient North, Central and South Amexem/America/Afrika is known today as North, Central and South America. They comprise the cradle of civilization and are the lands of the Moabite-Moorish nation. This is originally the land of our ancestors and there is no history that can go beyond this. Our Moorish ancestors descended from the dark skinned Moabite nation and we ourselves are the direct descendents of the Moorish nation. What are fore-bearers were we are without a doubt- and that fact remains that our inherited nationality is still Moorish, not “negro”.

The history of the Moorish nation rose out of the corruption of the Moabite nation of this hemisphere. The Franciscan nations rose out of the corruption of the Moorish nation of this hemisphere in 1854-63, the era of the union. The only story over the past 1300+ years is that of the Moorish Nation.

II. Edenic Garden

In the year 49,000 A.M. (ancient Moabite) Yaqub produced the red-skinned people, with animalistic experimentations of the 12 Moabite women and the negro javero araba i.e. chimpanzee, which resulted in the word negro hence the Roman or red-man is the true negro or nigger.

The Moabite masters studied man as a creative being. Their motto was “man know thyself, and thou wilt know the universe and the gods.” Man is the microcosm of the macrocosm. He is the epitome of all worlds and all powers, he is the focusing and condensing point of the countless electro-magnetic currents which, in energizing, become what may be called living, conscious, vital electricity of incredible voltage, but hardly comparable to the form of electricity known to physicists.

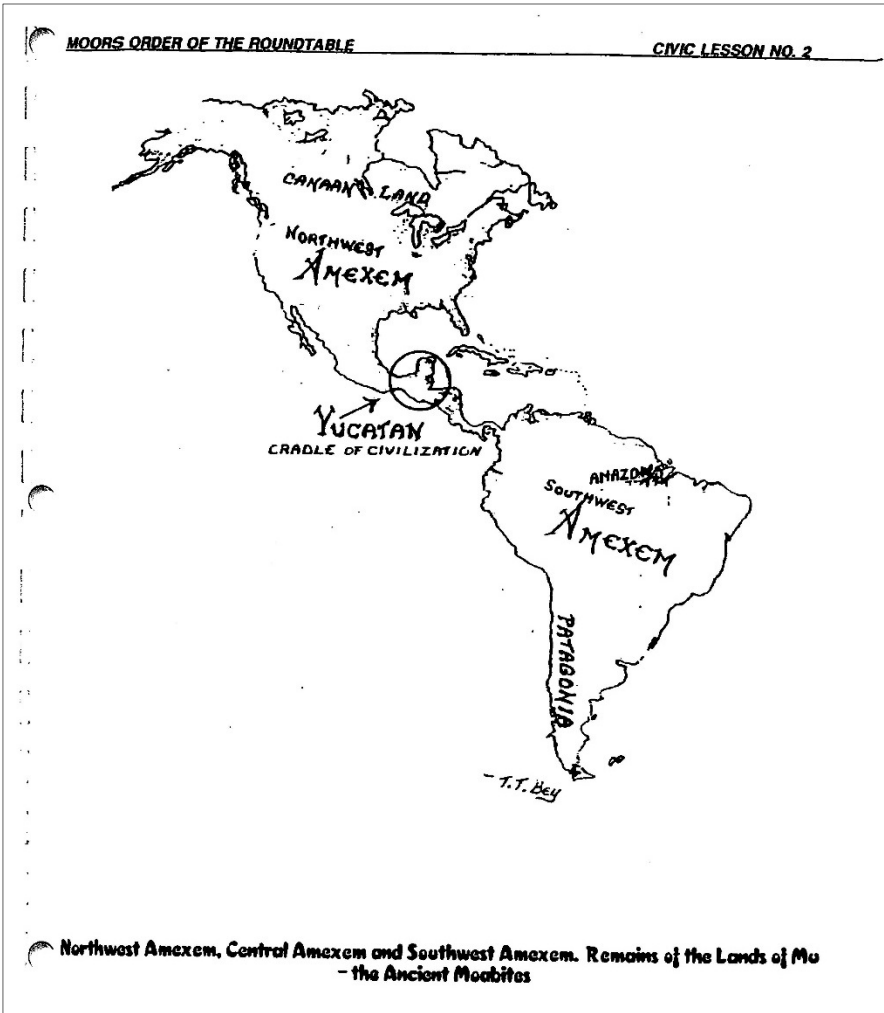

This magical and creative power is variously symbolized in the bible, specifically as the bush that burned with fire, but was not consumed (Ex.

3:2; Acts 7:30). This powerful force, however, is a double-edged sword that cuts both ways. It exalts or degrades, improves or destroys, depending on the conditions. If activated unnaturally without the power to control, it would give its deadly sting to those which it was so unwisely awakened. For example, some people say that this same creative force was unnaturally activated by Yaqub when he created the red man because he did not have 100% control over each of his subjects. As a result, the creation multiplied beyond any kind of control, leading the great genetic and moral corruption of the Asiatic Moorish Nation around the world, and especially to the “blacks” in North America. This is why Yaqub is sometimes referred to as the devil.

Yucatan, Yaccatan or Yuqaten Mixicu or Mexico (which means “mixing”) is the ancient land of Yudah, Ham, Mu, the Kushite and Khaldean nations, and the garden of Eden, all of which were established by Yaqub Isra-El, the last great genius and scientist of the Moabite Nation. Also located here is the great pyramid university of ancient Central Amexem. This university is 24,000 years old and is the oldest university in the world. Naturally it was built by master craftsmen masons of the Moabite Nation. It contains the geometry, Latin, algebra, calculus, and 7 planets of the zodiac constitution law of the universe concerning the cycles of the evolution of both man and the universe.

The Yucatan Peninsula of Central Al Moroc (Amexem/Africa/America), is the true Cradle of Civilization. This great Masonic secret has been known for ages by the "Reconstructionists". Now it is time for the suppressed peoples of the world to "know the truth!"

Yaquub Isra-El is called the father or god of the 12 tribes of Isra-El. Remember, however, that people only call god their father where fatherhood is a prominent feature of their social organization; likewise, they only call a god a king when they have a king as part of their political economy. The 12 tribes which comprise the human race are the Moorish nation. However, the basic reason why some Moors label themselves “Jews” is in honor of Yaquub Isra-El, the “jewel” of the 12 tribes of Yisrael, the creator of the red man (pale), the last tribe of his creation.

All bible prophecy was handed down by Muur-Lu-Akin-El, the last high priest and prophet of the Moabite nation of ancient Central Amexem. Also, he passed on to his son, Yaqub Kaukasus Kushitis, also known as the “big headed scientist”, all of the ancient wisdom of the tribal priests of their clan. At this time the Moabite nation had tremendous spiritual powers and could have used them to humanize mankind and to maintain the harmony with nature. Instead, they expanded their scientific knowledge for purely selfish reasons. The corrupt nation was on its last legs, for its people had even gone as far as to alter the beautiful weather in Eden, and to cause catastrophic upheavals in the patterns of nature around the planet.

Today as a result of this disgrace, this blatant abuse of power, for the majority of humanity and its kind the divine eye or spiritual vision no longer functions. But it has left a witness to its existence in the pineal gland (1st/3rd eye). When the spiritual element in man reigned supreme over the intellectual and psychic elements, the 3rd/1st eye (pineal gland) was an active organ in that sage of evolution. During man’s life the greatest impediment to spiritual development, and especially to the acquirement of yoga powers, is the activity of our physiological senses. When the divine powers and attributes of the god-like man of the Moabite Nation had been made the servants of the newly awakened physiological and psychic passions of the physical man, then the 1st/3rd eye lost its power of vision. The disgrace was not in using the newly found creative powers, but in abusing them. There can simply be no physical iniquity, as the body is simply the organ of the spiritual man and in the case of the Moabites it was precisely the spiritual being that “sinned”. If man’s use of physical body should be such that they could be neither animal nor spirit being, then he must be born hu-man, not angelic (hu is German for spirit being; man is Germanic referring to part animal or man-kind). Hence tradition

shows that higher evolved beings offer themselves as the redeemers of man by endowing man with human affections and aspirations.

The fall of the Moabite Nation was the conclusion of a cycle of experiences just as all things begin, live through, and finish cycles of experiences. At the same time a new cycle of experiences was beginning for different types of beings. Out of the ruins of the old comes the birth of a new. This is an eternal truth and it applies to all modes of life, from the simple atom to entire galaxies. As above, so below!

Realizing this, Yaqub took the best of what was being destroyed, 12 Moabite female genius scientists (one of each zodiac sign), and mated them with a being Yaqub saw as the “missing link”. This link was the chimpanzee monkey- negro javero araba.

At the time of Yaqub’s experiments the atmosphere was very different. There were planets in our solar system that are no longer visible in this day and age. Having inherited tremendous occult knowledge and mystical powers from his father, Muur-Lu-Akin-El the high priest, Yaqub was able to communicate with beings from other planets who were even more mystically steeped in the cosmic sciences and magic than he was; he even traveled to their planets with them in order to increase his own knowledge. In the 4th chapter of Genesis, references are made to some of these beings from other dimensions/ outer space who were called “son of god”. Yaqub learned how to experiment with all forms of magic and it is even stated in vol. 2 of the secret doctrine, H.P. Blavatsky that the divine kings descended and taught men sciences and arts, for man could no longer live in the 1st land (Eden).

Knowledge of biology, anatomy, organic chemistry, pigmentation, botany, electronics, and the magnetic law of opposites involving steel and iron

elements were some of the sciences that the women scientists and Yaqub used to create the ruddy-skinned sons through animalistic experimentation so as to manifest the great human bouquet through a measurable process of global amalgamation with the Asiatic nation. But much more important than their knowledge of the physical was their knowledge and innerstanding of the occult or hidden forces which were utilized to make manifest the object of their experiments.

Seeing the errors which were resulting in the collapse and ruin of his generation, Yaqub, possessing a tremendous ego, desired to show the ruling Moabite officials that his brilliance could produce better beings. But even though he was refused his heart's desires, he was still given dominion over a group of islands on which he was allowed to study and conduct his experiments (the island of Dr. Moreux). With a partly twisted purpose in mind (to show up the ruling elite) and to humanize the present civilization in order to keep it on the upswing, he labored for 40 years on these islands until his experiments bore fruit. Yaqub then used the mountains and jungle regions of the Yucatan, Honduras, Venezuela, Argentina, and the Amazon jungle of Brazil as the environments for his first creations. The waters of the Gulf of Mexico, the Caribbean Sea, and the islands of the Pacific ocean were used in addition to Central and South America.

Yaqub took the best of the Moabite nation which represented civilization, intellect and spirituality and mated it with the potential of the upcoming race which represented cunning, ruthlessness and also spirituality. These experimentations resulted in the culmination of the fall of the Moabite nation and the rise of another which brought ignorance, superstition, hatred, amalgamation, medical science, savagery, destruction, starvation and sorrow. Such is the great price humanity has paid for the "human bouquet".

Using strict birth control laws, Yaqub mated the first created ruddy-skinned sons with the Asiatic woman. She in turn produced both male and female of the ruddy, pale tone of skin. He then mated ruddy-skinned sons with the pale skinned females in order for them to reproduce their own kind of the same shade of skin, both male and female. All Europeans are the descendants of the Asiatic woman and her son Yaqub. Thus, the Asiatic woman is definitely the God of love and wisdom, who what some Muslims term the “devil” and her “sons”, converted the world into that which is termed hell.

Prior to the creation of the ruddy-skinned, blond, hairy-bodied sons, the diseases of leprosy, tuberculosis and syphilis were unknown to the Asiatic nation. Moreover, Yaqub and his staff of scientists discovered that the amalgamation between the Asiatic sons and the blond females was the greatest weapon to combat the new diseases. It was also necessary for the blond sons to become social isolates on the islands of the high seas in order to prevent the spread of the new diseases.

During this period the blond female lost her identity as a result of long processes of amalgamation. The diseases on a global scale disappeared with the ruddy-skinned. The light olive-skinned Asiatic with straight hair or curly black hair, and with black or dark brown eyes resulted. These were endowed with cunning and wisdom, these amalgamated Asiatics. It was this group which resorted to amalgamation with the blond sons, outcast of the islands which resulted in the mass reproduction of blond children who paved the way for the great rise of the outcast “sons of leprosy” through the powerful intriguing influence of the ruddy-skinned blond daughters, referred to as “red tribal rulers”. With their red son chieftains, they promoted vandalism in the Northern Hemisphere. These are the true original savages on the Indian trials (red-skins) who scalped, robbed and pillaged the natives.

III. The Direct Ancestors of the Red People

Yaqub Kaukasus Kushitis called these red-skinned people negroes, in honor of the negro javero araba chimpanzee- their literal earthly father! Yaqub gave his last name to the light olive and yellow skinned children of his creation with straight or curly hair and dark or brown eyes, namely, Kushitis Isra-El or Kush Isra-El. This resulted in the mighty Kushite nation, the Babylonian and the Khaldean nation.

Furthermore, Yaqub called the darker complexioned members of his creations, Kaukasian or Caucasians, after his own middle name. Thus, the Asiatic nation which comprises $\frac{3}{4}$ of the world's population are the Caucasians, and the Europeans are the negroes. Now you see the confusion of "blacks" in North America/Amexem today!

It is not in the course of natural law that man should become a perfect being all at once. Man, and its kind must evolve. Yet he has all the 7 principles laden within himself from birth. He must learn to develop these latent abilities, The 5th principle of mind develops slowly; moreover, the 6th principle, spiritual mind, is developed even more slowly. Those who were ready, and received but a spark of the 5th principle constitute the average humanity which has to acquire its intellectuality during the present cycle of evolution, after which they will be ready in the next cycle for the full reception of the "sons of wisdom". Whereas those who were not all ready are the latest human species who are hardly evolved from their last transitional lower forms. These people whose reasoning powers are very little above those of the animals are not unjustly treated by nature. It is just that they are simply the latest arrivals among the human civilization that were not ready for intellectual stimulation but who still have to evolve during the present cycle.

Evolution is an eternal cycle of becoming, we are taught, and nature leaves never an atom unused. Moreover, from the beginning everything in nature tends to become man. All impulses of the dual centripetal and the centrifugal forces are directed towards one point, man. This began with astral man who is the reflection of the creative powers called the builders. Man is the alpha and omega of objective creation. All souls that incarnate on this planet come seeking knowledge. These essences, intellects, and conscious spirits are entities seeking to become more conscious by uniting with more developed matter. These energies are too pure to be distinct from the universal essence, but they desire material experiences, so they must pass through earthly human experiences to become all wise and to be able to return to their original state by ascending an evolutionary cycle.

IV. Colors and Vibrations

When ordinary colors such as water colors, oils, crayons, pastels, etc., are blended, they form a brownish-black color. These colors are all considered to static or “dead”: However, when all the various shades of skin tones and complexions of humanity are blended, the last stage is white. When one’s vibrations are lifted to their highest visible physical stage, they are white light. This is true because man is dynamic being rather than a static one. Hence the Patagonia blond, ruddy-skinned creations of Yaqub are the sum total of all races. But stop! Don’t panic! If the incarnating ego does not control this sensitive “white” body with its high strung nervous system, then it commits suicide under stress, and all other abominable and degenerative acts that Europeans are known to do. Therefore, to what avail has such a body benefited a person?

Steeped in the mystic arts, Yaqub (Jacob) knew all of this and it is the basic reason why he has been interpreted so differently. Some say the word Yaqub means “the devil”; others say, “the preserver”; others say “the supplanter”. At any rate Yaqub as “the devil” simply refers to the mastery

over the mystic arts. Devil or demon implies demi-god. Yaqub, through his studies and knowledge of the solar system, realized that the demi-gods who were in control had knowledge of strange and terrible sciences. In some of the ancient writings these gods are referred to as the luciferian spirits. Romans changed it to the evil principle referred to as satan or Lucifer the person. Knowing that our solar system is controlled by the Lucifer spirits, Yaqub used the mystical arts and sciences to create the people who are now the masters of the material world. To obtain this knowledge he learned the ritual of the demi-god in charge of scientific knowledge he sought, fasted, and waited for the response. Thus, Yaqub became the master of the material planet earth. His creations (pale people) are true sons of Yaqub because they have the knowledge of their creator. The pale people know they are children of Yaqub and they do not have to be told. They give hints about this knowledge in books so you can see the pathways and avenues of acquiring it. But to make the pathway dark, rough and rugged the pale European changed the language to modern corrupt English as a smoke screen. The original English was derived from an ancient language of the Druids (Moors), beings who were known for their powerful and terrible mystic sciences. Genesis 35:10 and 25:25 are biblical references/verifications for Yaqub's creations and the blessings his father gave him. Only the his-story has been confused as a result of the Europeans ability to mystify and confuse others. Those changes were finally completed during the revolutionary war of 1776 up until the Christian Unionized States Society 1854-1863.

Today, the masses would call the knowledge that Yaqub had, magic (of the popular tradition of thinking) and tricks. In reality, though, it is yoga! Keep in mind too, that the ignorance of modern western science about yoga caters to the masses mistakingly calling it magic, or a bag of tricks. On the spiritual plane everything is out in the open. There is no ignorance therefore there is no world of illusion. Man's ignorance of the invisible

forces that move this universe is due to his crystallized state in gross matter. And since higher beings can look through these bodies, this physical plane is also astral plane of sorts. The wonders of the universe are infinite.

In ancient Kamaat it was magic that attained to the grade of completion as a cosmic science and was formulated as a perfect doctrine. Creation is the great magic. The great mysteries of the universe are the creative processes constantly occurring all around us, yet so trite and common to us that we never note nor reflect on them. The knowledge given to Yaqub by his father and the cosmic masters was cosmogic. It was knowledge of all past knowledge. This is what being given “the 8 ball” refers to. Scorpio the 8th sign of the Zodiac, the sign of wisdom and the 8th house, the house of death, legacies and inheritances. These legacies are the mystic arts of black and white magic. Magic or magi means science and astro order.

In 49,000 P.M. (pre-Moorish); Yaqub created the Roman, partly for his own personal reasons, and as a counter measure to the disgraces of the Moabite nation. In the bible these experiments which resulted in the 12 tribes that Muur-Lu-Akin-El, the father of Yaqub Kaukasus Kushitis (Jacob), changed his name to Yaqub Isra-El, This too is mentioned in Genesis 35. All of this caused the earth pain due to the horrible scientific experiments, yet out of this pain came pleasure and beauty and the opportunity for penitence and growth/maturation. Jacob’s ladder represents communion between man, the seer, and the adept. Jacob was in communion with “god”, meaning he possessed clairaudience and clairvoyance. The name Israel is derived from Asaur, the Sun God, sometimes known as Suryal, Surya, and Sur. Israel in short means, “striving with god”.

V. Hagga-El

Yaqub's divine Zodiac plan for sex relationship between the Moorish men and the woman of Israel had fulfilled in harmony with nature's divine law of Zodiac evolution. Among the children of Israel there were 12 tribes in harmony with the Zodiac law; 12,000 to each sign, equaling 144,000 (9) among the children of Israel, of whom which Hammurabia Bey was in charge of in 836 A.M. (ancient Moabite or Moorish calendar).

At the beginning in 836 A.M. in Yucatan of modern Mexico, Hagga-El (aunt Hagga), the Moorish woman head of the Moorish nation government had granted Hammurabia Bey permission to establish his own system for the welfare of the children of Israel.

Here, Hagga-El had given Hammurabia Bey unlimited powers to do as he pleased to do with the children of Israel during that era because of the Moorish Nation's non-responsibility for the children of Israel. Hammurabia Bey's free hand with the children of Israel enabled him to set up his own government for them within the standard government of the Moorish nation just as our federal government did for the Union States' rights system of so-called "white" supremacy in 1863.

Hammurabia then framed from the Moorish nation's Latin language, a new language termed "Arabic" in honor of the last name of the Negro Javero Araba chimpanzee monkey, which is referred to in some literature as "the negro animal". This negro animal being the father of the children of Israel, Hammurabia decreed the children of Israel "Arabians", Moslems of the Moorish Empire. He then framed from his own name, the name of "Mo-Hammad", "Mo" form Moslem and "Hammad" from Hammurabia—Mo-Hammad, the title of rulership of the Moroccan Empire's religious system. The Moorish Nation's Holy Koran bible of the Zodiac prophesy is the book from which Hammurabia Bey framed his Koran book (Koran from

“kurah”) for his Moroccan Empire Islamism, ignorance and mental slavery. Hammurabia Bey then became the first Emperor of the Moslem world. Here, he became well fortified by his Koran mystic title “Mohammad”- fulfillment.

From 826 A.M. to 1196 A.M., the mystic title: Mohammad” and Koran religion of Islamism fully served its purpose and ended with the fall of the Moorish Nation from national power in 1776, and the rise of the children of Israel in the “new world” of their own land July 4, 1776 (“the spirit of 76”). The fall of the Moorish nation Babylonian Empire and the fact of prophesy: For the lord will have mercy on Jacob (Yaqub), and will yet choose Israel and set them free in their own land and they shall cleve to the house of Jacob (Yaqub) and the people shall take them (the Moors) and bring them (the Moors) to their place and the house of Israel possesses them (the Moors) in the land of the Lord for servants and handmaidens and they shall take them captives, whose captives they were and they shall rule over their oppressors. This prophesy fulfilled in 1776 and cannot tell a lie.

The children of Israel (Franciscans) still rule over their former Moorish oppressors up to this present time in the Moor’s own land. The Franciscans had a huge bi-centennial (200 year) celebration in 1976, and invited the world to come and see what they have accomplished in 200 years to the mighty Moorish nation and its descendants; their servants and handmaidens. Life is but one big cycle; what goes around comes around.

VI. Big Ben Bey

In 1795 Big Ben Bey Emmanuel Mu Ali A.K.A. “Benjamin Banneker” laid the foundation of our federal government in New York city. He was a master astrologer, metaphysician, 360o Moorish master mason, and a humanitarian plus a time clock inventor. The Big Ben clock in England is

named after him as he was its creator. Ben Bey was born on March 6, 1732 in Philadelphus which is the original ancient Alhambra of North-West Afrika/Amexem/America, the capital county/country of the American Republic of the Moorish Empire in this hemisphere.

It was Ben Bey who phrased the word “God” from the departments of government, namely, Government Ordinance Department Of Justice; Annuit Coeptis (“he favors our undertaking”; meaning that the federal government permitted the Union States to enslave the Moorish Nation and set up its colonies). “In God we trust” meaning “good” government for the people by the people in unity in the name of law, truth, freedom, justice, equality, peace, progress, and the pursuit of happiness, the kingdom of God on Earth. Al-Ham-Dul-Il-Ah= “All praise due to Allah (ruler of the universe)”. Bear in mind that this word God definitely does not imply the Creator of the Cosmos for it has proved itself as what it implies. It is the basic reason as to why our federal government cannot have anything to do with religion.

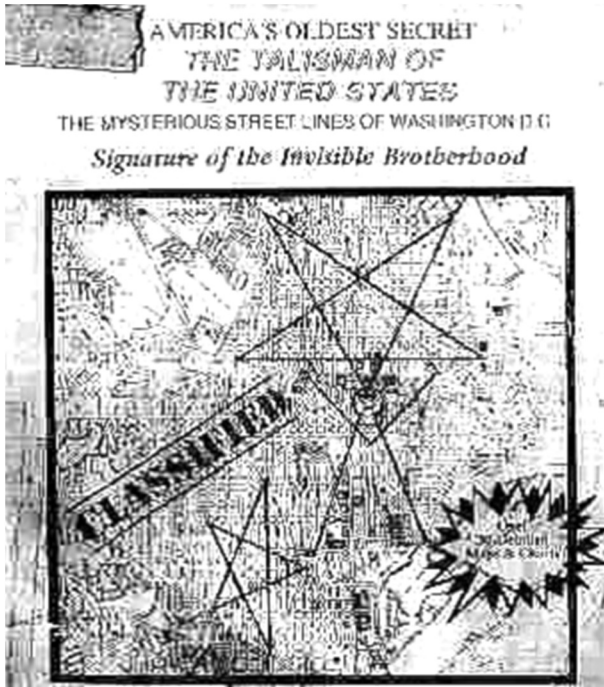

The people had declined to an all time low morally; as a result of ignorance, war and bloodshed, and destruction while under the old Muhammed priesthood of dictatorship. So Big Ben Bey had no alternative than to release the phrase God as a symbol of spirituality in order to solve that crucial problem of crime among the people by way of instilled fear of mystery doctrine in order for the people to discipline themselves for a moral and intelligent society. The people were too ignorant to overstand Big Ben Bey’s science of metaphysics and astrology, therefore, Big Ben Bey had to make a supreme sacrifice in the name of humanity by giving the priesthood the phrase “GOD”. SO, this is the basic reason why our federal government made education compulsory in order for the people to inner/overstand by reasoning the difference between mythology and truth.

The word "GOD" was used in its official capacity as a moral compass and stigma in 1795.

In the region known today as New York City, the Empire State, Ben Bey Emmanuel Mu Ali laid the foundation of the universal apprentice hall of the science of government, human character, unity, equality, justice and peace (Salaam) upon the square of 90o, and termed it the "Hub" of the universe for perpetual universal freedom.

Ben Bey not only designed Washington D.C., but he perfected the science of the Federal Government System that goes along with Washington D.C.. Washington D.C. is laid out four square just like the "New Jerusalem" in revelations and is made to be a scale prototype of the New Jerusalem, based on the code of mathematics scaling from zero to nine (0-9), zodiac or the number twelve and geometry. Ben Bey the master clock maker made it like a giant astronomical clock. Thus, it is symbolic of a giant "Clock of Destiny".

The aforementioned facts can be seen in the layout of Washington D.C. itself. The Moorish flag has a star in the center of a square red field. Washington D.C. has a star in the center of it's square perimeter. Thus Washington D.C. is like a giant Moorish flag.

It also has the compass and square, showing the geometric aspects of Moorish science otherwise known as masonry. This is the cover page of a book called; “Americas Oldest Secret, The Talisman of the United States”, subtitle; “The Mysterious Street Lines of Washington D.C.”.

The book shows how laid out in the very street arrangement are the universal symbols or glyphs for the zodiac and planets. In it’s capacity as a giant clock, certain streets also line up with the sun on the days of the solstices and equinoxes. Thus, it is a city whose whole layout is based on Moorish science. It is a city perfectly designed to navigate the course of world government. Washington D.C. is also referred to by C.M. Bey as the hub of the universe, the North Gate.

The following photos were taken inside of the George Washington National Memorial Museum in Alexandria, Virginia:

In this room is encased a fez bearing the name Ben Bey, whom C.M. Bey taught us was the true name of Benjamin Banneker. There are also other fezzes encased here with names such as; Caliph (which means Ruler or King in Arabic), Cashan, Bandar, Baya, Etc.. What are Europeans doing with fezzes with Arabic names, attributes and titles.

VII. Horace Greeley

On March 20, 1854 the Red Men's Whig's Party held its national convention in Philadelphia, P.A. Here Horace Greeley, a newspaper editor and tycoon suggested a new name for the Whig's Party and the members too, with but one cause in mind; educational revolution.

Horace Greeley recommended the name Republican Party for the Whig's Party, and for the Whig's members he recommended "white" people.

Horace Greeley recommended the name "white" people, in the free union, oppose to the old Muhammed religion, Islamism, which was dictatorship, slavery, brutality and injustice to all red men and women, all men approved the undertaking (*Annuit Coeptis*).

The so-called "white" woman from the colonies of Ohio, Michigan, Indiana and Illinois, with the aid of the priesthood organized the society of the Knights of Columbus, Ku Klux Klan. Here they proclaimed the birth of a new "white" baby boy by its immaculate virgin mother to become of age for the progress of the Albion. The famous titles the Albion woman earned for organizing the Knights of Columbus and Ku Klux Klan order were Mother Superior, Queen Victoria, Sisterhood Daughters of the American Revolution, of whom, had overthrown the Moorish Nation Moslem society of Islamic dictatorship, brutality and injustice: thereby replaced it with barbarism and so-called "white" supremacy.

On March 20, 1854 justice, truth and equality for these people (negroes) died upon the flaming cross of the K of C and K.K.K. order of so-called "white" supremacy Magna Charter Emancipation Proclamation Union of freedom to do what they wished to their negro property without the federal government of the Great Seal. Because the government protects and

represents free people (those who honor their mother and father) and cannot protect property such as “blacks, negroes, coloreds, etc.”

The “negroes, blacks, Hispanics, etc.,” cannot solve their problems by integration because people without knowledge of their own history will remain their own slave holder regardless of integration. Plus, the Albion men cannot afford to teach the so-called negro the heritage of the Moorish Nation nor the missing links to the Albion’s History of the U.S.A.

VIII. Ku Klux Klan

What about the Ku Klux Klan?:

Operations and principles 1868: the Ku Klux Klan (kyoo’ kluks’ klan’) is one of the two largest of the secret organizations of Christendom that flourished in the southern territories of North America during the period of “reconstruction.” The Ku Klux Klan was founded in Pulaski, Tennessee, and is noted for its sincere and unmoved dedication and honor to the Christian creed and to the constitution of the union of States. Tennessee entered the Union of States Society in the Moon (month) of June 1, 1796 A.D. = 1216 M.C. and takes the honors of first home of the Klanners!

The K.K.K. order grew very rapidly in 1867-68 A.D. = 1287-88 M.C. The general organization of the Klan was perfected in May of the year 1867, at which time a “constitution” was adopted. The second, and modern society of the Ku Klux Klan was founded in 1915 A.D. = 1335 M.C. in Atlanta, Georgia. The major aim of the Ku Klux Klan order is the arbitrary regulation of life by “white Christian Protestants”. Ku Klux Klan is also spelled with a hyphen, as Ku Klux Klan.

A few of the other Christian secret orders that merit study and review are:

- 1) The knights of Columbus
- 2) The knights of the white camellia

- 3) The society of the white rose
- 4) The white league

Klanners:

Klanner is the designation used to identify a member of either one of the secret societies. Ku Klux Klan is derived from the Greek word, “kyklos” which means “circle”. The founders of the Ku Klux Klan were using high cultured cosmological science in its structural constitution. This secret order was not founded by ignorant men, therefore, should not be viewed or dismissed as merely an outlaw organization of unreasonable people gone wild with hate and unconstitutional violence. This would be a very inaccurate assessment! Klanners have traditionally honored their Union of States constitution with more orthodox respect than others who have criticized the Klan. Most critics have never read the U.S. constitution!

General Nathan Bedford:

A Union of States confederate general Nathan Bedford Forrest was the first grand wizard of the Ku Klux Klan. The K.K.K. order was effective in frightening the negro out of his unnatural alliance with the Union Leagues, but was also used as a cloak for lawlessness, land theft, and other forms of violence. The Ku Klux Klan often did the clandestine work which the Union of States’ government officials would not openly declare or do in the public arena. In effect, the Ku Klux Klan was and is used as a willing scapegoat and partner of the Union of Society for executing in secret or open, some of the extremely violent and negative activities or ordinances derived from and/or supported by the States’ Christian black codes; the negro acts; and other laws and ordinances governing “free” blacks.

The black codes and negro acts could and would be animated and enforced, whether in the public or the private sector of the Union. The K.K.K. originated within the Union of States government circles, having the

mission of preserving and protecting Christendom at large. If this fact is not known or overstood, then one cannot objectively analyze the United States of America's history, development and the reason of the non-ending so-called "race problem". The K.K.K. was and is part and partial and a non-official branch of their Union of States government and pervading all levels of the Union government agencies to actualize their mission.

A lack of knowledge of the purpose and origin of the Ku Klux Klan, by "negroes and blacks", has traditionally allowed U.S. of A. government officials to appear naïve and feign disassociation to the Ku Klux Klan order. The mutual relationship of the Union of States and the K.K.K. orders is as sound, as mutual and as natural as water being wet. Non-objective and angry truths mixed with frustration and inaccurate rhetoric, from the subjugated black/negro (branded Moors) communities, blinds them to the fact that they are not and cannot be citizens of the Union of States Society.

The "people who insist that they are negro and black" have yet to act or recognize the fact, the need and the necessity to form their own government; honoring their own mothers and fathers; and to cease and desist trying to forge themselves into a sealed, "contracted" constitutional union of which they can never be a part. This is one of the true root causes of the hostilities directed towards blacks from the "secret orders" of the Ku Klux Klan (kyklos/circle) and similar secret societies of Christendom. For the sake of truth, it must be said again that the position and purpose of the K.K.K. orders is firm, dedicated and for the empire. The Klans' focus is for the preservation of the Albionic minority and not as personal as it may sometimes appear to "blacks". The K.K.K. is the in-house, work-horse arm of the Union of States government and is serving Christian creed and the Holy Roman Empire, established in the western hemisphere on Moorish soils. Review the signatories of the Union of States' constitution.

The Union of States congress and the Klan:

The Union of States congress took cognizance of the public opinions, reactions and recognition that the K.K.K. was confident and blatant in their hostile activities against “blacks” and or their “white” sympathizers. An obvious policy of connection and protection was suspected. There was political need to feign separation between elected government officials, the Ku Klux Klan and other “orders” and secret societies.

The bold and open activities of the K.K.K. orders and others- such as the knights of the white camellia- was often exposing the Union of States governments’ unlawful and ex post facto position with the issuance of the 13th, 14th, and 15th amendments. This caused the rebellion and confusion among the citizenry and also caused many of the States’ “chattel” negroes to catch on to the hoax. Their congress passed the force act on May 31, 1870 A.D. = 1290 M.C. and the Ku Klux Klan act on April 20, 1871 A.D. = 1291 M.C.

The Klan acts were designed to discourage the open use of force and violence directed towards blacks and negroes who were trying to assimilate into the contractually sealed political/economic Christian Union. The assimilation activities by negroes and blacks was and is one of the great motivating factors of the Ku Klux Klan and similar Christian organizations. The passage of the Klan acts, by the Union of States congress, however, caused some of the complaining and festering distrust among the illiterate slaves (so-called blacks) to wane. Public “faith” in the “system” was tentative, but largely restored.

With hope and “faith” somewhat restored (not that there was much choice), the hopeful blacks/negroes would willingly and happily fight in wars against their own people, falsely believing that they were Christian

citizens of the Union; free and able to own property. Though clearly false- by any measure of law- the promise of black/negro citizenship into the Union Society, with Christian status was to become a cherished dream and would remain just that- a dream. The false citizenship promises and civil rights propaganda effectively buried the true solution oriented issues implying sovereignty discussions among the feigned-as-free “blacks and negroes”.

Reacting to rising social unrest, a Union of States congressional committee sat during the summer of 1871 A.D. = 1291 M.C., recording 13 volumes of testimony on the social, economic and political conditions in the south. The Union’s congress was caught in a political “conflict of interest” position. They had to pacify the displaced “blacks” and at the same time avoid constitutional confrontation with their own Union of States citizenry, to whom they were obligated. For further references, see the “report of the joint select committee.... United States of America, 42nd congress, 2nd session. Senate report number 41 on the Ku Klux Klan. The strategy conceived to calm the “negroes” and continue to use them as an “economic base” and “cannon fodder” was highly successful, and is still effective today.

Organization and principles of the Ku Klux Klan:

Appellation- this organization shall be styled and denominated, the order of the Ku Klux Klan.

Creed- we, the order of the Ku Klux Klan, reverentially acknowledge the majesty and supremacy of the divine being, and recognize the Goddess and providence of the same. And we recognize our relation to the United States government, the supremacy of the constitution, the constitution laws thereof, and the Union of States hereunder.

Character and objects of the order:

This is an institution of chivalry, humanity, mercy, and patriotism; embodying in its genius and its principles all that is chivalric and patriotic in purpose; its peculiar objects being:

- 1) To protect the weak, the innocent, and the defenseless, from the indignities, wrongs, and outrages of the lawless, the violent, and the brutal; to relieve the injured and oppressed; to succor the suffering and unfortunate, and especially the widows and orphans of confederate soldiers.
- 2) To protect and defend the constitution of the United States, and all laws passed in conformity thereto, and to protect the States and the people thereof from any invasion from any source whatever.
- 3) To aid and assist in the execution of all constitutional laws, and to protect the people from unlawful seizure, and from trial except by their peers in conformity to the laws of the land.

Titles:

- 1) The officers of this order shall consist of a grand wizard of the empire, and his 10 genii.; a grand dragon of the realm, and his 8 hydras; a grand titan of the dominion, and his 6 furies; a grand giant of the province, and his 4 goblins; a grand Cyclops of the den, and his 2-night hawks; a grand magi, a grand monk, a grand scribe, a grand exchequer, a grand Turk, and a grand sentinel.
- 2) The body politic of this order shall be known as "ghouls".

Territory and divisions:

- 1) The territory embraced within the jurisdiction of this order shall be conterminous with the STATES of Maryland, Virginia, North Carolina and South Carolina, Georgia, Florida, Alabama,

Mississippi, Louisiana, Texas, Arkansas, Missouri, Kentucky, and Tennessee; all combined constituting the empire.

- 2) The empire shall be divided into 4 departments, the first to be styled the realm, and conterminous with the boundaries of the several States; the second to be styled the dominion and to be conterminous with such counties as the grand dragons of the several realms may assign to the charge of the grand titan. The third to be styled the province, and to be conterminous with the several counties; provided the grand titan may, when he deems it necessary, assign 3 grand giants to one province, prescribing, at the same time, the jurisdiction of each. The 4th department to be styled as the den, and shall embrace such part of a province as the grand giant shall assign to the charge of grand Cyclops...

Interrogations to be asked:

- 1) Have you ever been rejected, upon application for membership in Ku Klux Klan or have you ever been expelled from the same?
- 2) Are you now, or have you ever been a member of the radical Republican Party, or either of the organizations known as the "loyal league" and the "grand army of the Republic?"
- 3) Are you opposed to the principles and policy of the radical party, and to the loyal league, and the grand army of the Republic, so far as you are informed of the character and purposes of these organizations?
- 4) Did you belong to the federal army during the war, to fight against the South during the existence of the same?
- 5) Are you opposed to negro equality, both social and political?
- 6) Are you in favor of a white man's government in this country?
- 7) Are you in favor of constitutional liberty, and a government of equitable laws instead of a government of violence and oppression?

- 8) Are you in favor of maintaining the constitutional rights of the South?
- 9) Are you in favor of the re-enfranchisement and emancipation of the white men of the South, and the restitution of the southern people to all their rights, alike proprietary, civil and political?
- 10) Do you believe in the inalienable right of self-preservation of the people against the exercise of arbitrary and unlicensed power?

The organization and structure of the Ku Klux Klan- Grand Protectors of the Christian Creed and loyal keepers of the constitution of the Union of States Society (U.S. of A.)- Ku Klux Klan Titles:

The Ku Klux Klan Order consists of 42 men:

- 1) A grand wizard of the empire, and his 10 genii.
- 2) A grand dragon of the realm, and his 8 hydras.
- 3) A grand titan of the dominion and 6 furies.
- 4) A grand giant of the province and his 4 goblins.
- 5) A grand Cyclops of the den and his 2 night hawks.
- 6) A grand magi
- 7) A grand monk
- 8) A grand scribe
- 9) A grand exchequer
- 10) A grand Turk
- 11) A great sentinel

A. The Great Seal of The United

States.....Moors; The Great Pyramid on the back of the U.S. dollar bill is the emblem of the Asiatic Moabite/Moorish Nation.....The Ancient Ones. The Master Builders of Civilization; Mothers and Fathers of the Human Family. The KEY word to distinguish the two Seals is OE.

B. The Seal of The United States of America....

Europeans/Colonists; The Eagle - wings spread - with Hexalpha, the Insignia of the Moorish Nation (Dual Trine/Solomon's Shield) crowning its head. Hexalpha represents the Red Fez of The Moors, the Tiara Crown or Tarbush - (Sovereign Authority).

The **Sun** never rises or sets on the **Roman Empire**, simply because they, the Romans, are in **jurisdictional** and **resource possession** (colonization) of the **fallen Moorish Empire** - the **Al Morocs** (Americas); the land of the **Moors**. The **Great Masonic Secret** is the loss of the **Moorish Nations' consciousness, Heritage and Birthrights**. This explains the **truth** behind the **duality** of the United States **Great Seal**. Now **Rome** wears the **Royal Crown** - the **Fez**. Thus, the source of social strife and unrest!

Aquila: Moorish Latin, meaning Eagle. Aquila is a northern constellation in the Milky Way, between Cygnus and Sagittarius, where the star Altair resides: the Eagle. The Eagle, as displayed is the Coat of Arms for the European side of the Nation. It has Hexalpha over its head, in a Crown of glory. Hexalpha is the Insignia of the Ancient Moabite/Moorish Nation. The Zodiac - expressed by the Moorish Red Fez.

Out of the fall (ashes) of the Moorish Empire, the Phoenix bird took flight. Aquila rose (Rosa Crux) with an olive branch of 13 leaves with 13 berries in the right talon, and in the left talon, 13 arrows, with feathers numbering 13.

This close-up view reveals 13 stars arranged to form Hexalpha. This symbolizes Colonial rule in the Moorish Province of FEZ - North Gate.

Compare Hexalpha, as shown, with the 13 star arrangement above. The best system of hiding something from the masses is to put it right under their noses. The masses still cannot see, for lack of observation.

The Colonial Powers rule the Moorish Empire (The Americas), with the Moors own Science of Astrology, which Moors traded away, for Roman idol god worship-MAN-HAT-TAH, for a string of BEADS. They literally traded places. Now Rome rules the Western Hemisphere. All power wielding politicians, industrialists, religious leaders, judges etc., cherish the Moorish Fez, having a Fez of their own (Masons), and keeping the SECRET. The PYRAMID (Great Seal) and the FEZ are the most important symbols in Masonry. **Master Mason = Mothers' Son.**

The NUMBER 13, in Masonry is both the $1 + 3 = 4$ corners of the PYRAMID, but also the 13 cycles of LUNA, the MOON, and of most importance, the 13 cycles of WOMAN, herself - The WIDOW, Droit.

1. We, the People of the United States - are the People of the Land: the Indigenous Sovereign People of the Al Morocs (Americas), who inhabited the Northwestern and Southwestern Shores of Africa (Al Moroc). The Americas run from **Alaska** to **Argentina** (Patagonia), including the adjoining Islands. These are the descendants of the Ancient Moabites - the **Moors**. The **Great Seal** is the Emblem of the **Moorish Nation**. These peoples, from the North to the South, are the **Al Moroccans** (the Americans) - North, South and Central. This is the **1st party** (entity) in the **Preamble** of the **Constitution**.

Thus:

We the People of the United States..... Do **ordain** and **establish** this **Constitution** for the **United States of America**.

Therefore:

2. The United States of America is the **juristic act** (guild of European Companies) They are the Chartered **2nd party** (entity), in a **political state** of **union** (unity). The **13 Colonies**, with **Government Ordinance Departments**, or **G.O.D.** This established the basis for Peace and Law (Treaties) between the **Albions** (English/Anglis) and the **Indigenous Moors**. The **Articles of Confederation of 1781 to 1789** is the **Charter** of the **United States of America**. The **Treaty of Peace and Friendship of 1787**, unites the **two peoples** in a **dually involved government**. The **adoption** of the **Constitution of the United States of America of 1789**, is derived from **Moorish Law** - the late **Moorish Government**, setting the course of the subsequent history in these lands. This is why the **United States** has **two (2) Seals**. The **Pyramid Great Seal** is the **Original United States Confederation Republic of the Moorish Empire**. The Moors were sometimes referred to in United States of America's history as "**Brutish**". The **Brutish** is again referred to as the "**British**" or the **Red Coats**. The Moorish Flag is **Red** with a five pointed green star in the center. The Al Moroccan United States flag is the **Continental flag**. This flag is **red**, with a **green Cedar Pine** tree in a white canton. It was **cut down** after the Moorish Flag (1774 to 1777). In 1789, George Washington was elected to the Supreme Executive Authority in the Moorish Palace, now called the White House. The Continental Flag is also called the **Treaty Flag** of the **Confederation Republic Continental United States**. Another well kept **Masonic Secret**.

The opposite side of the seal - **The Flying Eagle** is the **Seal** of the **Colony States**, the **United States of the Union - Estados Unidos** or the **United States of America**, shown today as the central part of the North Continent of the Americas. It is bordered by Canada at the north, and bordered at the south, by Mexico. These are the two **United States**: The First United States are the Indigenous Peoples of birthright Heritage. The second United States are the descendants of Europe, based on the resulting Peace Treaty agreements made after many arduous wars. This strange union is referred to as the **Melting Pot**. **Two opposite nations**, blending and agreeing to mutually live in peace, with a Treaty of Peace to address jurisdictional affairs. **The Europeans -English, Irish, Germans, French, Scottish** and the **Dutch** (Holland) were allowed to **settle** the **13 colonies** - **chartered** by the **British Moors**.

This is the **Preamble** to the **Constitution** of the **United States of America**

Preamble

We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defense, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America.

The Preamble to the Constitution of the United States of America shows that the origin comes from a pre - existing Nation. This is the secret of Nature's law and Nature's God, symbolized in the two seals of the one Great Seal of the United States (The Continental United States of the Indigenous Moorish Nation). Nature's Law and Nature's God is mentioned in the Declaration of Independence.

Union: a uniting or connecting of two or more into one. This can represent chemicals, principles or peoples, an example in simple form is $1 + 1 = 2$. In the secret history of the West, the two Seals of the United States represent the Union between the **Moorish Moslems** and **Europeans Christians**, into a government based on the **Ancient and Illustrious Principles** of the **Five pointed Star - Love, Truth, Peace, Freedom and Justice**, as established in the Ancient Civilization of **Mu** - the Ancient Moabites Law of Peace. These Principles are founded in **Nature's Law** and **Nature's God**, mentioned in the Unanimous Declaration of Independence. Nature's Law is sometimes referred to as the Wheels in the sky - **The Great Zodiac Constellations - Universal Law of Peace**.

Therefore, while the present government of the United States, under European Colony/State domination and control, may take on a **de facto posture**, the ruling hierarchy - politicians, religionists and industrialists are well aware of the **Mountain Top** (Pyramid) with the all seeing **Eye** (Allah). This is called Mohammed's Mountain, The **Great Seal**. The two (2) Seals symbolize the true history and **Astrologically prophesied destiny of The Great Melting Pot- The United States - the Al Morocs** (Americas). The exposure of these **truths**, to the subjugated and ignorant Masses is called the **New Order**. When the **Secrets** are revealed, all false institutions begin to fall apart and lose their power and influence over the people.

The **New Order** brings **Light** to the North, which was kept in **darkness**, (ignorance and slavery) by the **Conquerors of Civilization - the Albion Franciscan Brotherhood of European Nations**.

G.O.D. (God)

As mentioned earlier in this text, **G.O.D.**, as represented on the **fiat currency** (unconstitutional federal reserve notes) distributed in the United States of America, means **Government Ordinance Departments**. **G.O.D.** is an **acronym**.

The phrase **In God We Trust** means We trust in the Ordinances of our Government Departments, to support and preserve the **Sovereignty** and rights of the people, in accord with the **Articles of Confederation** and the **Constitution**.

The Government Ordinance Departments consist of the **Executive, Judicial and Legislative** branches of government in the juristic United States of America; patterned after the **Continental United States Republic** of the **Indigenous Moors**.

Remember, at all times, when, or if, there is social unrest, citizen's disputes, rights abuses, etc., **Constitutions** are the **Law**. If any **government official/s** or State assigned **Leader/s** or **person/s** claim leadership authority on behalf of any **PEOPLE**, and do not include **Sovereignty, Constitutional Law, rights and immunities** in their programs and conversations- **BEWARE**- you are dealing with a **thief, a deceiver**, and one who is operating for a **foreign principal, using Color of Law**. Study the Constitution and the Treaties that are engaged into, by the Moorish Nation and the United States of America Companies if a controversy or abridgement of **Law** or rights may arise.

The word **God** also means anything that is worshiped, adored or praised. It should never be equated in **singular form**, with or as the **Divine Creator**, except **conjoined** with a **Name**. As an example: Almighty God, God, the Creator, etc. - upon clear qualification. God is a generic term, and can apply to almost anything or anyone, as a single word.

THE GREAT PYRAMID "GREAT SEAL" AND "HEXALPHA"

The Great Pyramid "Great Seal" is the Emblem of the Moorish Nation.

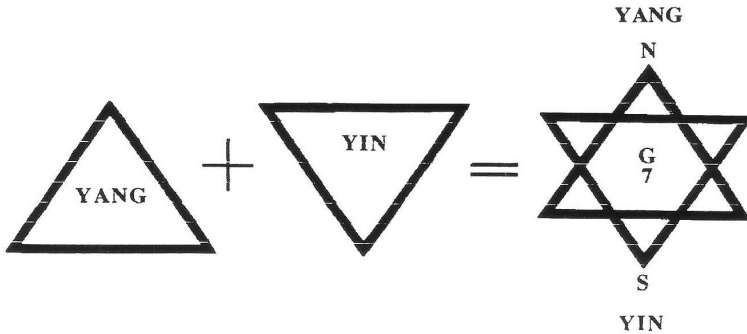

"Hexalphi" is the Insignia of the Moorish Nation.

The symbol of the **Eye** is **Allah**. The symbol of the **Pyramid** is **Self - I AM** - the first MONAD MANIFEST in flesh and in Balance. The first People of the Earth. The Moabite/Moorish Nation, Asiatics and Moslems. **Hexalphi**, the dual trine, represents the **Law of Duality** - as above, so below - the Spiritual and the Physical, the **MOTHER** and the **SON**. Hexalphi is sometimes displayed within the Fertile Crescent - Mother and Nation.

Hexalphi (the dual trines) also represent the **centrifugal** and **centripetal** forces in nature, called **yin** and **yang**.

In a book called "The Great Seal", by Paul Foster Case, he says; "the conceptions behind the pattern of government adopted in 1776 are expounded in the lectures, dramatized in the rituals and summarized in the symbols of freemasonry".

Freemasonry is a legacy of the Moors passed to the Europeans and formed into speculative freemasonry by Sir Francis Bacon. Speculative masonry is Moorish Science based on mathematics, the zodiac and geometry.

On page 6-7, case says; "Paul Revere began his famous ride after an adjourned meeting of a Masonic lodge"; when Benjamin Franklin helped draft the declaration of independence, he was past grandmaster of the Pennsylvania freemasons. ...George Washington was a mason, and so were twelve of his generals." Again, you will notice that George Washington was symbolically the sun and his twelve generals symbolized the twelve signs of the zodiac. $1+12$ equal 13. The number thirteen has always symbolized the sun and the twelve zodiac signs. Case says on page 9:

"Throughout the history of the United States, the number 13 has been prominent. The spirit of "76", $7+6=13$. July the fourth has 13 letters. 13 ships made up the first navy of the United States; the 13 colonies. On the back of the dollar bill you have; 13 red and white stripes in the shield, 13 arrows, 13 stars in the crest, 13 berries and 13 leaves in the eagle's right claw, etc. The horoscope of the declaration of independence, set up for the hour at which that document was signed on July 4, 1776, shows the sun in thirteen degrees of the sign of Cancer, and makes the ascendant thirteen degrees in the sign of Scorpio, which sign is represented by the number thirteen in the ancient Rosicrucian and Masonic tarot keys."

The Great Seal of the United States is the symbol of our nation's sovereignty, and enters predominantly into our nation's foreign and domestic affairs. The design of the seal was the product of numerous minds and hands belonging to some of the most illustrious of the founding fathers, and it represents the ideals and idealism of the stirring days of the war of independence.

The design of the seal constitutes our nation's coat of arms, and as such it has various official uses as decoration, from buttons on military uniforms to the plaques above entrances of U.S. embassies and consulates.

Most of the details of the design are symbolic. The Union of States through the congress; the qualities of purity, valor, vigilance, perseverance, and justice; the dedication to peace, charity, self-defense, all find expression in the device of the seal.

The Great Seal is on every United States paper currency (F.R.N.; Federal Reserve note) and is also affixed to all important commissions signed by the president on the treaties and on the "exequaturs" (in international law). The founding fathers of the Union States were obviously looking toward far horizons when they depicted the eagle on one side of the bill. But they were conscious, also, of the great heritage of their (Albion) origin-Kamaat (Egypt) - when they depicted the pyramid on the other face, thus revealing the link between the Union States and Kamaat (Egypt).

On June 20, 1782, the Great Seal of the United States was adopted by the continental congress at Philadelphia. The design was new, revolutionary, and truly American in composition, containing very substantial portions paying homage to Kamaat (Egypt), namely and primarily the pyramid. Final adoption came after 6 years of careful study and research under the difficult conditions of the American Revolution.

The first committee to design a Seal was appointed late at the day of July 4, 1776, after the adoption of the Declaration of Independence. The committee was composed of 3 able and scholarly men, Benjamin Franklin, Thomas Jefferson and John Adams. The need for an official seal of sovereign authority was imperative due to the inherited English customs and law that demanded that the seal be impressed on all grants and

charters to make them valid. The continental congress therefore felt the need of a device to verify its principle actions.

The committee went to work at once and it obtained the services of Eugene Pierre du Simitiere, a so-called “West Indian” (Moor) artist living in Philadelphia, and started the long search for a suitable design. In the very first design Thomas Jefferson suggested ideas from the culture of Kamaat (Egypt). In his papers he also suggested in addition to Kamaatan design, shields or symbols of western European nations be used, with the scales of justice, the cap of liberty and with the eye of providence above, and the words “E pluribus Unum”, and “1776”, the last in Roman numerals. The committee decided that the seal was to have 2 sides like a coin or medal and that proposal was followed with the result that it is the only seal in the world with a dual seal.

Du Simitiere thought the seal should contain the arms of the 6 nations that peopled the colonies, so his design depicted the arms of England, Scotland, Holland, Germany, Ireland and France. His sketch should to the left of the arms the figure of liberty and, to the right, a uniformed rifleman with a gun in one hand and a tomahawk in the other. Also, an eagle, like the 2-headed imperial German eagle made its first appearance in a design proposed for the seal. The committee accepted Eugene’s basic design with the European nations and their arms, around which were the shields depicting the 13 colonies. The rifleman was replaced by the goddess of justice. The eye of providence, in a radiant triangle, was placed at the top. At the bottom was the motto, “E pluribus Unum”, attributed to Jefferson.

The reverse of the seal used Franklin’s religious scene and the motto, “rebellion to tyrants is obedience to god.” His design, in his own words, had “Moses standing on the shore, and extending his hand over the sea, thereby causing the same to overwhelm pharaoh who is sitting in an open

chariot, a crown on his head and a sword in his hand, rays from a pillar of fire in the clouds reaching to Moses to express that he acts by command of the deity.” The completed seal was presented to the continental congress on August 20th, but it apparently failed to impress the congress, so it was shelved for nearly 4 years.

On March 20, 1780, the congress revived the search for a seal and appointed John Scott, James Lovell and William Houston to bring in a design. Their offering, presented about 2 months later, omitted the eagle entirely. The main features of their design were a shield with 13 diagonal stripes, supported on the left by a warrior with a sword and on the right by a figure representing peace. The reverse of the seal showed the figure of liberty. Again, the congress was not impressed, but the design contained a few elements that were to survive- a constellation of 13 stars, a single dominant shield, and alternating red and white stripes on the shield. The report was shelved.

A 3rd committee was appointed early in May 1782. Its members, Arthur Middleton and Edward Rutledge of South Carolina and Elias Boudinot of New Jersey, promptly sought the assistance of William Barton, M.A., a private citizen of Philadelphia, and the son of an Episcopal minister. Barton was an authority on heraldry who owned a copy of the elements of heraldry by professor Mark Anthony Pory of Eton college, published in London in 1765. The Pory work is an exposition of British or western heraldry and states in the very beginning that heraldry originated through Kamaat (Egypt) and their hieroglyphics. Throughout the book, the Kamaatan origin of heraldry is emphasized. The British book shows a chart of nations/nationalities with their heraldic use of birds and animals, the Kamaatans being indicated as original, and that their designs included the eagle (phoenix/hawk).

Barton suggested 2 very elaborate and complicated designs, one of which contains the incomplete pyramid which was appointed. Finally, out of all the different designs for the great seal of the Union States, one was simplified by Charles Thompson secretary of congress and Barton and was presented to congress.

THE CONGRESS ADOPTED THE JOINTLY DEVELOPED DESIGN ON JUNE 20, 1782, AND BY THIS ACT THE AMERICAN EAGLE BECAME THE NATIONAL SYMBOL. IN THE APPROVED SEAL, IT STILL WORE THE EUROPEAN HERALDIC TUFT OR CREST AT THE BACK OF ITS HEAD, BUT IT WAS REMOVED LATER. THE EARLIEST KNOWN USE OF THE SEAL WAS ON A COMMISSION DATED SEPTEMBER 16, 1782, GRANTING AUTHORITY TO GENERAL WASHINGTON TO ARRANGE WITH THE BRITISH FOR AN EXCHANGE OF PRISONERS.

THE FIRST SEAL (1782)

THE SECOND SEAL (1841)

EVERY DESIGN UP TO FINAL ADOPTION SHOWED THE SPIRITUAL ABOVE THE MATERIAL, A FACT THAT MIGHT BE RECALLED TODAY IN THE RELATION OF THE UNITED STATES AND THE MIDDLE EAST SINCE THE RELIGIOUS CONCEPTS OF BOTH AREAS OF THE WORLD HAVE MUCH IN COMMON. THE SEAL ADOPTED WENT BEYOND WESTERN HERALDRY WITH THE INDEPENDENT ADOPTION OF THE PYRAMID MAKING IT THE ONLY SEAL IN THE WORLD USING IT.

THE SEAL (1902) (LOWER LEFT HAND SIDE) THE SYMBOLIC EAGLE DOMINATES THE GREAT SEAL OF THE UNITED STATES AND IS FEATURED IN THE INSIGNIA OF A NUMBER OF AMERICAN GOVERNMENT AND PRIVATE AGENCIES.

The Pyramid of Progress:

The Kamaatan influence in the design can be noted in the pyramid or “mastaba” (mastaba is an Arabic word which means raised tribune but which to western minds was an incomplete pyramid) which represents the “solid strength” and “duration” as stated in the law adopted by congress. The eye of providence or the “all seeing eye” within a glory, also of Eastern origin, is above the pyramid and indicates the spiritual above the material. The eye also indicates education and free thinking. The words “Annuet Coeptis” (13 letters) mean “God or he has favored our (the Unionized States) undertaking or enterprise.

The unfinished pyramid means that the United States will always build, grow and improve with a conscious evaluation of truth. The 13 layers of the pyramid refer to the 13 states, and the rights of the states. The separate stones represent self-authority and government. At the bottom are the words “Novus Ordo Seclorum”, meaning the “new order of the ages”, beginning in 1776. Many of the words and symbols are in “13s” because of the vibratory frequency/energy of this number.

The clear meaning of these symbols was then and now the supreme law of the spiritual above the material, and the rights/duties of the individual. These are the integral parts of the ideals, philosophy and religion of Islamic, Christian and Judaic scriptures. This unity of the ideals and specifically the meaning of the great seal itself plead affirmatively and positively for the freedom of peoples and the independence of all nations from imperialism, colonialism, or totalitarianism.

The holy bible says, “be not overcome of evil, but overcome evil with good” (Romans 12:21); the Qu’ran reads “repel evil with that which is best” (Surah 23:96).

The significance of the mystical number 13 which frequently appears upon the great seal of the United States is not limited to the number of the original colonies. The sacred emblem of the ancient initiates, here composed of 13 stars, also appears above the head of the “eagle”. The motto “E Pluribus Unum” contains 13 letters as does the inscription “Annuit Coeptis”. The eagle clutches in its right talon a branch bearing 13 olive leaves and 13 berries, the olive branch as a whole symbolizing peace, and the berries contain the fertile seeds which generate that peace. The face of the pyramid, exclusive of the panel containing the date, consists of 72 stones arranged in 13 rows. Under the pyramid are in Moorish Latin words “Novus Ordo Seclorum” which, as mentioned before, translates as “the new world order of the ages.” This “new” order began 1776 with the fall of the kinky/kingly/curly-haired Moorish nation’s system of dictatorship and slavery under Islamism, and the rise of the Franciscan and Dutch-German tribes out of the South Amexem/America. The Roman numerals MDCCLXXVI= 1776 (m=1000, d=500, c=100, l=50, x=10 and v=5). Again, “Annuit Coeptis” indicates that “he favors our undertaking”, or that the federal government (Moorish national Republic) permits the Unionized States to enslave the Moorish Nation’s descendants. This

enslavement is also symbolized by the cap of the pyramid being separated from the main body.

It has been mentioned many times that the number 13 symbolizes the original colonies or states; however, at the time of the signing of the Declaration of Independence only 10 of the colonies were considered states. Massachusetts, Virginia, and Pennsylvania were commonwealths, not states (a commonwealth is a nation, state, country in which there is self-government; it is a republic or democracy depending on the mindset of the people). Hence you can see now that the number 13 must have some inner meaning which it does. It is an occult number, the sum of the digits (4), which stands for foundation. It harmonizes with nature and means regeneration and transformation. For example, after the Sun leaves Pisis and passes into the sign Aries, the heavenly orb, along with the 12 magnetic influences totals 13. Thus, we can see that the Sun, the center of the 12 magnetic influences, regenerates and transformed all physical life on earth. So, while some people have a fearful attitude toward the number 13, you, with your higher sense of awareness know what the number really means. To the pure all things are pure; to the base, all things are base.

The eagle of democracy:

The ability of birds to leave the earth and fly aloft toward the source of light has resulted in their being associated with aspiration, purity and beauty.

Gravitation, which is a law in the material world, is the impulse toward the center of materiality; on the other hand, levitation, which is law of the spiritual world, is the impulse toward the center of spirituality. Seeming to be capable of neutralizing the effect of gravity, the bird was said to partake of a nature superior to other terrestrial (terra is Moorish Latin for

land) creations, and its feathers, because of their sustaining power came to be accepted as symbols of divinity, courage and accomplishment. This is why angels are supposed to have wings.

Among the so-called Greeks and Romans, the eagle was appointed bird of Jupiter; hence it was looked upon as the mundane lord of the birds in contradistinction to the phoenix, which was symbolic of the celestial ruler. The eagle typified in the Sun in its material phase. The eagle is also the hermetic symbol of sulphur and signifies the mysterious fire of Scorpio—the most profoundly significant sign of the Zodiac and the gate of the great mystery. Being one of the 3 symbols of Scorpio (the phoenix/hawk/eagle, the serpent and the scorpion; the eagle and phoenix are transformed and recognized are transposed and recognized as the same bird), the eagle is an emblem of one of the arts and secret processes by which the internal fire of the scorpion was transformed into the spiritual light-fire of the Gods.

If you fold an f.r.n. (Federal Reserve note) 1 bill in half, so that the pyramid is on one side and the eagle is on the other, the eagle is the reverse whereas the pyramid is the obverse or primordial. Under the pyramid are the words “the great seal”; under the eagle are the words “or the United States”. These words, under their respective symbols, are the profoundest truth given to the masses of the world, for the pyramid is the Moorish nation’s symbol for the Great Seal Law, and the eagle symbolizes the Christian Unionized States Society; however, the eagle is considered as the main design in our present system of government because it is used as the president’s seal.

Above the “eagle of democracy” is a glory (of god), a ring of light in gold. This indicates the spiritual above the material as well as the civil freedom.

Inside the glory are 13 stars, “a constellation” (constellation has 13 letters) of “states”. Also, when connected they form a 6-pointed star.

Once the tufted or Prussian eagle was considered for the design of the seal, but the designers cut off the tuft of feathers from the eagle’s head in the new seal of 1841. However, the bald eagle always symbolized the North-Western hemisphere because it is found here only. Again, the eagle represents national sovereignty and indicates the negation of colonialism. It also represents man’s upward spiritual flight and evolution. By having its wings out stretched it is always going up, advancing forward. The eagle’s head is also turned toward the olive branch contained in its right talon. This means that we are able and willing to declare war at anytime as a means of carrying out our ideals.

The words inscribed on the ribbon in the eagle’s beak are “E Pluribus Unum”, the literal translation, of which is “out of many one”. However, the exact translation, considering the structure of Latin grammar, is “many out of one.” From one universal source (the Asiatics) came many manifestations; from one nation, (the Moabite Nation) came from many nations, (e)states, and tribes. The 6-pointed star formed by the constellation of 13 inside the glory above the eagle’s head represents the 6 European nations which made up the colonies.

The top of the shield in blue represents congress, free elections, representative republic and justice. The head of the eagle represents the executive branch of government. This is why the president or chief executive official uses this part of the seal of the United States to represent himself and his branch of office. The 9 tail feathers represent the Judiciary branch of government, the 9 judges of the Supreme Court. Thus, the executive (president/C.E.O.), legislative (congress) and the judicial (courts) are united and complete, and refer to the words written on the

ribbon which is held in the eagle's mouth. The motto alludes to the Union. The Unionization of the European of this day and time who have declared to themselves by way of various Masonic and fraternal orders never to reveal to our sleeping and dead brothers and sisters their true heritage and contribution of government and the Great Seal Law of these united states of America.

The 13 red and white vertical stripes on the shield represent the first idea of a United Nations or United States. All are joined together in one solid compact unit, supporting a chief (sincere and qualified; the people) who unites the world and congress. The Eagle supporting the shield means that the nation is self-supporting. Blue signifies earth, peace, vigilance, justice and perseverance. Red on the shield signifies courage, strength and vitality. White is representative of the judicial powers, high aspirations and temperance.

Eagle

Scorpion

Serpent

As stated before the eagle, serpent and the scorpion form the trigon which symbolizes Scorpio. The eagle of the human spirit, representing a phoenix, is the highest point of the pyramid. The serpent is wisdom and the scorpion represents death or the lowest ebb of man's nature, the wasteful expenditure of the creative fluid. From the higher level, the eagle, the rays

from the eye are glory, hope and power coming from the central Sun. The rain cloud over the eagle's head (the glory) on the seal of the United States represents sublime life. Water is the symbol for salvation in Judeo-Christian mythology. The stars are universal and divine protection.

On the front of the 1 note (bill) is a picture of George Washington who became the president in 1789. At this time the states were uniting. They completed unification in 1863 and therefore Abraham Lincoln actually became the first president of the united (unionized) states. To the right of Washington's picture is the word "one". Within this word is the green seal of the department of treasury. It depicts the scales and a key with the year 1789, symbolizing the year they (Albion) were given the key to our federal government via the Treaty of Peace and Friendship of 1787 by Sidi Muhammed. The green color symbolizes life and vegetation, meaning the country will prosper and grow. The key symbolizes law and is the key civilization. The law is the scales of balance and the 7th sign of the Zodiac which is Libra, representing truth and justice.

The entire F.R.N. is enshrined in a web. Thus, signifies that the mysteries are many, and that there are many ways to approach the federal government mentally, physically as well as spiritually. The web also symbolizes the Zodiacal wheel which is the basis of law and governmental structure universally. The pyramid links each.

Yes, the "new order of the ages" beginning on July 4, 1776, is truly the Albion Independence Day whereas they were freed from the Moorish Nation. The number "one" on the front of the 1 bill note implies that this is the first and foremost nation (in leadership) in the entire world. However, this nation was not built by and for the Albion. The fallen Moors of North America are the people to which this number actually represents.

"In God we trust" stands between the obverse and reverse of the Great Seal. The Go here does not have anything to do with the spiritual one. There has always been an implied separation of church and state even though many religious and mystical elements are readily portrayed in the political arena. As stated in a previous lesson God refers to the 3 governmental departments of civilization: government department, ordinance department and the department of justice. The words "in god we trust" have been referred to since 1789 in relation to U.S. currency; however, the actual words were not incorporated on the F.R.N. until 1957. They were approved by President Dwight Eisenhower in 1955 to be used on the silver certificates series of 1957.

The eagle has been used on other U.S. coins. A copper penny of 1776 bore 13 stars surrounding an eagle. Gold eagles on 10 dollar pieces were first coined in 1795 according to an act of congress in 1792. Half, quarter and double eagles in 1795, 1796 and 1849.

Benjamin Franklin however did not quite appreciate the founding fathers using the bald eagle as a national emblem. He was, according to Franklin, a bird of bad moral character whose true nature was one of timidity and cowardice, rather than fortitude. Yet, the order Cincinnatus (the Society of Cincinnati, formed in 1783 by former revolutionary officers after Cincinnatus) used the eagle figure on medals and badges. Franklin said the figure on their badges resembled a turkey rather than an eagle. The turkey by comparison was a much more respectable bird and native to North America.

Had not the Moorish Nation established the science of geometry, there would be no way of calculating the months, seasons and year, and the measurement of time and global geography. The Moorish Nation established the dollar system and the 4 quarters which are representative

of the mundane cross (earth). The dollar system was handed down to the Franciscan fathers of North America by the Moorish Nation. That is the basic reason why the U.S. currency has ranked superior over all other monies/currencies of the Christian nations of the world. Note, not too long ago, the government decided to try and rid the country of the “dollar bill” by implementing the Susan B. Anthony dollar (coin). Just as the European has not been able to destroy our original culture and foundation, so as it was not able to do it in this time. The public complained that the dollar coin was not suitable as it resembled and had the physical feeling and characteristics of a 50-cent coin. Within 2 years, the Susan B. Anthony dollar coins were taken out of existence, and, low and behold, the original “dollar bill” (oxymoron) returned and will always stand as it is a borne replica of the Moorish nation’s heritage and symbolization.

The 4 quarters of the U.S.A. Moorish dollar represent human equality, moral principle, justice, peace and economic and social progress on a universal scale. The pyramid or pyr-a-met (fire in the middle) is a perpetual al-tau (alter) and movement to this movement to this fact, built exactly on the ecliptic, its apex heaven-ward, on which the Sun in its strength at high noon rests, and crowns it with a living central fire- truly an altar of stones to the lord of hosts at the 4 corners of the earth, whose base represents the 4 angles (angels) North, South, East and West and is the perfect square of a circle.

The Moorish Nation violated their own dollar system by imposing taxes upon the Amazon “white” people without proper representation which resulted in the fall of the Moors and the rise of the Union Order of 1863. From 1863 to the present the Amazon “pale” people have imposed taxation without representation upon the Moorish descendants. Referred to as negroes, which has resulted in the fall of the Union Christian Order on a universal scale, and the rise of civilization on universal scale. Both the

Moor and Franciscan Anglo-Saxons are equally guilty of violating the dollar system and therefore had to pay the penalty through war, bloodshed and fall.

The picture of the Patagonian blond woman on U.S. money (pennies and dimes) automatically made the “white” woman head “god” of the Christian world of corruption and crime. “In god we trust” on the U.S. currency is tangible evidence. “God” is therefore the corrupt government of the present-day slave system that we have chosen to take upon ourselves and pass on to our children to fortify by submitting to their wars, drugs, hatred, crime, egotism, and as the old saying goes....” keeping up with the Joneses.”

Summary:

There is a certain bird which is called a phoenix. This is the only one of its kind and lives about 500 years. When the time of its dissolution draws near that it must die, it builds itself a nest of frankincense and myrth, and other spices, into which, when the time is fulfilled, it enters and dies.

To ancient mystics the phoenix was a most appropriate symbol of the immortality of the human soul, for just as the phoenix was reborn out of its own dead self 7x7, so again and again the spiritual nature of man rises triumphant from his dead physical body.

In the mysteries it was customary to refer to initiates as phoenixes or men who had been born again, for just as physical birth gives man consciousness in the physical world, so the neophyte, after 9 degrees (months) in the wombs of the mysteries, was born into a consciousness of the spiritual world. This is the mystery of the initiation to which Christ referred when he said, “except a man be born again, he cannot see the

kingdom of G-d. (John 3:3). The phoenix is a fitting symbol of this spiritual birth.

European mysticism was not dead at the time United States of America was established. The head of the mysteries controlled in the establishment of the new government, for the signature of the mysteries may still be seen on the Great Seal of the united states of America. Careful analysis of the seal discloses a mass of Masonic and occult symbols, chief among them the American eagle- a bird which Franklin declared unworthy to be chosen as the emblem of a great, powerful and progressive people. Here again only the student of symbolism can see through the subterfuge and realize that the American eagle upon the U.S. currency is but a conventionalized phoenix, a fact plainly discernable from an examination of the original seal. In a colored sketch submitted as a design for this seal by William Barton in 1782, an actual phoenix appears setting upon a nest of flames. This demonstrates a tendency toward the use of this emblematic bird.

If any one doubts the presence of Masonic and occult influences at the time the Great Seal was designed, he should give due consideration to the comments of professor Charles Eliot North of Harvard, who wrote concerning the unfinished pyramid and the all-seeing eye which adorned the reverse seal, as follows: "The device adopted by congress is practically incapable of effective treatment; it can hardly (however artistically treated by the designer) look otherwise than as dull emblem of a Masonic fraternity."-The History of the Seal of the United States.

The eagles of Napoleon and Caesar and the Zodiacal eagle or Scorpio are really phoenixes, for the latter bird- not the eagle- is the symbol of spiritual victory and achievement. Masonry will be in a position to solve many of the secrets of its esoteric doctrine when it realizes that both its single and double-headed eagles are phoenixes, and that to all initiates

and philosophers the phoenix is the symbol of the transmutation and regeneration of the creative energy. The double-headed phoenix is the prototype of an androgynous (having female and male characteristics in one) man, for according to the secret teachings there will come a time when the human body will have two spinal cords, by means of which vibratory equilibrium will be maintained in the body.

Not only were many of the founders of the United States Government Masons, but they received from secret and August orders abroad and local, which helped them establish the U.S.A. for a peculiar purpose known only to the initiated few. The Great Seal is the original signature of this exalted body- unseen and for the part unknown- and the unfinished pyramid upon its obverse side is a trestle board setting forth symbolically the task to the accomplishment of which the United States government was dedicated from the day of inception.

In relation to the pyramid and the unconscious masses; when the mob governs (democracy), man is ruled by ignorance. The majority of humanity is now ignorant of self; when church governs, man is ruled by superstition; and when the state governs, man is ruled by fear. Before men can live together in harmony and understanding/innerstanding/overstanding, ignorance must be transmuted into wisdom, superstition into illumined faith, and fear into love. Despite statements to the contrary, Masonry is a religion seeking to unite Th Creative Higher Force and man by elevating its consciousness wherein they can behold the clarified vision the workings of the great architect of the universe. The perfect government of the earth must be patterned eventually after that divine government by which the universe is ordered, all of which is exemplified in both the pyramid of the Moorish Nation's Great Seal Federal Supreme Law, and the eagle or phoenix of the Unionized States Society of North America.

I. The Fez

The Fez is the ancient and modern national headdress of the Moabites / Moors. The Fez is a brimless headdress — most commonly produced in scarlet red with an ebony / black tassel. The red Fez is matched by the red field displayed in the Moorish National Standard [flag]. The Fez is also produced in black, white and other color variations — indicating other meanings, social order positions, etc.

The Black Fez is the highest Degree. It is worn by the MUFTI (Moorish United Front Toward Islam) — Enforcement and Security. The one who wears it symbolizes that he / she knows Law in Full, and is able to defend it, including knowledge of Martial Arts (Defense physically and spiritually), likened to the Martial Arts Degree of the Black Belt.

The Fez is worn as a symbol of the womb. The top of it has a nipple shape that symbolizes the navel. The strands of the tassel are 360°, as in 360° degrees of knowledge. The tassel is not pinned down as it is in the secret societies. Properly, the free-flowing tassel is indicative of one who is born of the womb, endowed with and aspiring to and beyond 360 degrees of knowledge. They navigate upon the earth and their potential is not limited, not pinned down, or kept secret, however it is sacred. The 4 sets of air holes are equal to the number of wombman — 9, and add to 13, the

number of times a woman cycles per year, which is in tune with the cycle of the Moon.

The Fez is typically of red felt, with an indigo black tassel. The Fez is the Headdress of the Ancient Ones - The Moabite/ Moors - also spelled - **Muur**. It is geometrically formed to represent the eternal Zodiac. The BODY at the FEZ symbolizes **the WOMB of the COSMOS and the WOMB of WOMAN** - Mother. The 1-inch FINIAL which extends out of the center of the FEZ is the NUMBER 1 and the 9th letter in the Phonetic Moorish alphabet -- I. This also symbolizes the NAVEL (Eye). **The cord extending from the I (Eye) symbolizes the Universal Umbilical Cord of Universal Life** and represents the Oneness of all life. It also represents the tie to the source of Humanity - **ZUDIACUS** - the **FIRST WOMAN**.

The Circular (round) ball of the tassel represents the **MUNDANE CIRCLE OR EARTH**. The cord wrapped about the tassel strands, hold the form of the Circle and represent the Unity of Life through the Zodiac Constitution of Humanity. It also represents the Cyclical and reciprocal nature of Life. The STRANDS of the TASSEL represent the **360 Degrees of the Zodiac**. The highest **LAW and AUTHORITY in CIVILIZATION**. The **ZODIAC CROWN OF LIGHT** the National Headdress of the **MOTHERS and FATHERS of the HUMAN FAMILY FOUNDERS of CIVILIZATION, AND MASTERS of the COSMOS SCIENCE. 3RD 33RD AND 360 Degree MASTER MASONS and EASTERN STARS**. This is a part of the hidden **truth which has been buried in the dark corner of the NORTH GATE**. The FEZ - symbol of the **Eternal Zodiac** is also called a **tarbush, a Tiara, a Corona Sol and other names, which describe its Royal Status**.

Many have been mistaken to think that the Europeans who wear the Fez in secret are the originators of the Fez. They are aware of the meaning

and purpose of the Fez, as it is the crown worn by those of the Moorish Nation, which represents the Matriarch. The Europeans have usurped and stolen the crown and the Birthrights, as well they have utilized the science and high cultured embodied and represented in the wearing of the Fez, which is the science of the universe, the workings of nature and natural order. This is one of the reasons Drew said they *live off of your virtues*, and why some describe them as “**vampires**”, who suck your royal blood, and who cannot come out into the light of the Sun, or the light of truth. Our miseducation has led us to mis-givings and to a dark and ignorant place of “not knowing, thus we suffer from a lack of knowledge and argue against each other as to the origins of many things, including the Fez. Many think the Fez belongs to Turks, without knowing that the original Turks are Moors of the Ottoman Empire. The Ottoman Empire being active into the World Wars, which coincides with the 40’s wherein COINTEL PRO charged Moors of the Moorish Science Temple, claiming they were in co-hoots with Japan against the United States (an abstract). Others think the Fez was originated and belongs to the pale Arabs of today, without knowing that original Arabs are Moors, and that some sold each other out into slavery even while wearing the Fez, as they do, or attempt to do today. This is one of the reasons Drew said: “*Be careful Moors, some of your own will put you back into slavery.*”

The following are pictures of Europeans both male and female wearing the Fez:

Here are more examples of the Fez Internationally proving antiquity and thus deep historical context and significance:

Bronze Phoenician statues all wearing the Fez which is recognized universally as a symbol of wisdom and power. Moors also called the Fez “the hemin”.

Phoenicians statues showing Phoenicians wearing the Fez or “Hemin”

Ancient Moors known as the Assyrians (Cushites) wearing the Fez.

Statues of the ancient Moors called Hittites (Canaanites) and the inhabitants of Cyprus. Notice that they are all wearing the Fez. Noble Drew Ali said the ancient Canaanites, Moabites, Hamites, Cushites, Hittites, etc. were all ancestors of the inhabitants of North and West Africa including the Americas (Dominions of Amexem).

Picture from India is of the Hindu god Vishnu, reclining and brooding over the face of the deep. He represents the preserver or sustainer of creation. Notice that he is wearing the Fez.

Narmer-Menes, the first king of united. The so-called white crown of Upper Egypt again is the Fez. On this stela is the bull motif representing the age of Taurus (4593- 2432 BC.). This was the age in which male rule and the institution of Divine Kingship was established by the ancient Moors. Prior to this was the matriarchal period.

This mural shows the ancient Moors called the Elamites. Notice that they also wore a Fez the same as that of the white crown of Upper Egypt. It was said by some of the Moorish elders that the Fez was originally white. According to the book "Ohaspe", the Fez became red when an ancient master refused to reveal the secret of his psychic abilities... He was thrown into a lion's den, and his blood dyed the white Fez, red. Thus, the Fez also came to symbolize "one who is faithful even unto death". This is also symbolized by Hiram Abiff in Masonic ritual.

This is a picture of a Toltec King wearing the white Fez inherited by the Toltecs from the earlier Olmecs.

Hitler's Nazis wearing the Fez. Hitler studied and understood Moorish Science. He was well aware of the Fez and its significance.

This is J. Edgar Hoover, head of the FBI for decades. He is seen here wearing the Fez. On his Fez is a crescent moon and star, with a scimitar sword above it. According to C. M. Bey, the crescent moon and star represents the Moorish woman and child, and the sword above it represents the persecution of the mother and child.

The crescent represents the mother or widow in masonry, as well as, the institutions teaching Islam amongst our people in this hemisphere. **The star represents the child (so-called "New Moors"), those being born into Moorish Science. In the book of Revelations, 12:1- 5, it says;**

The Apocalypse

"And there appeared a great wonder in heaven; a Woman clothed with the sun, and the moon under her feet, and upon her head a crown of twelve stars; and she is being with child cried, travailing in birth, and pained to be delivered. ...and there appeared another wonder in heaven; and behold a great red dragon, having seven heads and ten horns, and seven crowns on his heads. And his tail drew the third part of the stars of heaven, and

did cast them to the earth: and the dragon stood before the woman which was ready to be delivered, for to devour her child as soon as it was born"

J. Edgar Hoover and the FBI represent the dragon spoken of, and the Cointelpro program of the 1960's, whose official stated purpose was to stop the rise of a "black messiah". Cointelpro represents that which was to "devour her child [Black Messiah] as soon as it was born". This so-called "Black Messiah" is the child the Woman was "travailing" to give birth to. But despite the dragon's attempts to "devour" the child, the next verse in the book of Revelations says; "and she brought forth a man child, who was to rule all nations with a rod of iron: and her child was caught up unto God, and to his throne." Thus, the child (the New Moors) were born during the 60's, and survived, despite the attempts of J. Edgar Hoover's Cointelpro (the great red dragon).

If you see a fez with pinned down tassels, writings, reverse symbols, etc., these are cues that you are in the midst of lodge member, essentially a traitor of The Moorish nation especially if they be Asiatic; Klansmen and/or knights of Rome they are. The main signs of a freemasonic converso are fez with the symbol of the sword over the head of the Moabitess and the sword over the top of the 5-point star. The former indicates subjugation of the Moabite woman and the latter represents the subjugation of her children as 5 is the number of humanity which all spawned from Th Great Moabite Moorish woman. You may also see the crescent moon (mother), and the star (her posterity generationally; child) turned downward, or upside down. The correct position is crescent moon to the left and star underneath it at the tip as if hanging as fruit from the womb of mother, which is the tree of life from whence we come.

Fez

The National Headdress of the Moorish Asiatic Nation, founders of Civilization. **360** degree Master Mason. Son of Woman. The Fez is the Crown of Light, Authority and Rule, the Geometric Zodiac. The **Fez** has no brim and is circular as the **Sun** (Son). The Fez belongs to:

Ali: The bringer of Law. Most Noble and exalted. (Ethereal)

El: of the Cosmos - Law givers of the Elohim. (North Gate)

Be: Governors of the land in Moorish Civilization. **O'bey** and enforce Elohim Law. (North Gate)

De: of the Degrees - of the Eternal Zodiac. (South Gate)

Al: of the Law, descendant Governors.

Peregrinus Headdress (Pilgrim)

The Occidental (Albion) invading tribes adopted a form of the Fez; blackened it, and added a brim. The Moors named them, Peregrinus. These tribes of English (Anglis) foreigners, wandered the north-western territories of the North Gate (North America); stealing, murdering and plundering. In reconstructed history, these aliens are referred to as Pilgrims - a corruption of the Latin word **Peregrinus**. **Peregrine** is **Moorish Latin** for a **wanderer** or **Traveler** from a **foreign land**. One can see the influence of the Ancient Moabite/Moorish Nations' Fez in the headdress of the **Peregrinus** (Pilgrims).

Mortar Board

The Headdress worn in the West, as a symbol of scientific and scholarly ascension in degrees of knowledge. The Mortar board (Cap) is squared above the Crown, and means a Master Mason, using the tools of the Master Builder-Character building. The Mortar Board is an elementary symbol, mathematically **immulating the Fez:** 4 corners of **90** degrees; $4 \times 90 = 360$ degrees; $3 + 6 + 0 = 9$, representing the **Moabite Woman** - (Womb - man). The crown of wisdom and civilization, clearly of Moorish Origin. The school cycles are traditionally divided into 4 levels of 3 parts: $4 \times 3 = 12$ - the **Zodiac**; $4 + 3 = 7$, meaning knowledge of **Circle 7** Cosmology-Moorish Science. Elohim.

As a capstone (pun intended) to this presentation on the Fez, here are the coat of arms for a few different nations and you'll notice the same Fez or "liberty cap" in all of them:

Coat of Arms for Aiti (known as Haiti)

Coat of Arms for El Salvador (above)

Coat of Arms for Nicaragua

Coat of Arms for Cuba (Isabella)

The Fez is a sign of nobility (sovereignty) and divinity.

Coats of Arms for the so-called Nobles of Europe:

Many, if not most of the Noble families of Europe had some Moorish ancestry. It should also be noticed that the coat of arms of these noble families had Moorish heads and persons in their coats of arms, and also notice that their names either had the word Moor, Mor, Maur, and Mur in it in some form or another. Names such as; **Moorhead, Blackmore,**

Morrison, Murray, Maurice, Mor, Mohr, Morocco, Moritz, Moran, Maurois, Morini, Moreau, Morelli, Mormand, Moorman, Morenkoph, Swarthmore, etc. Because of the high civilization of the Moors and the fact that they came into Europe as conquerors, it was an honor to have Moorish blood in your family tree.

THE CRESCENT AND STAR

THE "I" OF ISLAM

The banner of the crescent and star, or the flag with Moon and 5-pointed star in the center, is the insignia of the Asiatic or Moorish Nation. It is the mother of all national banners of the world today because it is the oldest. The flag with the Moorish crescent and star represents the entire human race.

When reading or writing in any language there are only 2 principle directions in which one may go, lateral (crosswise or across) and/or vertical (up and down). All other movements in other directions are just varying degrees of the two. When reading the meaning of the crescent and star, no matter from which direction one reads, the Moon is always first and is read in the following manner: from left to right, Moon and star (☆); from right to left, and Moon star (☆); from top down, Moon and star (☆); from bottom up, Moon and star (☆).

Moorish Latin and its many dialects are read from left and right. Arabic, Hebrew and Sanskrit are read from right to left. Japanese and Chinese are read from top down. Thus, the Moon, the great female principle, can be shown to be the generator of all the apparent phenomena known to man in any language.

The 3 meanings of Moon and star:

- 1) Moon and Sun: as Moon and Sun, the crescent and star represents both the negative/magnetic force (feminine) and the positive/electric force (masculine).
- 2) Woman and Son: as woman and son, the crescent and star symbolize the great universal woman, the universal womb or matter in its most elementary state which generates or produces all forms, visible or invisible; these forms are the son principle to balance woman.
- 3) Widow and son (of Masonry): "I am a widow's son in need, indeed!" say the Masonic brethren, simply because when a woman gives birth to a male he is her son, so, all males are sons. And since all males are sons, woman can have no husband; she is therefore a widow truly.

The Moon or crescent represents the woman, widow or feminine principle. In mythology the Moon was personified by the Greeks as the goddess Luna (Moorish Latin for moon). The ancients associated fertility, growth and decay with the lunation phases. The Moon factor is the mediator between the past and the present, accumulating the whole story of man's personal evolution within the fluids of brain and body. The Moon establishes an essential rhythm in the body and instinctive mind. As an ebb and flow of sensation and emotional experience the Moon is connected with the deepest associations of one's relatives and ancestors, especially the mother. Powerful mother-child relationships begin in the womb. Hence the Moon indicates the mother complex.

The star or Sun represents the male, son principle. In mythology the Sun was personified as the all-pervading creative power in nature or the masculine principle.

These two principles are represented in genesis as Adam and Eve. These twin souls are the absolute expression of masculine and feminine rays of which absolute atomic self is composed. The masculine ray contains a portion of self forces and the feminine ray must likewise contain a portion of the positive qualities.

This is the principle of gender. These souls therefore contain a portion of each other. They constitute the Sun and Moon of the self-creation. This principle of gender is one of the 7 hermetic principles. When these rays become differentiated, they are still as eternal and immortal as the self which called them into existence. They constitute the divine idea of a parent and as such they become the divine expression of love and wisdom upon the earth.

The ancients seem to think all souls coming into their first human incarnation take it in the sign of Cancer. This sign has been recognized through the ages as “the doorway into life of those who must know death”; its opposite, Capricorn, esoterically is known as “the doorway into life of those who know not death.” Cancer is the symbol of the womb or universal mother.

On some ancient Khemetic tablets the Moon and Sun principles are astrologically written and esoterically interpreted. The Sun is symbolized as a flaming splendor, a center of light, radiating in all directions. It is the symbol of all created life, spiritual and material; of all goodness, human and divine; of all creations, from starry systems to man. Light is life. The planets are offspring of light and life. Mankind is the offspring of light and life. In this symbol we read the source of the human ego.

Another tablet depicts the symbol of Cancer, the Moon. Here Cancer is typified by a woman’s face, unconscious, in a trance, surrounded by clouds.

This dreaming woman represents reflection. Her thoughts shape the coming of man. She is sleeping and knows not her powers. She must awaken and recognize herself. In this is the great lesson to woman: ever remember thy creative power as the mother of the humanity of the future. The Sun in thy mansion exerts its highest power.

Still another tablet of the same set depicts led or the masculine principle of the Sun exerted on the physical. Here we have the symbol of the fire of the spirit. The woman sleeps and dreams, but the man she has brought forth is awake and bids defiance to the fiery forces of nature. He has armed himself with keen knife of action and with it conquered the forces of matter. Thus, he has mastered all forces inferior to spirit. This can account for the aggressiveness of male sons and their active fighting nature. The woman is passive and retiring.

As the last degree of Cancer (water) merge into Leo (the strong throne of the Sun) it is typical of fructification and during the heated term this renders Virgo, the sign which Leo merges or goes into, fruitful for harvest in due time. Cancer is the clean and pure water sign and the favorite house of the Moon which rules, (1) human mind, (2) conception, and (3) water.

The Moon's strong place is Cancer. The Sun's strong place is Leo. These astrological principles are followed by the human sign Virgo or celestial virgin, whose seed fructified and quickened (the water or menstrual of nature was vitalized by the Sun's rays. This caused the fruit or harvest to mature.) Thus, the Moon and Sun principle can be seen in the stars as well as in nature.

In freemasonry the brethren of that order are called "sons of the widow" who are "in need, indeed", and it is stated in the bible that Hiram Abiff (in Greek it is Chiram Abiff), the master builder of sol-om-on's temple, was

the son of a widow. Now the Word Solomon is composed from 3 languages, Moorish Latin sol or solus for sun; Sanskrit alum or Om (the universe beyond the sun; mysterious; inexhaustible; infinite knowledge; essence of breath, life, everything that exists; with one is liberated); and Ethiopic/Amharic on (setting sun). Woman is a widow because she has no husband, and all children enter the earth by way of a woman. She is the grand architect, one who can build a temple (body) without the sound of hammer or the use of a nail. Solomon was ordered to build the temple without the sound of the hammers. Hiram represents the fire or Sun principle within man. Naturally the spiritualized mind with the fire principle must do the work of forming and shaping this temple. It is built without the sound of hammers within the negative sphere of the widow. Hiram represents the positive physical intellectual principle.

The early Shemites (Ibri; Hebrews) regarded the principle deity of each oasis as a Goddess and the next important deity as her son. The Goddess appears to have been the spirit of the spring which gave the oasis its fertility and was consequently thought to reside in the spring. The son appears to have been regarded as the spirit of the vegetation. Spring can be correlated to the earth and vegetation is an out growth of the earth. Here the spring is the woman and the vegetation is her son. They called the mother Goddess by a name which is found among all Shemitic nations known to history. It appears to the Babylonians as Ishtar, the Phoenician as Astarte and the Kamaatans as Auset (Isis). These earth Goddesses can all be correlated to the earth sign of fertility, Virgo. All these names were later changed to different names by ancient peoples so as to fit and mesh within their particular tribe and customs. The Hebrew (Ibri) word for the female or Eve principle of the Moon was Ashtoreth which apparently meant "the self-waterer". The word for the male or Adam principle of the Sun was Tammuz which meant "son of life".

This positive and negative principle is also displayed in the Kamaatan sphinx which has the entire body of the lion or Leo-male and the head of the virgin or Virgo-female. Virgo is the 6th sign and typifies fertility. The Virgo or garden is the place where corn or grain is stored or raised. It is a storehouse. Virgo was pictured as holding an ear of corn and later a sheaf of wheat. Kemet was the storehouse or mother of a child or colony of the governors of the earth. The sphinx is the key to where the earth begins and ends. The word sphinx in Greek means “to join closely together”. Virgo and Leo are the star and crescent in Kemet (Egypt). They are alpha and omega.

The sons of a widow or mother are the only supreme beings who can stand in the form of (1) a cross with both feet together and both arms held out horizontal to the ground; (2) a 5-pointed star; (3) in a straight line like the I whether standing erect or lying down. When standing feet apart and arms outstretched, sons are representative of the 6-pointed star. When standing like this they represent the 5 great principles + innerstanding of woman’s universal perfections in the course of 9 months.

The letter I stands for the individual – who cannot be divided- and for man as supreme manifestation which is the number 9. Furthermore, before one can cope successfully with the problems of life one must “get one’s I together” by realizing that everything is the I, and that any attempt to “harm” another seemingly part of it will be just another “painful” experience to the evolving soul. You (we) are the supreme manifestation of the number 9 which is I and to prove it, (1) normal childbirth takes place after 9 months; (2) man’s average heartbeat is $72 \times 3 = 36$; (3) man’s average step is 3 ft., $12 \times 3 = 36$; (4) the Moon goes through 4 phases per 4 month, 4×9 (9 months gestation) = 36 months. We have now proved that you are supreme manifestation and the following 4 phases of the Moon

capsulate that proof: (1) new Moon, (2) first quarter, (3) full Moon, and (4) last quarter.

THE PYRAMID

THE "S" OF ISLAM

The pyramid is the second symbol in Islam. Its apex at the top indicates man's essence is spirit; if the apex were pointed down the triangle would represent matter. The 3 equal sides of the triangle symbolize in universal terminology the positive, the negative and the offspring or union of the male-female principles. On top of the pyramid is the "all-seeing eye" which stands for the I in you. The glory or light at the top of the pyramid symbolizes knowledge, wisdom and light. However, the capstone on the great pyramid on the back of the fiat note is not connected to its base because the masses of humanity are ignorant of their essence which is spirit, their culture and heritage. Man's status in the world is controlled by those who know; consequently, his status is determined by the quality of his thinking. He who knows all that can be known by intellectual energy is a "god" among men. The men who control the political and economical systems of the world are the ones who have capped their pyramids. Ignorance has put and kept mankind into blackness and grief, but no man should grieve, for grief is the most serious of all diseases. Nature permits man to do anything he desires; he is limited only by his own ignorance, his own laws and customs.

The pyramid is an example of perfect orientation. It is self. The pyramid is also built upon a square just as man is born on the square. The square base is a constant reminder that the house of wisdom is firmly founded upon nature and her immutable laws. The angles of the square being silence, profundity, intelligence and truth. They also represent the extremities of heat and cold (North and South) and light and darkness (East and West).

**FIG. 1. THE PYRAMID'S
APEX WITH A VIEW FROM
THE TOP.**

FIG. 2. A SIDE VIEW.

Man is a 4-fold unit concerning the elements of his own constitution, and the earth, fire, air and water are one of the fundamental keys to the mystery of the great pyramid. The field enclosed by the basic lines of the four ideographs is an equilateral square base of the pyramid. The apex or center is the "all-seeing eye" or the "psychic" or the "star of the East". The pyramid can be likened to the universe and the capstone to man; the mind of man is the capstone as man is mind. The spirit is the capstone of the mind and G-d is the epitome of the whole of the capstone of the spirit. The temple is complete only when the person himself becomes the living apex through which the divine power is focused into the diverging structure below. Mind over matter.

The majority of humanity's eyes are closed. When the eyes are open the conscious and subconscious will be fully aware of what each is doing. At this stage the human body or temple can regenerate. The exact science of human regeneration is called the "lost key" in Masonry.

THE COMPAS AND THE SQUARE

THE "L" OF ISLAM

The ancient Moors were navigators. Moor means navigator of the 7 seas guided by the North Star, and in order to navigate they used a compass and a square. A compass has 32 points, $3+2=5$, life. This instrument was/is used as a way of life for Moors.

The compass was/is an instrument used to draw circles, and the two legs embody the idea of a male force meeting a female force at an angle. This angle is measured in different planes. The right hand of man is the executive or positive, so the right leg of the compass was taken to signify the positive force. The left hand of man is receptive, so the left leg of the compass was taken to represent a negative force.

In ancient masonry the union of Zodiacal motion and declination was symbolized by the union of the compass and the square. The square placed below is typical of the purely physical union of the sexes. In astrology the inharmonious aspects of each constitute a portion of the square or angle 90o- semi-square, square, sesqui-square and double square or opposition- and the right angle has been used from time to time as the symbol of discord and strife. It becomes a fitting emblem therefore of man woman

when united from purely selfish and carnal motives. It thus represents the result of the ignorance so prevalent in the present day matrimonial system.

In conclusion, the square represents the following:

- A. Man, and his 4 essences: spirit, mind, soul and body....
- B. Something to build on because all solid foundations have 4 corners, a square.

Also, the angle formed by the positive, stationary male leg of the compass and the receptive, movable female leg is less than a right angle. It should approximate 60° which is the sextile or 6 of creation. The sextile is used to denote harmony and joy.

The letter G typifies the generation of offspring as a result of physical form/union. But in order that these progenies may be endowed with soundness of body and mind and thus become a blessing to their parents and to humanity, the ancient masons taught that there must be a higher union in addition to the physical, as indicated by the compass above, which is spiritual. The spiritual, as well as the physical laws, must be obeyed. The following diagrams show various spirit-matter relationships with regard to the compass and square, and man's final triumph, as spirit, over matter:

Fig. 3

The presence of the right-angle triangles in figure 3 is of importance symbolically, for the right triangle had been used from remote times to symbolize spirit and matter in their inclusiveness. When an angle is

shown with its points upwards it signifies spirit or the celestial; reversed, with the points downwards it indicates matter or earth.

Fig. 4

In masonry, however, the compass replaces the upper triangle. In figure 4 the two ends of the spiritual right angle are below those of the material, so that they indicate spirit's complete submergence in matter and the temporary triumph of matter over spirit.

Fig. 5

In figure 5 we have "more light", for one arm is above the square; in other words, one arm of our spiritual right angle is over the corresponding arm of the material right angle, indicating the gradual emergence of spirit from matter.

Fig. 6

Figure 6 symbolizes the triumph of spirit over matter, for here both arms of the spiritual right angle are over both arms of the material right angle. Not only has "further light" been given, but in the triumph of spirit over matter (flesh) "all the light that can be conferred" on a "master" has been awarded the proficient neophyte. This symbol not only indicates the triumph of spirit, but its resurrection, ascent, and dominion over all material conditions.

The union of the compass and the square form a diamond, the hardest and most precious of stones. With the G in the center it is the diamond in the rough. When ground and polished it becomes a diamond without blemish and the "God" (good) within then becomes manifest. This condition is symbolically represented by the Ibrī (Hebrew) letters yod-he-vau-he within the compass and square and to accomplish this one must master the physical which may be done scientifically or spiritually; therefore, before the polished Jew (El) can appear there must first be the stone because of the G. The G shows the initiate the path he must take. Accept it as it is found, but seek to learn the laws of workmanship governing its transformation from an unsightly pebble into a shining gem.

In masonry the G represents geometry. Math has 4 divisions which are (1) algebra, (2) geometry, (3) trigonometry and (4) calculus. Geometry is the universal law of perfection, the science of which the cultured moors have always had and which will always be in the hands of their kinky/kingly/queenly/curly-haired descendants of North America/Amexem/Afrika. Therefore, the Moorish Nation of Ameru cannot be destroyed.

THE SIX-POINTED STAR

THE "AND" OF ISLAM

The physically perfect man or adept possesses and is master of 7 physical senses, 7 psychic senses and 7 states of consciousness. The number 7, denoting the completeness of physical life, indicates readiness for transition to a new octave of endeavor.

The 6-pointed star of the Moorish Nation is referred to as the “Jewish star of Da’ud (David)”, and let it ever remind you that the divine trinity  is reflected within you (matter)  · , and that the lower triangle must be lifted up until it balances the upper and forms the , your life interlaced with the divine. The upper triangle represents man on the spiritual plane, the north node or anode, the North Gate, and the summer season; the lower triangle represents man on the lower/physical plane, the South Pole or Cathode, the South Gate, and the winter season. Thus, these two triangles are now perfectly balanced, giving us the 6-pointed star or symbol of the equilibrium of spirit and matter. They truly denote the existence of but one Creator who is perfectly expressed in both the visible and invisible worlds. “As above so below” is what these triangles say, and these two interlaced trines are sometimes referred to as the two tables of stone.

The 6th sign, Virgo, is 180o and covers the last month in the summer season. This is referred to in mystical religious and secret orders as the “land of nod” or the North Gate or North Pole; the positive North Pole’s electric current flows to the negative South Pole. The 6-pointed star (sometimes called the Seal of Solomon) is mentioned by Paul in I Corinthians 15:38-45, and he describes the two realms which explain the as above so below principles. Often the star of Da’ud has a G and a 7 in the center. Here again the G stands for law, the 7 rungs on the ladder that represent the 7 hermetic principles.

Again, the interlaced trines signify the triune Creator reflected in creation. “The trinity of nature is the lock”, wrote Elihas Levi, and “the trinity of man is the key that fits it.” The two trines signify the 6 creative groups, the 6 powers in nature, the 6 planes of consciousness and of

evolution, the 6 principles of man. All of the principles are synthesized in the 7th principle.

Fig. 7

Fig. 8

Fig. 9

The supreme triangle, the white triangle pointing upward, symbolizes Siva, fire, light, celestial powers, and also the divine trinity in man, ever evolving upward after its incarnation in matter, seeking more expression on a higher level.

The reflection, the black triangle pointing downward, symbolizes the dark waters of chaos in which the divine germ is laid and also the instability of man's nature (lowered), "as unstable as water."

In conclusion, woman has 12 outlets in her body of which 9 are above the navel in the North Gate, and 3 below the navel in the South Gate. Man has 9 outlets in his body, 7 of which are above the navel in the North Gate, the other 2 below the navel in the South Gate.

THE ZERO ZODIAC CIRCLE

THE "M" OF ISLAM

The crucified zero is the last principle of Islam. It is the mark of the master, and signifies that when one has completed the 360o of learning on one level, he must now embark on the 1st degree of the next. The quartered circle denotes the division of matter into visible and invisible, animate and inanimate, and organic and inorganic states (the lower half that is). However, the upper divided half represents spirit divided into the (physically) visible and invisible (higher) planes. The master symbol also represents (1) the 4 seasons; (2) the 4 directions (North, South, East and West); (3) the 4 quarters or essences of man; (4) the 4 quarters of the dollar system; and (5) the 4 lunar phases.

The 4 lunar phases of the Moon are of great significance as represented by the 5th principle of Islam because they have the most powerful influence upon all terrestrial life, second only to the vitalizing influence of the Sun. The Moon exerts more power on earth because it is closer than any planet. The last quarter is the strongest. When the Moon is full it is closest to the earth and has an adverse effect on the lower nature of man. Luna is also the fastest planet in this part of the universe, for it takes only 28 days to make its orbit around earth. Also, the power exerted on woman is exhibited through Luna.

The 4 quarters of the master symbol, $90 \times 4 = 360$, is the number 9, the number of man. Every man is born on a square. The baby lies on a 90o

angle in a woman's womb from conception to birth, and is in gestation for 9 months- supreme manifestation!!!

(C) Allegories

I. Keys

- Bey means lord of the earth- meaning subdue the earth and make it yield all of the necessities of livelihood. Thus, the earth O'Beys. Islam means (I AM) the great. (I Am) namely, you and me- woman and sons.
- El means the center of wisdom or gravity- the law of attraction and the power of the human mind. Education.
- Allah means the Moorish woman, who is the Mother of modern humanity, male and female of all different shades of skin or hues.
- Al Koran means the chronological record of the Moorish nation- namely, the science of the 12 signs of the Zodiac- the universal law and constitution- geometry- the square an angle of 90o.
- "King Solomon" is the earth which contains all of the elements, wealth and the forces of nature. Thus, the earth is the storehouse for all of the wealth of creation which makes it the wisest "man" on the planet. So, also, the human body contains all of the elements of the earth.
- "Queen of Sheba" is the five great principles of the 12 signs of the Zodiac, namely wisdom, innerstanding, unity, peace and progress. King Solomon's temple is the body of man and earth. The body of man- the real temple is created by mother from conception to birth in the course of 9 months without the use of nails and the sound of a hammer. Thus, the human body is the temple of good of mother's grand perfection referred to in mystery as "God". The union 1863 tradition "white" and "colored" masons are a universal disgraceful violation of the supreme law of Masonry.

- The term mason is derived from womb-man-son meaning woman and son. Wo is negative (womb) and: male is positive, meaning the powers of the womb of female are responsible for the creation of sons in the course of 9 months which makes women supreme master creators of both female and sons from unformed matter planted by another son of a female. Phrased together spells womb-man-sons or woman and sons. Wo was struck out, and n was struck out leaving ma phrased with son which spells mason. Thus, woman, sons and child reproduction comprise the great triune (3 in one) of universal supreme creation of humanity. Woman has no earthly father and neither husband, for all male sprung from her. Where woman comes from, no one knows. This makes her a widow. The term Mason also implies master, or messenger, which simply means one who possesses scientific knowledge of the works of nature. Such knowledge makes one conscious of the fact that his universal mind makes him free to propagate truth contrary to secrets, falsehood and imperialism.

7 days of the week:

- 1) 1st day-Sunday-proton-positive-the center of attraction. Sunday is derived from Shamsun Moorish Latin, meaning Sun-day. Sulphur, gold, copper and granite- atomic elements from Mexico to North Canada and from New Orleans, St. Louis and Chicago lies in the region of the Sun-the sign Leo-the golden state in California. The human heart is the vital organ of the Sun.
- 2nd day-Monday-Moon-electron, negative-the circle of the center of gravity which governs the human mind, feeling and muscles. Monday is derived from Kamrun Moorish Latin, meaning Moon day. Water, air, salt and silver-

biology. The Moon is exalted in the islands of the Philippines, Japan, Korea and Russia in the sign Taurus.

3rd day-Mars-voltage. Tuesday is derived from Tiu Moorish Latin meaning Mars, force of evolution. Iron, steel construction and industry. Mars is exalted in the union of South Africa in the sign Capricorn, the South Gate.

4th day-Mercury-Wednesday is derived from Dies Mercurri Moorish Latin meaning the god of forethought, namely woman and sons; the god of wind and the creation of the world. In North American mythology barbarian mythology, the planet Mercury (mind) is referred to as “Moses, Socrates, Prophet, Odin and Odin day meaning Wednesday, (chemistry) the planet Mercury also governs freedom of speech, freedom of thought and the press. The planet Mercury is exalted in N.Y. and Boston in the sign Virgo-180o-the last of the North Gate.

5th day-Jupiter. Thursday is derived from Jeudi or Jurvis Moorish Latin meaning wisdom of medical science, health, wealth and progress, gold. In North American barbarian mythology, the planet Jupiter is referred to as “Saint Peter” and “Thor”, the first two major mythical gods of the North American barbarian tribes. Jupiter is exalted in the region from Hawaii to California in the sign Cancer.

6th day-Venus-Friday is derived from Freya or Frigga Moorish Latin. Meaning lady of love or woman, the god of creation of sons, unity, music, peace and enjoyment, and rested on the 7th day. In North American barbarian mythology Freya is phrased: “In the six-day God created heaven and earth and rested on the 7th day”. In reality, Woman and sons recorded the names of mystical gods, as weapons of power over one another from which has resulted

in human bondage and mental slavery on a universal scale. Venus is exalted in the 12 sign Pisis in the region of Java E. India, 360o, opposite N.Y. which is 180o.

7th day-Saturn-Saturday is derived from Saturn Moorish Latin meaning the elements of lead, tin, carbon, coal, dye and diamond and the 90o span or 7-day change of the face of the Moon. Moon-Saturn, the time mark of the universe and evolution, and restriction. The planet Saturn is exalted in the 7th sign Libra, in the region of Brazil from November 1950 to 1953. The descendants of the North American barbarians known as the Jewish, Moslem, Mohammedan, Catholic and Christian religious mythology are founded upon Freya (Friday) and Saturn (Saturday) or the planets Venus and Saturn. The descendants of North American barbarians are also referred to in religious mythology as the tribes of: Ishmael”, meaning priesthood, tramps, thieves, robbers and murders by trade as the results of ignorance owing to religious mythology. The “Ishmaels” were in the union of 1863. Ransom was one of their greatest procedures for money or land. The Ishmaels laid the foundation for wallstreet, N.Y. feudal Imperial Rome.

Hiram Abiff:

Is the central character of a Masonic allegory presented to all candidates during their initiation into the 3rd degree in freemasonry? Hiram is presented as the chief architect of King Solomon’s temple, who is murdered in the temple he designed by 3 ruffians during an unsuccessful attempt to force him to divulge the Master Masons’ secrets and passwords. Themes are fidelity, death and resurrection. (See Revelation 2:10-11)

Hiram - (High Ram) - Aries, the Ram

Hiram has more meaning than what has been told in **Masonic** allegory. Indeed. Hiram was a Master builder who was robbed. hit in the head and buried in the corner of the Temple: but let's take another view of this.

Hiram is, in fact, relating to the defeated and unconscious Moors of North America (Al Moroc), known Masonically as the North Gate. The act of teaching and informing the ignorant and unconscious (mentally dead) Moors is called **raising**.

Aries, the Ram, is the first sign of the **Zodiac**- the Law of the Ancient Moabites/Moors. Aries is the first sign (month/moon) of the true **New Year** in the Northern Hemisphere of the Americas. This brings in the Spring Season and is called the **Resurrection of Life** in the dark **North**.

The sign of Aries is indicated on the Mundane Cross as the position of "9" of the Zodiac clock. Aries the Ram is the third (**3rd**) Month (moon) of the Solar year. Aries is one of the four Cardinal points of the Zodiac and comes in on **March 21** of every year. This is known from ancient to modern times as the **Vernal Equinox; March, the 3rd month; 21 is 2+1=3**. This is the secret of the **33 degrees**- the symbol of the Great Pyramid. The resurrection of the Science of the Ancient Moorish Nation, in the Aquarian age. The Zodiac is the origin of both Religion and Science. Know your Law, know your truth, and begin freeing yourself from false doctrines and unlawful unconstitutional government.

The Symbol of The Four Cardinal Points of the Zodiac: The Mundane Cross. (Earth)

The Sun Rams the earth - resurrecting life in the Northern Hemisphere after three seasons in the tomb. Hiram is the Zodiac Law of the Moabite/Moorish Nation. Aries - The Ram  on High (uplifted). The Europeans have been ruling the West with Moorish Law - Astrology. There shall be no more secrets.

"Hiram Abiff" is the Sun, which marks the months, seasons, signs and the measurement of time and space during the earth's annual revolution of 360°. The "Grand Master" is the fall season, Oct., Nov., and Dec. The fall/fatal blow is Dec. 21st or Jan. 1st, when the Sun enters the sign Capricorn and ushers in the winter season in the Northern Hemisphere. Here the cold weather strikes its fatal blow to plant life. In mid-February

the earth evolving or arising from the slumber of the winter season toward the spring season for reviving or recreation of warm weather and plant life. Thus, the approaching grip of the spring season against the winter season is referred to as “the strong grip of the lion’s paw”, meaning the spring season has raised plant life from its death bed of frozen earth to a living perpendicular-New life on March 21st or April 1st-the Vernal Equinox.

After the earth has completed its 360o in the 12th sign Pisces and evolves to the first sign, Aries, and then the mystic names such as “Wishful Master” and “The Ram in the burning bush” are employed, meaning the heat of the earth and the sun is in the Northern Hemisphere for six months; this period of planting, cultivating, vacation and return for harvest.

(D) Master Mason

I. Workshop of the Mind

Holy Circle 7 Koran Chapter 5:

13. "These tools remind me of the ones we handle in the workshop of the mind where things were made of thought and where we build up character.

14. We use the square to measure all our lines, to straighten out the crooked places of the way, and make the corners of our conduct square.

15. We use the compass to draw circles around our passions and desires to keep them in the bounds of righteousness.

16. We use the axe to cut away the knotty, useless and ungainly parts and make the character symmetrical.

17. We use the hammer to drive home the truth, and pound it in until it is a part of every part.

18. We use the plane to smooth the rough, uneven surfaces of joint, and block, and board that go to build the temple for the truth.

19. The chisel, line, the plummet and the saw all have their uses in the workshop of the mind.

20. And then this ladder with its trinity of steps, faith, hope and love; on it we climb up to the dome of purity in life.

21. And on the twelve-step ladder, we ascend until we reach the pinnacle of that which life is spent to build the Temple of Perfected Man."

II. Working Tools

Apron

1. As an Entered Apprentice you were taught to wear your apron with the top turned up, for reasons then explained. As a Fellow craft, you were taught to wear it with the top turned down and the left corner turned up in the form of a triangle to form a pouch, representative of our ancient brethren who, as the hewers of stone, carried the working tools of a Fellow craft. As a Master Mason, you are entitled to wear it in the form of a square to designate you as a Master, or overseer of the work.

Trowel

2. The working tools of a Master Mason are all the implements of Masonry, indiscriminately, but more especially the Trowel.

The trowel is an instrument made use of by operative Masons to spread the cement which unites a building into one common mass; but we as Free and Accepted Masons are taught to use it for the more noble and glorious purpose of spreading the cement of brotherly love and affection; that cement which unites us into one sacred band or society, of friends and brothers, among whom no contention should ever exist, save that noble contention, or rather emulation of, who can best work and best agree.

Pot of Incense

3. The Pot of Incense is an emblem of a pure heart, which is always an acceptable sacrifice to Deity, and as this glows with fervent heat, so should our hearts continually glow with gratitude to the great and beneficent Author of our existence for the manifold blessings and comforts we enjoy.

Beehive

4. The Beehive is an emblem of industry, and teaches the practice of that virtue to all men, from the highest seraph in heaven to the lowest reptile in the dust. It teaches us that as we came into the world rational and intelligent beings, so we should ever be industrious ones; never sitting down contented while our fellow creatures around us are in want, especially when it is within our power to relieve them without inconvenience to ourselves. When we take a survey of nature, we view man, in his infancy, more helpless and indigent than the brutal creation; he lies languishing for days, months, and years, totally incapable of providing sustenance for himself, of guarding against the attack of the wild beasts of the field, or sheltering himself from the inclemencies of cold weather. It might have pleased the great Creator of Heaven and Earth to have made man independent of all other beings; but as dependence is one of the strongest bonds of society, mankind was made dependent on each other for protection and security, as they thereby enjoy better opportunities of fulfilling the duties of reciprocal love and friendship. Thus, was man formed for social and active life, the noblest part of the work of God; and that he will so demean himself as not to be endeavoring to add to the common stock of knowledge and understanding, may be deemed a drone in the hive of nature, a useless member of society, and unworthy of our protection as Masons.

Constitutions Guarded by Tiler's Sword

5. The Book of Constitutions, guarded by the Tiler's Sword, reminds us that we should ever be watchful and guarded in our thoughts, words and actions,

particularly when before the enemies of Masonry, ever bearing in remembrance those truly Masonic virtues, Silence and Circumspection.

Anchor and Ark

6. The Anchor and the Ark are emblems of a well-grounded Hope and a well-spent Life. They are emblematical of that Divine Ark which safely wafts us over this tempestuous sea of troubles, and that Anchor which shall safely Moor us in a peaceful harbor, where the wicked cease from troubling and the weary shall find rest.

Sword and Naked Heart

7. The Sword, pointing to a Naked Heart, demonstrates that Justice will sooner or later overtake us, and, although our thoughts, words and actions may be hidden from the eyes of man, yet that ALL-SEEING EYE, whom the sun, moon and stars obey, and under whose watchful care even comets perform their stupendous revolutions, pervades the inmost recesses of the human heart and will reward us according to our merit.

47th problem of Euclid

8. The Forty-Seventh problem of Euclid was an invention of our ancient friend and brother, the great Pythagoras, who, in his travels through Asia, Africa, and Europe, was initiated into several orders of priesthood, and raised to the sublime degree of a Master Mason. This wise philosopher enriched his mind abundantly in a general knowledge of things, and more especially in Geometry, or Masonry: for this subject, he drew out many problems and theorems: and among the most distinguished he erected this, which, in the joy of his heart, he called Eureka, in the Grecian language signifying, I have found it, And upon the discovery of which he is said to have sacrificed a hecatomb. It teaches Masons to be general lovers of the arts and science.

Hourglass

9. The Hour Glass is an emblem of human life. Behold! How swiftly the sands run, and how rapidly our lives are drawing to a close. We cannot, without astonishment, behold the little particles which are contained in this machine, how they pass away almost imperceptibly and yet, to our surprise, in the short space of an hour they are all exhausted. Thus, wastes man! Today he puts forth the tender leaves of hope, tomorrow blossoms, and bears his blushing honors thick upon him; the next day comes a frost which nips the shoot, and when he thinks his greatness is still aspiring he falls, like autumn leaves, to enrich our mother earth.

Scythe

10. The Scythe is an emblem of time, which cuts the brittle thread of life and launches us into eternity. Behold! What havoc the Scythe of Time makes in the human race. If by chance we should escape the numerous evils incident to childhood and youth and with health and vigor arrive at the years of manhood, yet withal we must soon be cut down by the all-devouring Scythe of Time, and be gathered into the land where our fathers have gone before us.

Setting maul, Spade, Coffin and Sprig of Acacia

11. These are the Setting Maul, Spade and Coffin. The Setting Maul, is that by which our Grand Master Hiram Abiff was slain; the Spade was that which dug his grave; the Coffin, was that which received his remains; and the sprig of acacia was that which bloomed at the head of his grave. These are all striking emblems of mortality and afford serious reflection for a thinking mind; but they would still be gloomier were it not for the sprig of acacia that bloomed at the head of the grave, which serves to remind us of that imperishable part of man which survives the grave, and bears the nearest affinity to the supreme intelligence that pervades all nature, and which can never, never, never die. Then, finally, my Brethren, let us imitate our Grand Master, Hiram Abiff, in his virtuous conduct, his unfeigned piety to God, and his inflexible fidelity to his trust; that like him, we may welcome the grim tyrant, Death, and receive him as a kind messenger sent by our Supreme Grand Master to translate us from this imperfect to that all-perfect, glorious, and celestial Lodge above, where the Supreme Architect of the Universe presides.

Holy Bible: Ecclesiastes Chapter 12

12. The altar of a Master Mason is the same but now there is more than the candidate has heretofore discovered; both points of the circle are bare, which is to teach us to never lose sight of the Masonic application of this useful and valuable instrument, which teaches friendship, morality, and brotherly love.

Marble Monument

13. This is a marble monument dedicated to the memory of our slain Grand Master Hiram Abiff, consisting of a beautiful virgin weeping over a broken column, before her a book open, in her right hand a sprig of acacia, in her left an urn, behind her stands Time, unfolding and counting the ringlets of her hair. The beautiful virgin weeping over a broken column denotes the unfinished state of the Temple, likewise the untimely death of our Grand Master Hiram Abiff; the book open before her, that his virtues there lie on perpetual record; the sprig of acacia in her right hand, the timely discovery of his grave; the urn in her left, that his ashes were therein safely deposited to perpetuate the remembrance of that amiable, devoted and exemplary craftsman. Time, unfolding and counting the ringlets of her hair, denotes that time; patience and perseverance will accomplish all things.

(E) Sublime Degrees**I. Teachings of the 31 Masters**

1. Face your fears, or they will climb over your back.
2. To know a thing well, know its limits, only when pushed beyond its tolerance is its true nature seen, do not depend only on theory if your life is at stake.
3. Logic moves blindly.
4. The slave makes an awful master.
5. Never choose a course just because it offers the opportunity for a dramatic gesture, awakening of your true self, this is one hundred and twenty times three.
6. Time does not count itself, you have only to look at a circle and this is apparent.
7. What does a mirror look at in a mirror, you will know; you will be looking at yourself, as you look at yourself.
8. The greatest relevancy can become irrelevant in the space of a heart-beat; Asiatics should look upon such moments with joy.
9. The best music imitates life in a compelling way, if it imitates a dream, it must be a dream of life, otherwise, there is no place, where we can connect, and our plugs do not fit.
10. The past must be re-interpreted by the present.
11. Never, follow a leader without asking your own questions.
12. Memory never recaptures reality, memory reconstructs, and all reconstructions change the original, becoming external frames of reference that inevitably fall short.
13. Complexity hides within complexity; those who cannot remember the past are condemned to repeat it. The unclouded eye is better, no matter what it sees.
14. The writing of history is largely a process of diversion; most historical accounts distract attention from the secret influences behind great events.

15. You are open to whatever the universe may do, your brain is a response tool, keyed to whatever your senses display.

16. Corruption wears infinite disguises. Have they not practiced deception? Vulnerabilities can be created; subtleties are another kind of weapon, a feigned weakness to deflect your enemies and lead them into traps.

17. Your patterns should not follow an acceptable path! Let them think they understand your power and then shoot off in a new direction.

18. Bureaucracies always become voracious aristocracies after they attain commanding power, you see the major flaws in government arise from a fear of making radical internal changes even though a need is clearly seen. Education is no substitute for intelligence, that elusive quality is defined only in part by puzzle solving abilities. It is in the creation of new puzzles that reflects what your senses report that you round out the definition.

19. A stone is heavy, and the sand is weighty; but a fool's wrath is heavier than they both are. One does not risk everything to settle a score prematurely; speed is a device of Shaitan, even addicts dream of freedom.

20. Man is the embodiment of universal entropy. Look for the one answer to all things, because you cannot minister to infinity!

21. It is our pattern not to offer violence for violence, violence builds more violence and the pendulum swings until the violent ones are shattered.

22. Man remains a rebel; he follows his own desires the way he does with his forbidden lovers. Good! The Asiatic man needs such rebellions, the way of the Emperor without Clothes; the rebel is the child that the nakedness was only apparent too.

23. Politics is the art of appearing candid and completely open while concealing as much as possible. Democracy is susceptible to being led astray by having scapegoats paraded in front of the electorate. That is why people do not vote, instinct will tell them it is useless, governments that perpetuate themselves long enough under that belief always become packed with corruption.

24. The Universe is under God. It is one thing, a wholeness against which all separations may be identified.

25. The Asiatic Mother must combine the seductive wiles of a courtesan with untouchable majesty of a virgin goddess, holding these attributes in tension so long as the powers of her youth endure. For when youth and beauty have gone, she will find that the place between once occupied by tension, has become a wellspring of cunning and resourcefulness.

26. Asiatics must never submit to animals.

27. A world is supported by four things, the learning of the wise, the justice of the great, the prayers of the righteous and the valor of the brave, but all of these are as nothing, without a ruler who knows the art of ruling. You, Asiatic Man, descendant of kings and queens, sons and daughters of a God, you must learn to rule. It's something your ancestors knew. A process cannot be understood by stopping it, understanding must move with the flow of it, the process must join it, and flow with it.

28. Any road followed precisely to its end leads precisely nowhere.

29. Climb the mountain just a little bit to test that it's a mountain, from the top of the mountain; you can see the entire mountain.

30. The proximity of a desirable thing tempts one to overindulgence, on that path lays danger.

31. $\Phi = 1.618$ in the study between male and female honey-bees as in a community of bees, the female bees always outnumber the male bees. If you divide the number of female bees by the number of male bees in any bee hive in the world, you will always get the same number (1.618)

Sunflower seeds grow in opposing spirals and the ratio of each rotation's diameter to the next is 1.618. This is true in spiral pinecone petals, leaf arrangements on plant stalks, insect segmentation and all this display has the astonishing obedience to the divine proportion. The body always equals Phi, measure the distance from the tip of your head to the floor, then divide that by the distance from your belly button to the floor and you

get phi. Measure the distance from your shoulder to your fingertip, and then divide it by the distance from your elbow to your fingertips Phi again, hip to floor divided by knee to floor Phi again. Finger joints toes spinal divisions all are Phi, your body is a tribute to the Divine proportion, the chaos of the universe has an underlying order, and Phi is the building block of the universe.

II. Path of the Adept

This path is not for everyone. It is for those who have come to realize that an inner world exists. This world is as real as the world we see, hear, feel, and touch. This inner world far surpasses in importance the external world of manifestation.

The ability to recognize the difference between these two worlds is the first clue for recognizing one who is on the path of Adept ship. The Adept understands that the outer world is unreal, an illusion. Only the inner world is real and true.

Adepts may be found playing many roles in the outer world. They are very much like actors. Adepts act out these many roles only because of another life they live on an inner plane which is both concurrent and coherent with the outer plane. The adept may be more accurately described as artist rather than actor. The adept knows that the outer life is unreal, merely an illusion. Nevertheless, the Adept plays it well and conscientiously.

Each experience in the outer world has an inner lesson to advance the disciple. These experiences are opportunities to develop courage, endurance, wisdom, and other similarly desirable characteristics.

The greatest obstacle the Adept has to overcome is the immense and incessant pressure of public opinion, especially the opinions of the spiritually ignorant and the unenlightened.

How exactly does the Adept differ from the ordinary person? Fundamentally, it is a difference in attitude. The Adept lives to gain neither position nor honors. Rather, the Adept lives in accord with the principles of an inner world, principles unknown to the uninitiated. The disciple is always trying to develop some virtue such as love, for example, or patience, or tolerance.

How exactly does the Adept differ from the ordinary person? Fundamentally, it is a difference in attitude. The Adept lives to gain neither position nor honors. Rather, the Adept lives in accord with the principles of an inner world, principles unknown to the uninitiated. The disciple is always trying to develop some virtue such as love, for example, or patience, or tolerance.

Not all Adepts retire from the world, though some may. More likely, an Adept may be found mingling in the outer world and its various activities. The invitation to become an Adept is only to those who desire to receive it. These are seekers of truth. They shall find the secrets of the Masters.

On the physical plane we consider the age of the body. On the spiritual plane we consider the age of the Soul. The Soul on the path begins to show signs of advancement in intelligence, emotional maturity, and spiritual power. This advancement has little or nothing to do with the worldly age of the personality.

What constitutes initiation as an Adept? Understand that it is an "inner" initiation. It's the opening of a door to the inner world, symbolically to

represent "the opening of the doors of the mind". What constitutes this opening? Simply, it is the realization that there is another life to live other than this ordinary worldly life. This worldly life seems to pale next to the inner life to which we are suddenly attracted.

This realization may be called by different names. The Hindus refer to it as viveka (discrimination). Christians refer to as conversion. This latter is an apt word for the experience. It is a turning around of one's life, a change in direction. In the words of one of the Christian apostles: Set your affections on things above, and not on things of the earth.

Initiates begin by learning not to be swayed unduly by their emotions. They keep their expression governed by their mind, not by their feelings.

Next, they begin to bring the physical, astral and mental bodies in line. The astral is dominated by the emotions. The mental is the causal element of our being.

The initiate's consciousness becomes open to continual expansion. Yet, regardless how inclusive the consciousness becomes, the initiate never loses his or her individuality. This is the nature of the spiritual, an expanded consciousness and a well-grounded individuality.

The Adept comes to understand that matter is not evil, but merely an expression of Spirit. Matter may be said to be evil only when it hinders us on our way, when it becomes an obstacle to our enlightenment. Just as a knife may be said to be evil when we cut ourselves with it. Thus, the disciple prays to be delivered from the false, the impermanent, and to be open to the true, the permanent, and the real. Each set of expressions is a set of synonyms for the same thing.

The initiate, accepting the invitation to become an Adept, prays with all his or her heart to be led from darkness to light. He yearns for knowledge of the path and the higher planes of existence to which it leads. Gradually, he realizes that each plane is quite out of all proportion and superior to the one below it.

Finally, the initiate desires to overcome death and to obtain the immortality in which the Adept firmly believes. Death to the Adept is a door into a higher and fuller life. We were not meant to live for all eternity in our present personality, but to evolve into a form grander than we are yet capable of conceiving.

CIVICS

THE SCIENCE OF GOVERNMENT

**HIRAM! RISE FROM YOUR SHALLOW
GRAVE.**

Part 3: The Book of Life

“The possession of Knowledge, unless accompanied by a manifestation and expression in Action, is like the hoarding of precious metals—a vain and foolish thing. Knowledge, like Wealth, is intended for Use. The Law of Use is Universal, and he who violates it suffers by reason of his conflict with natural forces. “– *The Kybalion*.

Intro: Science is defined as a knowledge of facts and laws arranged in an orderly system; the search of truth; skill; technique < Old French science, learned borrowing form Moorish Latin scientia, knowledge < sciens, entis, present participle of scire, to know- Synonymous with proficiency. Nature is a mirror in that it reflects the creatures of it. This is the basis of the ancient axiom of “man know thyself” for we are the direct descendants and microcosms of the Most High which means that the mastery of self equates to the mastery of the cosmos and its forces for we are one. If one wants to measure the ceiling but has no ladder then measure the floor for “as above so below”; and in the process, you will find the correct math because the abstract is the physical just to a higher degree and the physical is abstract as well albeit in a lower and more gross level of existence There is nothing that cannot be explained by science for in its truest nature and application it is empirical and everything is based on cause and effect. There is nothing created that cannot be explained, however, it takes a divine mind to first decipher, decode and then simplify which is the true mark of a genius mind; being able to make that which is complex simple, to bring down that which is abstract into the realm of physicality, making something perceived as incomprehensible able to be innerstood and absorbed. Science is divine and the divine is science, you cannot have one without the other but they can also to a degree be independent but too much separation leads to disharmony and disharmony leads to delirium which ultimately leads to folly and

destruction. Religion is realignment with nature which is the process of maintaining and expounding on the harmony of life by way of obedience and creativity.

Chapter I: Moorish Science

(A) Geometry

I. How to solve the riddle of the universe

For instance, if you were to paper the ceiling of a room of your house, and wish to know the correct measurement of paper needed, all you have to do is measure the floor on which you stand. So also, if you wish to know the correct measurements of the entire universe, the whole of creation- space and time. All you have to do is measure the Earth on which you live. The number 10 represents the letter X: the letter X represents the Earth's axis to its orbit during its annual revolution of 360 degrees- the "level and the plumb": while the superstitious Moslem generation s were fighting and destroying one another over so-called religious titles of rulership. The ruddy pale skin daughters and sons resorted to science- the positive number 120 (X) and rose to world domination as a result of the Moslem ignorance of their own Scientific Universal Law. The positive 10 or X symbolizes the "Cross"- the Earth's axis to its orbit; all there is; positive; plus.

The Earth's axis to its orbit rotates at the rate of 1 degree every 4 minutes; which equals a geographical span of 60 miles. 60 minutes (or 1 hour) equals 15 degrees, a geographical span of 900 miles. 120 minutes (or 2 hours) equals 30 degrees, a geographical span of 1800 miles. Each sign of the Zodiac from Aries to Pisis constitutes 30o each. The Sun remains in each sin of the Zodiac for 2 hours. 12 hours a day equals 180o and 12 hours of night equals 180o. Thus, a day and a night equal 360o. Time changes

every 15° during the 24 hours of the day and night- $24 \times 15 = 360$. The number 60 is the key to geography, therefore, you are advised to always multiply degrees (or meridians) of geography by the figure 60, for accuracy.

The Earth's axis to its orbit revolves about the Sun at the rate of 1 degree per day, 30° per month, 90° in the course of 3 months, 120° in the course of 4 months, 150° in the course of 5 months, and 180° in the course of 6 months; which governs the Spring and summer seasons on the Tropic of Cancer in the Northern Hemisphere.

The signs: Aries, Taurus, Gemini, Cancer, Leo and Virgo, govern the Northern Hemisphere- the top of the world- called the "Crest of Asia"- 180° on the equator- referred to as oriental (or East) in Islam, The Order of the Asiatic Nation.

The Earth's axis to its orbit in harmony with the Sun crosses the equator in the 7th sign Libra, on the Tropic of Capricorn, in the Southern Hemisphere to complete the cycle of 360°.

The signs: Libra, Scorpio, Sagittarius, Capricorn, Aquarius, and Pisis govern the Southern Hemisphere; called the "Troth of Europa" or occidental (West); the bottom of the world; Knights of Constantine (Christians/Franciscans), the Order of the European Nations,

There are only 2 ends to a pole. Thus, the North Pole is East, which is always up, during the Earth's annual revolution of 360°, and the south Pole is West, always down, during the Earth's annual revolution of 360°. All of which equal a geographical span of 21,600 miles. $360 \times 60 = 21,600$ miles; $180 = 10,800$ miles in the Northern hemisphere, and $180 = 10,800$ miles in the southern hemisphere.

“Geometry has never told a lie.”- C.M. Bey

II. The 4 elements

Fire: Spiritual Science - The spirit is that which motivates man and nature to do all that which they do. The spirit exists and motivates man and nature to action from an incorporeal realm beyond the realm of the so-called physical world of space and time. The spirit is the basis of everything in the physical world. It is the cause of causes. It is the hand that fits perfectly into the glove of nature. Thus, the study of the spirit is the study of the basis of man, God, life and motion. It corresponds to fire because fire can build or destroy life; it is the great catalyst and transformer of creation.

Earth: Natural Sciences - The systematized study of nature and the physical world. This includes; zoology, botany, chemistry, physics, chaos, geology, ecology, etc. Natural science corresponds to the element of earth because this science deals with the physical world, its properties and interrelationships.

Air: Mathematics - The group of sciences, including; Arithmetic, Algebra, Geometry, Calculus, etc., deals with quantities, magnitudes, forms, and their interrelationships, attributes, etc., through the use of Arabic numerals and symbols. The science of mathematics corresponds to the element of air because it deals with the mind, intellect and abstract thought of a highly refined and rarified quality.

Water: Social Sciences - The study of people and how people live together as families, tribes, communities, nations, etc.; essentially the science of man in society. This includes the sciences now known as; sociology, anthropology, psychology, political science, economics, etc. The social

sciences correspond to the element of water. Man, and his interrelationships within society should flow smoothly like water. In the same way water always seeks its own level, and tends to fill every niche, so people seek the social interaction of other people and tend to fill every social-economic niche in society.

Thus, by the study of these four areas of Moorish Science, and the integration of this ongoing study in one's life, one will address the four elemental needs of man symbolized by the four essential elements of earth, air, water and fire.

III. The Circle, Square and Triangle

The first and most simple breakdown of the universe and life (the circle) is into two equal but opposite parts; male and female, positive and negative, yin and yang, etc. The number two (2) is the number of duality and polarity. In religion this was devolved into God and the devil, good and evil portrayed as conflicting instead of complementing one another. In the science of the zodiac these 2 parts of the whole or circle is referred to as positive and negative polarity or masculine and feminine gender.

The next logical step would be to divide the circle into three (3) equal parts. This is the three phases of life and existence; a beginning, a middle, and ending. In religion this is called the triune God or three gods in one. In Hindu, this is god the creator (Brahma), sustainer (Vishnu) and destroyer (Shiva). In Christianity this is called God the father, the son and the Holy Ghost. In the science of the Zodiac these three phases are called; cardinal, fixed and mutable.

The next and last step necessary to fully understand the circle would be to divide the circle into four equal parts. In the science of the zodiac, these four equal parts correspond to the four essential elements that compose the universe; earth, air, water and fire. Thus, by geometrically dividing a circle by 2, then 3, and then by 4, you have the minimum that is necessary to breakdown and inner/overstand every possible angle and measurement of the circle. When you divide by two you get polarity or gender. When you

divide by three, you get the three phases of life. And if you divide a circle by four, you get the four essential elements of life and the universe.

(B) Astrology

I. Astrologic

"The Holy of Holies" is a humble and unpretentious Moorish Heritage and Culture Lesson. It involves varied subjects and issues, relative to the Divine-given Birthrights of Man. A focus of 'The Holy of Holies' is most directed toward issues concerning "Thinking", "Free- Thought", "Mental Liberation" and the natural workings of the "Mind". Thus, in this instance, the phrase, "Self Study" need not be left to vague conjecture in relationship to the average Natural Person.

Cosmology is a primal part of the literary and cultural aspects of Ancient Canaanite / Moabite / Moorish Civilization, and is the true basis upon which Ancient Philosophy, Religion, Metaphysics and Ontology are conjoined. It set the foundation for High Culture on the planet, Earth. Cosmology is the study of the 'Universe' as a whole, and an acute study of the Laws that govern the Universe. In the philosophy that comprises a study of Cosmology, the world is recognized as a totality of all phenomena in space and time.

Do not confuse nor equate Cosmo Gnosis / Knowledge with the commonly mis-held and misdirected biases, exercised by those who have been groomed to promote 'self-righteous' pseudo-religious competitions, and those who play 'blind-faith' games of competing pseudo-religions. It is not of them, nor of such selfish and vile characters. Yet many legitimate religions across the globe have derivative root in Cosmology.

Being 'Universal' in disposition, and 'Humanitarian' in its nature, this valuable bit of information is being shared with the Moorish Nation of

Northwest Amexem / North America, with others, and with humanity, at large.

Holy of Holies - Birthright

A natural truth, in need of exposure to all who are dwelling on the **'Terrestrial Plane'** is that hidden or suppressed cognizance about the Ancient Knowledge (Gnosis), and the related influence and nature of, **'The Human Life Cycle'** and of true 'Culture'. And so, we embark upon an abbreviated, all-embracing, and timeless **Universal Lesson of Human Evolution and Progress**.

Rightful access to the ancient teachings of these Civilization truths can be viewed as analogous to the *'Birthrights'* of every Woman, Man and Child. Cosmic Evolution and Progress applies to the development of the Human Genus and to all else. Birthrights are those 'Rights' which arise at birth, and are divinely and naturally entitled by hereditament to the 'Natural Being'. These Divine Rights are consonant with equity or the 'light' of nature.

Along the paths and travels of life on the physical plane, and at intermittent times in the life of the "Divine Being", manifested in human flesh, one will, and must, be tried, tempered, and tested. The "tempering" of the *Being* (Self) comes by, and is led through and by the experiences, sensations and nuances which are destined to allow one to "see" or to "**in-see**".

In - Seeing or [Insight] relates to that *'internal seeing'* or *'internal sight'* that (in the course of thought or meditation) is the active coalescence of one's mental perceptions. Insight evokes to project and to entify (in the mind) that which is abstract, by way of the *'eyes'* of the mind.

The activation of 'insight' imparts a 'knowing', or a glimpse beneath the surface of things or matters, and moves to form a 'presence-in-mind' of, or into, the greater or truer meanings, causes, natures, motives, and / or purposes of things, occurrences, or experiences, etc. Thus, the Ancient Ones (our Fore-Mothers and Fore-Fathers) established high culture disciplines, wherein, and whereas, one could, or would, apply such disciplines for the purpose and function of *'Self-Study'* and for positive, applied *'Character Building and Development'*, etc. Much of the said *'Self-Study'* philosophies and disciplines are embodied in Astrology / Cosmology, and was generally presented in glyphic forms, signs and symbols. One of the most ancient philosophical and religious phrases, known to civilization is the phrase, "*Man, Know Thyself*". We share with you, some insight into that foundation of Ancient High Culture and Philosophy. And so, we project to you, **I, Self, Law, Am Master**— (I. S.L.A.M.) - the Sacred Science of the Ancient Moabites / Moors.

Cosmo-Science was, and is, used to study and to chart one's course on the plane of things made manifest, and examined to best effect one's purpose, probabilities, possibilities, potentials, characteristics, and purposes. Thus, the projection of the *'In-Sight'* into the knowing of the *'Self'* and to intellectually and spiritually gain an *'In-Sight'* into why one is traversing upon the *'Plane of Earth'* in this Cycle, Space and Time. The greater lessons accessed or learned from the application of High - Culture, Cosmo- Science, is to *'in-view'* what one does, or does not do, (abstractly / spiritually) with aid of the considered knowledge or 'insights' acquired by such 'self-studies'. This is the truth of ancient religious philosophy— being

a study of the Cosmos / Universe, and of its '*Ethereal*' relationships to the '*Self*'.

Apply these knowable truths to the anthropological, social, political, architectural, philosophical, and religious disciplines and symbolisms used by the Ancient Asiatics of the planet. And with this applied knowledge, include a rational reconsideration and review of history and of the extended families of man. Look at society, past and present, with renewed eyes. Then 'In-Sight' back to that state of mind of our ancient fore-Mothers and Fore-Fathers, who have been, or are referred to, or named, Lemurians, Moabites, Muurs, Moors, Kamaatans (Egyptians), Canaanites, Hamites (Khamites), Kushites, Coptic, Chaldeans, and Olmecs, etc. All of these are variable names of the Aborigines of the planet earth, and / or of their descendants; being the same natural people of the extended human family, who came to be by way of expansion and territorial dispersion. Anthropologically, these peoples are loosely referred to as, Asiatics / Africans.

When the mysteries, symbols, and glyphs of ancient cultures are revealed and analyzed, the evolutionary myths, and mis-directives invoked by colonizing Romans can be removed, exposed or deciphered. All of the ancient roots of the world's major religions and sciences can be traced back to, or deduced to, Cosmo-Science or Astrology / Cosmology.

Know the truth about human civilization and culture, and free the '*Self*' from the artificially - created fears, guilt, and superstitions which were purposefully and deviously inflicted upon humanity by the unclean hands of selfish persons. There has been much suffering caused by the foul intent, and exploiting manipulations, initiated by avaricious high priests, vile sorcerers, and corrupted rulers.

II. The Houses

What is the Zodiac? Astrology means astro-logic or logic of the works of nature as shown in the 12 signs of the Zodiac- having to do with solution to the problems and human characteristics.

Geometry is the universal law of perfection- the science of the cultured Moors, which has and always will, be in the hands of the wooly-haired Moors of North America. Thus, the Moorish nation of North America, referred to as negroes cannot be destroyed. The cycle of global war generated by Cathode priesthood dictatorship behind closed doors will redeem the Moorish nation of North America, during the global World War part 3. The sons and daughters of Cain so-called "white" referred to as Masons and Eastern stars, are the ones who have protected the Moorish key of civilization of the North Gate so as to prevent the sons and daughters of Abel, of the negative Cathode or Catholic religious order from ever becoming president or 1st lady of the land, even though the powers of the sons and daughters of Abel have made the North Gate very black owing to organized Priesthood religious dictatorship.

Nevertheless, the 3rd, 32nd, and 33rd degrees sons and daughters of Cain have held their own toward safe guarding the North Gate. As for this act, the sons and daughters of Cain shall rise in unity with the Moorish nation to never fall again. "Tubal Cain"- 180 degrees- I Am, the great I Am- the widows' sons of 9- North America.

The 4 Seasons are also equated to the Stages of Development in Life:

Personal Independence: Spring: Early years of Youth—*Reasoning*,

Personal Subjective: Summer: Planting of Seeds, and Sowing—*Puberty*

Social Dependent: Fall of Life: Reaping and the regeneration of seeds
== *Maturity*

Social Objective: Winter: The Conclusion of Life. —*Wisdom Years*.

A Review of Objectives, which are achieved by overcoming Subjectives and Dependencies, which are determined by Independencies, or lack thereof.

One is able to determine the challenges in these parts (houses) of their life, based on planetary energies in the house, at birth, and during transits of their life.

III. The Angles

The varied combinations of the '*planetary attributes*', and the geometric placements of them, creates various outcomes that are either harmonious or inharmonious to each other.

The Aspects are based on the locations or the transiting of the planets. The geometrics are identified in the symbols as follows:

Squares are created when planets are 90° apart (3 signs apart). Squares are always of the **same quality**, and manifest as (Cardinal, Fixed or Mutable). However, *Squares* may consist of different elements, being of Fire, Earth, Air or Water). **Squares are inharmonious** because

conflicting elements cause discord. Fire and Air are compatible. Earth and Water are compatible. You will note that any sign that is 90° apart are of conflicting elements. Squares bring tensions, and forces you to develop drive and strength of character. They represent areas that require constant effort.

Oppositions are created when planets are 180° apart (6 signs apart). Oppositions always consist of signs with compatible elements (either Fire and Air **or** Earth and Water) and they consist of the same qualities (both will be Cardinal, Fixed or Mutable). The nature of the opposition would be described as a “Reflection”.

Oppositions (Reflections) are considered inharmonious. Or better stated; **opposing.** They bring a reflective challenge to your growth. They are considered your best mate, because this challenge, at best, is of a necessary reflective nature. Remember the defines of your mate are represented in the 7th house, which is 180° from your first house of self, therefore it represents all that is opposing your self or anything other than yourself.

Trines are created when planets are 120° apart (4 signs apart). Trines always consist of the **same element** (Fire, Water, Earth, or Air), and they consist of one of each quality; one is Cardinal, one is Fixed, and one is Mutable.

Trines are harmonious because they are of the same element and the qualities, although different, in and of themselves, do not cause discord. In fact, take note that each season consist of a one of each quality repetitiously. If you have lots of trines in your chart, it indicates that things come to you easily with hardly any effort. This could cause laziness. But that is the way it is meant to be for you in this lifetime.

Sextiles are created when planets are 60° apart (2 signs apart). They consist of **different qualities** (Cardinal, Fixed, or Mutable) and **compatible elements**, which would be (Fire and Air, **or** Earth and Water).

Sextiles are **harmonious**. Opportunity exists with some work to receive the benefits.

Conjunctions occur when two planets are in the same *Sign* or *House*. It is not uncommon for *Mercury*, *Venus* and *Mars* to be in the same *Sign* or the same *House*. Sometimes they may be in the same *House* as your *Sun Sign*, because *Mercury* follows closely to the *Sun*, and is never more than (28°) away from the *Sun*. *Venus* and *Mars* trails closely behind. All of these planets move pretty quickly. If they are not in the same *House* or *Sign*, they are *usually* only a few *Signs* away. The *Signs* always stay to course of consecutive movements through the *Houses*. Therefore, it is not uncommon to have portions of 2 consecutive *Signs* in the same *House*. The *Moon* travels on a much faster course, which is every 2½ days. Therefore, the *Moon* can end up anywhere and does not follow this rule, but it does move from one *Sign* to the next *Sign*, consecutively.

Conjunctions are very **powerful**, and can go either way in terms of harmony or discord; this depends on the interactions of the energies of the occupying planets.

IV. Sun, Moon and Rising

Your Sun sign describes the center of your personality, what motivates you and who you are learning to become. They will reveal much regarding our inner self; the basic self, who or what we are when we are not surrounded by people; our broadest traits.

Your Moon sign describes your instinctive and emotional nature. It defines our emotional maturity or the unconscious side of our personality. It explains why we do what we do. This is where we retreat for comfort, childhood memories and peace. This can also be the place where anger, hate, jealousy, and fear may be found; influences our senses.

Your rising/ascendant shows the way you project yourself, how others see you, and the kind of experiences needed to make your life more meaningful.

(1) Aries: 30o: March 21- April 19: Ruler= Mars: Head

Sun: gives strength, good health, will power, and independent thought; endowed with leadership. They are musically inclined and intellectual. The Sun is exalted in Aries.

Moon: (intellectual Zodiac) at the time of birth, influences a person to be impulsive and extremely enthusiastic. They detest submitting to a superior. They are susceptible to fever or head complaints and also trouble which may come via secret affairs. (The moon passes through 12 signs in the course of 30 days, remaining in 1 sign from 2-3 days. It requires $71\frac{1}{4}$ days for the moon to evolve 90o- 3 signs of the Zodiac). Aries is the region of steel industry and force of arms.

Ascendant: with Aries rising, there is a strong need to approach life in a straight forward manner. In this sense, qualities of courage, strength and self assertion need to be developed in order to meet the challenges that life will present.

The task for Aries rising is to find the creative potency within, so that the self as an initiator can be developed and explored. In this sense, the Aries rising being needs to experience themselves as a potent catalytic force in

whatever environment they are found. Accordingly, you may continually experience the need to rise up and confront challenges, to act as an initiator, or catalyst, in order to get things started or keep things moving. There are strong tendencies to be on one's own, and to become very self-sufficient. According to Howard Sasportas, "Life is best viewed as an adventure, quest and challenge" when this sign is rising.

(2) Taurus: 60o: April 20- May 20: Ruler= Venus: Neck

Sun: Gives kindheartedness, firmness, determination and ambition to rise above common levels. Persons born under this sign are very talented and therefore will follow more than one occupation. They usually gain in money or property through relatives.

Moon: (intellectual Zodiac) At the time of birth gives a person a quiet disposition, determination and ambition to excel in all undertakings. They are usually interested in music, painting and affection. The moon is exalted in Taurus. Is the region of agriculture, also the monetary or banking system, arts and sciences.

Ascendant: With Taurus rising, you are likely to take a slow and steady approach to life. You will most likely prefer to deal with things in a methodical, careful and systematic way. Your approach could be considered both pragmatic and realistic. This sign is not known for its love of change, and with Taurus rising you may tend to avoid trying the new and untested until you absolutely have to. Taurus ascendant's life is best approached as a series of steps to be taken one by one, with plenty of rests along the way.

You may unknowingly tend to take partners and problems of the world for granted, as you are likely to be primarily concerned with the comfort available to you in your own immediate environment. The irony is that

Taurus rising people often tend to draw to themselves persons who are potentially catalytic, and bring many disruptions into their lives. This serves the purpose of forcing emotional upheavals, in order to stimulate the need for change and growth. But on the whole, you are likely to take a warm and generous approach to life, with life treating you to the same. There also may be tendencies toward jealousy and possessiveness that need to be curbed. An innerstanding of the destructive side of the emotional nature is needed. Problems in relationships are often signs that life has become too rigid, and that it is time to free oneself from a rut, or change outright habit patterns.

(3) Gemini: 90o: May 21- June 21: Ruler= Mercury: Lungs/arms/hands

Sun: gives a strong flexible and adaptive nature and talents in many areas. They are also fond of travel and dealing with the public.

Moon: (intellectual Zodiac) At the time of birth gives a person an inclination for all intellectual things. They are very active and mentally skilled with their hands and are lovers of writing, designing, journalism, sculpting, engraving, salesmanship and travel. Is the region of social evolution.

Ascendant: Approaches life with a genuine sense of inquisitiveness: for there is often a strong curiosity, and desire to innerstand hoe things work as well as people. Primarily concerned with connection with the social mores, means and modes of communication that make society connect. Thus, you are likely to be versatile and adaptive, with many interests and well able to fit into most life circumstances.

Need varied experiences and interests to feel vital and alive. Yet this can become a liability. You may be come too divergent in your interests and pursuits, leading in the end to becoming a Jack/Jill of all trades, but a

master of none. Finding depth and meaning in your many experiences is the keystone to finding satisfaction and a steady life path which ultimately comes down to acknowledging, accepting and adhering to the necessity of commitment and containment, which leads to greater depths of innerstanding gained through integrated knowledge. You are likely to be generous and broadminded, seeking to inspire those in your ciphers to be the best they can be. Beware though of exaggeration due to the need of both self stimulation as well as the stimulation of others. All in all, you are usually very capable and can achieve many things through your gifts of personal grace and charm.

(4) Cancer: 120o: June 22- July 22: Ruler= Moon: Stomach/breast

Sun: gives love for home and relatives, old age security and desire for music and pleasure. Persons born under this sign make qualified lawyers, nurses and political leaders. They usually create their own difficulties and disappointments unless impatience and restlessness are overcome.

Moon: (intellectual Zodiac) Region of economic security. At the time of birth gives a person love for home, and a powerful imagination, emotional, changeable, sympathetic and proud determination. Usually they are interested in drama and intellectual studies.

Ascendant: With Cancer rising, self-realization comes through a refined attunement to the feeling nature. You need to make sense of life through your senses and emotions; gifted with strong intuitions and psychic sensibility. You are likely to be extremely sensitive to the world around you and may need to recognize, and own, emotional realities. This means acknowledging your sensitivity, accepting your strong desire to nurture and support others, and recognize how this sensitivity may mean that you tend to take on too much from the environment in which you find yourself, or become responsible for what others are feeling.

For the greatest success and effectiveness, you need to inner/overstand how the ebb and flow of your own inner cycles, using your own sense of rhythm and timing will lead you to where you want to go. The accuracy of your usually and precise instincts is a great asset, and your intuitive hunches will almost always be spot on. Trust your feelings and in time they will become your sharpest tool.

(5) Leo: 150o: July 23- August 23: Ruler= Sun: Heart/spine

Sun: Gives fondness for authority, generous, sympathetic and ambitious.

Persons born under this sign are endowed with many capabilities. They make fine actors, teachers or instructors.

Moon: (intellectual Zodiac) Second fixed angle- mid summer. At the time of birth gives a high mind, good managerial abilities and great honesty in all business transactions. They are sincere lovers, favored with the opposite sex and lovers of luxury such as perfumes and fine clothing. They are also capable of assuming authority and responsibility. Is the region of atomic power, gold and oil, iron, granite and copper.

Ascendant: The need to develop power, authority and creative self-expression are necessary in order to gain a sense of individual selfhood.

With Leo rising your task in life is to shine! The unique and special ways that you seek to do this need to be developed and allowed to grow.

A positive statement for Leo rising is to affirm that “I have the right to express my unique individual creativity and spirit, and can do that without denying others the right to express theirs”. It is important that you feel comfortable enough to show other who you truly are, without demanding or needing their attention or approval to validate who you are.

Then you can shine with uniqueness of your own creative spirit, bringing joy, light, and laughter into the lives of other.

(6) Virgo: 180o: August 24- September 22: Ruler= Mercury: Intestines

Sun: Gives many talents and love of detail. Persons born under this sign are musically and artistically inclined and are also fond of money and material gain. Unless careful they are usually unfortunate in love and marriage owing to their critical tendencies. They must have someone to encourage them constantly.

Moon: Region of organized labor. At time of birth gives powerful memory, aidful friends and many journeys. They are witty, persevering and are inclined towards the science of medicine, such as herbs.

Ascendant: You are likely to approach the world via mental analysis, and the need for organization. You are likely to have experiences which tend toward critical discernment, self-criticism, and the need to find practical outlets for your skills, talents and abilities. Typically, humble and at times self-effacing, you can be more concerned with being useful than being recognized. There is a need to be productive- to be of service somehow- and your chosen career field will often be the arena in which you come to experience and learn these lessons.

There may be a tendency toward rigidity, and a need to control outcomes, based on an innate fear of chaos or lack of order. You can learn to relax this side of your personality through the input of other people, who teach the lessons of flow, and trusting in the process of life itself.

(7) Libra: 210o: September 23- October 23: Ruler= Venus: kidneys

Sun: Sociable, affectionate, nature and a great lover of beauty, art, and music. Persons born under this sign are subject to trouble in courtship and

disappointment. They have a powerful imagination and a strong attachment for parents and relatives. They are also fond of many short journeys. Saturn is exalted in Libra.

Moon: (intellectual Zodiac) At the time of birth gives a person a talent for music and art. They are very popular, affectionate, and undergo strong friendship. Is the region of the jury and judges of nations.

Ascendant: For those born with Libra rising, life is experienced as a constant series of choices. Thus, deliberation and carefully chosen action become your hallmarks, as you consider everything from various points of view involved. Concerned with fairness, equality and right human relationships. Thus, you are likely to feel the need to be objective and fair in all your dealing which may be somewhat crippling if a decision or resolution cannot be reached. Reflective judgement is the keynote here, for your quest is to find the right principle in a given situation, and then commit to it; maintaining your position, as one who upholds the law, without changing your mind.

You are also probably known for your listening and negotiation skills, and may be known to give very good advice. This is the sign of wise counsel, and your ability to make a detached assessment is likely to be valued by others. You may be somewhat lazy, or inclined to take the easy path in life until you know what you want. Then you will focus yourself, often when you have a partner in mind. You may also be very domesticated, with a highly refined sense of quality in the domestic environment.

(8) Scorpio: 270o: October 24- November 23: Ruler= Pluto/Mars: sexual organs

Sun: Gives pride, firm mind and strong character. Persons born under this sign will assume many obligations and usually gain money or property

through marriage late in life. They are slightly jealous and also are sarcastic at times. They are fond of mysteries investigation.

Moon: 3rd fixed angle- mid fall. At time of birth gives a person great courage and fondness for material things of life. They are hard to influence against their own will. They are very outspoken and at times very extravagant which causes difficulty in courtship or marriage. They are subject to troubles over legacies. Is the region of surgery, biology, botany, chemistry, military and embalming, also navigation and crime- the fall of nations. The “swastika”.

Ascendant: There is much to experience of those born with Scorpio rising that involves learning to transform the self and others through the experiences of conflict, challenge and letting go. The themes often present with this sign on the rising can be described by the mythic story of Hercules as he battled the much-feared hydra. The 8th labor of Hercules involved the destruction of this beast, a creature of the depths that had 10 heads, and a deadly bite. Every time Hercules cut off one of the heads, another would appear. The lesson Hercules had to learn was contained within the advice given to him by his teacher, “we rise by kneeling, we conquer by surrendering, and we gain by giving up.” This experience could be described as the quintessential lesson of Scorpio rising.

Yours is an intense rising sign, with the potential to experience great rewards. You have come to learn the secrets of resurrection and rebirth through experiencing transformation in your own emotional life. Then you have the power to become an incredible agent for change in the lives of other people.

(9) Sagittarius: 270o: November 23- December 22: Ruler= Yupiter:
Hips/thighs

Sun: Gives a generous, alert mind and merry disposition. Persons born under this sign have many problems to solve; rather impatient at times. They are fond of travel over land and sea.

Moon: At the time of birth gives a being a tendency for quick action or decision, restlessness. They are unsettled though kind-hearted. They are faithful workers. They are also fond of sport, travel and have an inclination toward mysticism. Is the region of physical manifestation upon the plane of life- 9.

Ascendant: They often experience life as a challenge, a quest or a search for adventure where the prize is the discovery of meaning. When Sagittarius is rising, the need to develop self-awareness comes about through expanding one's horizons- at physical, mental or spiritual levels. Life is often approached with a sense of optimism and expansion, with an expectation of success. The search for meaning, for truth, for a proven belief system based upon experience is the deeper implication with a Sagittarian ascendant.

Life is best viewed as a quest and an adventure. With faith and a positive attitude your greatest allies, you tend to approach life in a grand way, excited by the possibilities and certain of your right to experience them. Using your innate gifts of analysis gives you the ability to inspire others, helping them to become the best they can be by lighting the quest for meaning and sense of purpose in their lives.

(10) Capricorn: 300o: December 23- January 19: Ruler= Saturn:
knees/calves

Sun: Gives a serious and determined nature; Practical and qualified to direct others. They are fond of the practical side of life, which makes them very prominent. They are also fond of music, dancing and entertaining.

Moon: Region of the birth of the Union of Rome. At the time of birth gives one administrative ability, good reasoning power and they are idealist. They usually undergo some difficulty in connection with associates or marriage.

Ascendant: There is often a dual combination of a person who is, on the one hand serious, organized and capable, and on the other hand, somewhat uncertain about their ability to achieve all the things they want to do. The character of Saturn, the power of Capricorn, are pronounced here, lending executive ability, patience and the ability to master difficult tasks, whilst at the same time, generating fear, awkwardness and uncertainty about exactly what it is one wants to experience, and wants to express about oneself. Ambition is often strong as is a crippling doubt about your ability to achieve what you set out to do.

Sometimes the innate expectation that life must be hard makes things far more difficult than need be. We meet what we expect in the world, and Capricorn rising folks often expect hardship and limitation to greet them at every turn. These beliefs can lead to difficulty in relating to one's goals, for the belief that life must be hard for you often sets things up so that they are learning to recognize the need for hard work and discipline, without seeing one's self as somehow under the thumb of cruel fate, helps. Also putting your ambitions into perspective is a good managerial move. You are a work in progress and are highly likely to succeed. Affirming that you are able to create what you need easily in your life and taking time to enjoy its ample pleasures will help to overcome these self-imposed limitations.

(11) Aquarius: 330o: January 20- February 19: Ruler= Uranus/Saturn: ankles

Sun: Gives broadmindedness, deep sympathies, cautious and wisdom in practical affairs in life. They are liberal and generous. They are always helping relatives or associates. They are fond of universal science such as astrology and like extensive travel.

Moon: 4th fixed angle- mid winter. At the time of birth gives a being good imagination and institution and broad thinking. They are fond of luxury and travel and are also interested in national affairs, good company, and have an inclination toward high science. At times they usually undergo slight nervous derangements. Is the region of electronics and uranium; often referred to as the “4th dimension”- the rise of civilization.

Ascendant: A clearer sense of individuality is gained by stepping back and learning to look at life from an objective position. Such a detached perspective allows for a clear inner/overstanding of the situations around you at times, lighting a fast resolution of issues. Your awareness of group and social dynamics becomes paramount for your overall expression and this may override purely personal concerns.

You will find your greatest happiness comes about when you find the joy and love that is lying beneath most outbursts of emotion and intensity, learning to redirect this emotion toward the benefit of all. You may denigrate and look down upon others when they seek to be recognized and seen as important for you have an innate dislike for self-centered behaviors, and a tendency to view emotional neediness as a curious weakness found in lesser beings. Opening up to the emotional and passionate dimensions of your self helps you to avoid too much aloofness, or cool objectivity and lets you realize that in order to be truly human; you need to respond with both reason and emotion to life’s experiences. In this way you gain a clear overstanding and not just an abstract idea of what a man is and should be.

(12) Pisis: 360o: February 20- March 20: Ruler= Neptune: feet

Sun: Gives a changeable and restless disposition and a tendency to go to extremes in feelings or actions. Persons born under this sign are very psychic to hidden conditions. They are also fond of success and have many responsibilities, but they also have much hostility through their life. This concludes the 12 gates of life.

Moon: At the time of birth gives a being a retiring and pleasant disposition. At times they are early discouraged, restless, and impatient; they are fond of scientific study and affection. They are also endowed with the power to offset the aim of secret enemies. Is the region which completes the circle of creation, and shows how the law of unity works universally.

Ascendant: When Pisis is rising there is an inherent challenge around knowing how to project the self outward. The need to present a solid sense of individuality is at odds with the fluid and elusive qualities of this sign. In Pisis, the urge is to encourage dissolution of separateness, and the transcendence of ego boundaries. In essence, how can I project any form when the form I am is so open to change? For this reason, many people with Pisis rising find it hard to define a path in life or to know what it is they want to do. Often, they will fall in with whatever the most dominant influence suggests, even if it does not really make them happy. Learning to listen to the voice of inspiration in the form of intuition is likely to be your best guide.

V. Supreme Mathematics

- 1) 0: symbol of the earth “out of darkness comes light”. Alpha and omega; gateway to infinity.
- 2) 1: one into 360 degrees = 360. This division makes the penny the maser of the dollar system, universally.

- 3) 2: two into 360 degrees = 180. This division represents the scales of weight in category of commerce and distribution.
- 4) 3: three into 360= 120. This division represents the great triangle- the right triangle- the height of economic and social progress.
- 5) 4: four into 360= 90. This division represents the square of an angle of 90 degrees or the fourth part of the earth, and the dollar- the wheel of progress.
- 6) Six into 360= 60. This division represents the 60 minutes of the hour, also organized labor.
- 7) Seven into 360= 51 and 3 over. This division represents the brain trust of organized labor- the nation, “woman”.
- 8) Eight into 360= 45. This division represents the 8 hours per day involving labor unions, also the angle of events involving economics and military procedure- the sons of war, death and destruction i.e. Christianity.
- 9) Nine into 360= 40. This division represents the manifestation of the higher mind on the physical and mental plane of being- the highest law of Islam. Which simply means “I Am” the universal moral law, namely: you and me- the sons of the Asiatic woman, the great God of the human family, who declared some 1,367 years, go: “Inni Anallahu La Illaha Illa Ana”- “truly I am God-Allah besides me there is no other”. The Asiatic woman is definitely not a secret nor a mystery. She is reality- the living God of humanity.
- 10) (Cosmic yardstick) ten into 360= 36. This division represents the 36 inches of the yard of the measurement of material and geographical space. Three times 12 equals 36 which reduce to the number nine as: 3 and 6 equals 9. The number ten represents the manifestation of the negative and the positive forces of nature.
- 11) Twelve into 360= 30. This division represents the 12 divisions of the year, referred to as months. Twelve completes the circle of creation on this planet, namely: Earth, and shows how the Law of

Agreement or unity works universally. The number 12 reduces to 3 as: $1 \text{ and } 2 = 3$. Three into $9 = 3$, and 3 into $12 = 4$. Thus, three represents the 3 months of each season. Four represents the 4 seasons of the year- Spring, Summer, Fall and Winter- all there is. Having observed the diagram of the Earth's axis to its orbit, reflecting 12 different Crescent or Moon shape light and darkness during its annual revolution of 360°. You should yourself be awoken to this fact: you yourself are the so-called great secret, and "password" and mystery. The daughters and sons of the "lily white" nations of the Roman Order, has been obligated to die before they awaken the Asiatics of the U.S.A., to the scientific rudiments of the foregone Islamic Law.

Principles of Islam:

1: represents the brown (melanated) man or the descendant of the Moabite nation, i.e. the Moorish Nation. It also expresses the absolute and infinite possibilities, and is that from which all proceeds, which contains all, and to which all finally returns. It signifies that everything came from all (Buddha, God, Allah, Yehovah, etc.), and that all earthlings are descendants from one race, the Moabite race. Out of the corruption of the Moabite Nation came the Moors, Moors being derived from the word Moabite; therefore, all men are Moors whether conscious or unconscious. 1 represents the universal principle, the creative intelligence. That force which is the motive power of the universe in man becomes intellect and will. In science it is the law of compensation of energy. In the macrocosm it indicates unlimited potentiality; in man it indicates relative potentiality.

2: expresses polarity. It suggests night and day, inhalation and exhalation, heat and cold. The most evident of all things is duality, even though being dual, esoteric and exoteric, the real and the appearance. 2 represent the

universal law of sex; attraction and repulsion, love and hate; centrifugal force and centripetal force. It represents the Crescent and the Star. In science it is the law that every action is accompanied by an equal and opposite reaction. In the macrocosm it is the positive and the negative; and in man it represents reason and intuition and by his differentiation into the polar opposites, man and woman. It is the 6-pointed star.

4: expresses the result of action, the fruit of 2 interchanging forces. It thus represents the practical, the concrete, that which has form and substance; hence is typical of the universal truth of reality. In the macrocosm it is the result of action; and in man it is the offspring of experience. It is concrete and of substance, so it is the foundation. 13 is a sacred number; it signifies a strong base. Thus, it is square; $1+3=4$.

7: is composed of 3 and 4, expressing action and realization. Thus, it is the number of completion of form. Things on the physical plane which have a perfection of form are constituted of 3 active elements and 4 passive formative elements. Man has within self all the elements of the earth. There must be active and passive elements within man in order for him to function on the physical plane. 7 signifies that man is composed of the 4 essences made into one being and controlled by will and guided by intelligence. It also indicates the 7 principles of nature.

9: is the sacred number. It is the highest digit and has many universal properties. It may be multiplied by any number and the digits will repeatedly give 9 as the sum. All numbers above 9, in their last analysis consist of a root number to which multiples of 9 have been added. The root is always the sum of the digits. As composed of 5 & 4 (life and foundation) it signifies man realizing that all earth can teach. As consisting of 3 & 6 (intellect and creation) it indicates temptation overcome by action. As composed of 2 & 7 (duality and law) it indicates that intuition and reason

added to a perfectly united body, soul and spirit with mind. As composed of 1 & 8 (man and matter) it indicates that inertia has been overcome by intellect and direction of will. In the macrocosm it signifies by being 3x 3 (master), actions on all 3 planes, (physical, mental and spiritual) and in man this becomes the number of wisdom.

10: expresses the same as 1, except that it symbolizes a complete cycle has been finished. It therefore shows that one round of experience has been completed and that another cycle of experience is being commenced. 9 shows that all possibilities of one plane have been experienced and 10 indicates the transition to a new plane where other possibilities await. When one reaches 360o of 9 then the next plane awaits; 360o on the physical places you one degree on the mental. Ten is composed of two 5s (life), denoting male and female together, or humanity at large.

VI. Zudiakus

The Moabite nation named woman Zudiakus, from which derived the name zodiac, zoology, and biology; the success of evolution upon the physical, mental and spiritual plane of life. The Moabite nation had no mystic god doctrine contrary to Zudiakus, the divine law of evolution. After Zudiakus (the Asiatic Moabite Moorish woman) had taught her offspring the secret of Zudiakus (the laws of creation and manifestation), it resulted in the loss of their powers of creation and control of the world by universal mind in the year 46,000 A.M. (ancient Moabite), the era of Atlantis and Mu, of Yucatan in the Caribbean Sea.

The age of man-gods, since the fall of the Moabite Nation in 49,000 A.M, is only 2000 years old. Now evolution of man-gods since the fall of Zudiakus began with the last high Priest astrologer, metaphysician of the Moabite Nation by the name Muur-Lu-Akin-El who named the creator of

the universe El and then gave Yaquub the name Isra-El and the God Eluhim, translated as: Elah-El. Ellah, translated as Yehuvah and Jehovah and to Adonai, Krishna Dei and to Ellah, Allah. Thus, manmade gods have undergone 7 stages of evolution since the fall of the Moabite Nation in 49,000 A.M.

The history of the 12 signs of the Zodiac reveals that humanity on a global scale has been totally cut off from truth for 400 years, especially Moors of Northwest Amexem/America/Afrika. Thus, the history of the 12 signs of the Zodiac has revealed the great chain of human progress during the past 51,840 years; from the Moabites to the Moors, and from the Moors to the Franciscans or the French Anglo-Saxons.

Where dark skinned wooly haired, thick lipped Moabite or Moorish woman comes from, no one knows. There is not an animal in the world that has thick lips, wooly hair and dark skin like her. All that which can be proved is that she is the mother of male and female- the human race, who reproduce their kind. She, the Asiatic Woman, is referred to as widow. DO not get the wrong misconception; as stated earlier all females are equally mothers and sisters, and all male sons come into being by way of Th woman. Therefore, all sons are brothers and a son of a widow.

VII. Revelation

The term revelation means to reveal or make known to that which has been suppressed or shielded by selfish people of organized doctorial nature. Well in the Book of Yochanan (John), Revelation, the Zodiac is referred to as the 12 foundations, the 12 gates, the 7 seals, the 4 squares and the measurement of man. The term, Minevah, means the number 9. Thus, the Zodiac of 360o is squatted by number 9. Thus, this revelation means the very end of the doctrine of mystery, mythology, and organized

theological dictatorship, and the rise of humanity with civilization; namely, the science of astrology- the 12 signs of the Zodiac. Here the entire earth will become that great Republic, “Minevah”, the number 9, with freedom, justice, peace and economic and social progress.

Real hell and purgatory:

Ignorance of the scientific truth of the works of nature involving the inner nature, and action and reaction of beings as shown in the 12 signs of the Zodiac, results in a confused state of mind; and mental, economic and social suffering referred to as “hell”.

Real Heaven; Freedom and Peace (Salaam):

Knowledge of the Zodiac gives one a perfect state of mind and reason upon that namely, the forces of nature which dwell within themselves and about them, all of which is referred to as “haven” and happiness, and peace of mind with self.

The Zodiac:

The presiding one looked forth upon the sons of men, who are the sons of God. He saw their light and where they stood upon the way which leads back to the heart of God. The way sweeps in a circle through the 12 great gates, and, cycle after cycle, the gates are opened, and the gates are shut. The sons of God, who are the sons of men, march on.

Dim is the light at first; selfish the trend of human aspiration, and dark the deeds resultant. Slowly men learn and, in learning, pass between the pillars of the gates time and time again. Dull is the [innerstanding] understanding but in the halls of discipline, found in each section of the circle’s cosmic sweep, the truth is slowly grasped; the needed lesson learnt; the nature purified and taught until the cross is seen- that fixed and

waiting cross which crucifies the sons of men, stretched out on the crosses of those who serve and save.

From out the mass of men stood forth in ancient days and caught the great presiding Elder's watching eye, he who eternally presides within the Council Chamber of the Lord. He turned to one who stood, close at his hand, and said: "who is that soul upon the way of life, whose light can now be dimly seen?"

Quickly the answer came: "that is the soul who, on the way of life, experiences and seeks the clear light which shines from the high place."

"Let him proceed upon his way, but watch his steps."

The swiftly passing aeons ran their course. The great wheel turned and, turning brought the seeking soul upon the way. Later, there came a day when the Presiding One, within the Council Chamber of the Lord, again drew to the circle of his radiant seeking soul.

"Whose is this soul upon the way of high endeavor whose radiance dimly shineth forth?" Came the reply: "a soul who seeks the light of [innerstanding] understanding, a struggling soul."

"Tell him from me to return the other way and then to travel round the circle. Then will he find the object of his search. Watch o'er his step and, when he has an [innerstanding] understanding heart, an eager mind and skillful hand, bring him to me."

Again, the centuries passed. The great wheel turned and turning, carried all the sons of men, who are the sons of God upon their way. And as these centuries passed, a group of men emerged who slowly turned the other

way. They found the way. They passed the gates and struggled towards the mountain top, and towards the place of death and sacrifice. The watching teacher saw a man emerge from out this crowd, mount the fixed cross, demanding deeds to do, service to render unto god and man, and willingness to travel the way to God. He stood before the great presiding 1 who works within the Council Chamber of the Lord and heard a word go forth:

“Obey the teacher on the way. Prepare for the last tests. Pass through each gate and in the sphere which they reveal and guard, perform the labor which befits their sphere. Learn thus the lesson and begin with love to serve the men of earth.” Then to the teacher went the final word: “prepare the candidate. Give him his labors to perform and place his name upon the tablets of the living way.” – The 12 Trials of Hercules: Alice Bailey

Chapter 2: The Akashic Records

(A) Pieces of a Puzzle

I. The Human Genome Project: Opening the Book of Life

Rev: 20:12: And I saw the dead, small and great, stand before God; and the books were opened: and another book was opened, which is the book of life: and the dead were judged out of those things which were written in the books, according to their works.

The reason why the science of genetics is so important for us as Moorish scientists is because we realize that the human body or organism is the key to understanding the nature of the universe. **Microcosmic man is a scale model of the Macrocosmic man, or God (as above, so below).** We are exact scale models of the universe (macrocosm) only on a smaller scale (microcosm). And the bio-molecular worlds are scale models of us on an even smaller scale. Thus, the directive **“Man know Thyself”**. This is because by knowing self, you will know the all of creation.

We must always keep in mind that we “New Moors” must use ourselves as the blueprint or model upon which to build our society, economics, government, etc. In the bible it said:

“And God said, let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth. So, God created man in his own image, in the image of God created he him; male and female created he them.” “Bible”, Genesis 1:26-27

This “image and likeness” refers to our micro-cosmic scale model relationship with the Allah, God, The Great Spirit. In order for us Moors

to do our job in raising falling humanity, we must first pull ourselves up by our own boot-straps, and raise ourselves to a higher level of existence. By pulling ourselves up (who are the most “fallen” of humanity) we will have qualified ourselves to perform our job in uplifting the world.

The forms of society and social orders that we formerly lived in accord with, cannot help or save us or the planet in this day and age. The previous social orders were formed and developed under different, times, places and circumstances than those in which we now live. Nature dictates to all that you either adapt (yourself or environment) or die. This is why Noble Drew Ali said that **the “New Moors”** will put the **“Old Moors”** in the back seat, and fulfill his ultimate plan.

The phrase **“human genome”**, means the complete set of human genes found within our 23 chromosomes. The **“Human Genome Project”** is the mapping of this **“human genome”**. The project has completed the mapping of the human genome and has published a first draft in the February 15, 2001 issue of **“Nature”**.

“Imagine that the genome is a book. There are twenty-three chapters called CHROMOSOMES [previously there were 24]. Each chapter contains several thousand stories, called GENES. Each story is made up of paragraphs, called EXONS, which are interrupted by advertisements called INTRONS. Each paragraph is made up of words, called CODONS. Each word is written in letters called BASES. There are one billion words in the book, which makes it longer than 5,000 volumes the size of this one, or as long as 800 Bibles.” “Genome: The Autobiography of a Species in 23 Chapters”, by Matt Ridley, p.6

Thus, each one of the approximately 100 trillion cells in our body has a nucleus, inside of which there are 23 chapters or pairs of **CHROMOSOMES**. We previously had 24 chromosomes but 2 of them fused together forming 1, thus we now have 23. Primates still have 24 pairs. Each of these chromosomes is made up of proteins and nucleic acid forming chains or strands.

Each chromosome chain or strand is made up of subunits called **nucleotides** containing sugar, a phosphate group, and one of the four bases; **A, C, G, T** (adenine, cytosine, guanine and thymine).

Thus this “book of life” is written using a very ingenious alphabet of 4 letters, which in turn form 3 letter words called **CODONS**. These **CODONS** in turn form paragraphs called **EXONS**. These paragraphs or **EXONS** are divided by **INTRONS** or so-called “**junk DNA**”. The **EXONS** or paragraphs form the **GENES** which are like stories within the chapters called **CHROMOSOMES**.

This “book of life” can do things normal books cannot. This book can both read itself (**TRANSLATION**) and photocopy itself (**REPLICATION**). **REPLICATION** (photocopying itself) is possible because the “A” base will only pair up with the “T” base, and the “G” will only pair up with the “C”. So, a single strand of DNA will replicate itself by putting together complimentary strand with the “A” s opposite the “T” s and the “G” s opposite the “C” s, forming the aforementioned double helix (the original strand and it’s opposite, forming a pair). To make a copy of the original strand, the opposite strand merely separates and then puts together its opposite, which will be an exact copy of the original strand. Ingenious!

Sometimes when replicating (photocopying itself), mistakes happen. Sometimes a letter is omitted, the wrong letter is inserted, or a sentence

or paragraph is reversed. This is known as genetic **MUTATION**, which can be good or bad, depending on the context.

The information contained in your genetic code is your **GENOTYPE** (that which is hidden in each cell, and is inherited). The characteristic, such as the color of your hair, eyes, etc., is what is known as your **PHENOTYPE** (that which you express). The process of **TRANSLATION** is the key in translating that which is hidden, **GENOTYPE**, into that which is revealed, **PHENOTYPE**.

The way **TRANSLATION** works is; a copy is made of the text of a gene, just like in **REPLICATION**, but instead of forming it's opposite (A-T, G-C) on a stand of **DNA**, it is formed on **RNA**, which is similar, but slightly different. **RNA** uses the same letters, except that it substitutes **U (uracil)**, in place of **T (thymine)**. This RNA copy is called **MESSENGER RNA**, and is edited by the removal of the **INTRONS** (so-called junk DNA), and the splicing (joining) together of the **EXONS**.

Then microscopic machines called **RIBOSOMES** move along the **MESSENGER RNA**, translating each 3-letter **CODON** into one letter of a **different alphabet** made up of 20 letters (each letter corresponding to a different **amino acid**). These amino acids form a chain that matches the **MESSENGER RNA**'s **CODONS**; Every 3 **CODONS** on the **MESSENGER RNA** corresponding to 1 **AMINO ACID** on the **AMINO ACID** chain. The chain of **AMINO ACIDS** folds itself into a distinctive shape (depending on its sequence of amino acids), becoming what is known as a **PROTEIN**.

“Almost everything in the body, from hair to hormones, is either made of proteins or made by them. Every protein is a translated gene” “Genome: The Autobiography of a Species in 23 Chapters”, by Matt Ridley, p.8

Thus, it can be seen that it is proteins that are the building blocks of the temple (the body), and the genes are the instructions on how the building blocks are to be cut, dressed, lifted and placed in the temple. We are temples, which during the construction of, there was not heard the sound of ax, nor hammer.

“And the house, when it was in building, was built of stone made ready before it was brought thither: so that there was neither hammer nor axe nor any tool of iron heard in the house, while it was in building.” “Bible, 1Kings 6:7

One of the big surprises that have resulted from the **Human Genome Project** has been the fact that it was initially thought that the more complex an organism is, the more genes it would have.

Thus, it was estimated that there were at least 100,000 genes on our 23 chromosomes. It has been found that we only have about 30,000 genes, and this is not much more than certain types of microscopic worms and even insects. This shows that it is not so much the number of genes that determines complexity, but somehow the interaction with the organism and environment that play a role. **As a matter of fact, it is even now being hypothesized that how we think and perceive the world (our PARADIGM) can actually affect and even mutate our genetic code within our lifetime.**

“Researchers working in this new field mainly consider biophoton emission as a “cellular language” or a form of “non-substantial bio-communication between cells and organisms”. Over the last fifteen years, they have conducted enough reproducible experiments to believe that cells use these waves to

direct their own internal reactions as well as to communicate among themselves, and even between organisms. For instance, photon emission provides a communication mechanism that could explain how billions of individual plankton organisms cooperate in swarms, behaving like “super-organisms.” “The Cosmic Serpent: DNA and the Origins of Knowledge”, by Jeremy Narby, p.127-128

“I knew of no neurological mechanism on which to base this working hypothesis, but I did know that DNA was an aperiodic crystal that traps and transports electrons with efficiency and that emit photons (in other words, electromagnetic waves) at ultra-weak levels currently at the limits of measurement – and all this more than any other living matter”. “The Cosmic Serpent: DNA and the Origins of Knowledge”, by Jeremy Narby, p.109-110

“In the early 1980's, thanks to the development of a sophisticated measurement device, a team of scientists demonstrated that the cells of all living beings emit photon [light] at a rate of up to approximately 100 units per second and per square centimeter of surface area. They also showed that DNA was the source of this photon emission.

During my readings, I learned with astonishment that the wavelength at which these DNA emits these photons corresponds to the narrow band of visible light: “Its spectral distribution ranges at least from infrared (at about 900 nanometer) to ultraviolet (up to about 200 nanometers). ...DNA emits photons with such regularity that the researchers compare the phenomenon to an “ultra-weak laser” ...A coherent source of light, like a laser, gives the sensation of bright colors, luminescence, and

an impression of holographic depth.” “The Cosmic Serpent: DNA and the Origins of Knowledge”, by Jeremy Narby, p.125-126

II. Frequency and Vibrations

In a book called “**The Cosmic Serpent: DNA and the Origins of Knowledge**”, by Jeremy Narby, he shows that the DNA in a person, plant or animal, is actually able to communicate with the DNA in another person, plant or animal, through the emission of laser-like light photons.

The above quote is very important in that it has important ramifications, especially when taken into consideration with the following quote.

This must be the reason why we talk about getting certain “vibes” from certain people. It is their DNA communicating with yours!

It is true that all of these elements are part of you and your existence. Animate, living things, including man, have an aura. Fields of radiation, of energy, which extends around the body it can be perceived by other beings and by animals, its forces, are invisible, but they exist.

Man is a generator, he generates energies within himself. Some, such as nerve energy, have common, measurable electrical qualities. Others are of such a high frequency that their physical properties can be determined only by their effects upon persons and things. There may be a sudden emotional attraction toward the other or there may be an equally strange feeling of dislike or discomfort. Auras can and do affect inanimate objects and these, in turn, in a subtle way, affect our own auras to cause within an emotional reaction to them, if the aura is of that kind. Notice the emotional sensations you experience among strangers, in a conveyance, perhaps going to or from work; the same things work with books or magazines that obviously have been handled by many people.

Thoughts can be transferred from one mind to another; this is personal magnetism. Thought is energy; it can be transmitted under certain conditions. An experiment is to begin to concentrate upon someone, without letting the person see that you are looking in their direction, fix the whole of your attention upon them. Dismiss all other thoughts from your mind except that the person will look up in your direction, visualize this one thought, and they will look up at you.

We have two nervous systems a central and autonomic, the autonomic system is related to the central in an intricate way, and the central is sight, hearing, taste, and the motor nerves. Autonomic is subliminal psychic impulses that are vibrations from a nonobjective source. Autonomic can receive subtle vibrations of energy and transfer them to the central nervous system.

Every electrical impulse sets up an electrical or magnetic field of radiations, an electrical field surrounds a point of electrical impulses; the body is composed of a positive and negative polarities. The brain is the control board of the nervous system. Now we see by this that thoughts are thought-forms and electrical impulses. Eyes wander about receiving numerous impressions by sight with all of them being transmitted by vibrations to the brain centers where they are translated into thought-forms or pictures. Words transmitted by vibrations of an electrical nature to the nerves attached to the drums of the ears, and through the impulses received on the eardrum, send forth vibrations along the nervous system to the centers of the brain. The same is true of tasting and smelling.

In ourselves, we will find not isolated powers but universal forces at work. (As above, so below) There are three universal principles or fundamental manifestations that affect the state of existence. These are called TIME,

SPACE AND MIND. Space is that portion of the universe beyond the immediate influence of earth and her atmosphere. Nowhere in the universe is space empty, it is occupied by extremely tenuous matter generally gas and solids, from this we see that space and time are actually intimately intertwined. Matter exists both as gas and as dust grains in the space between stars. Space is that property of the universe associated with extension in three mutually perpendicular directions.

In the "Theory of Relativity", when the velocity of light is approached, the classical laws of gravitation no longer apply, space no longer has the relations commonly assigned to it, and time slows down, this is why time is different in space.

In conclusion, the cosmic influences are invisible, but they act upon man, heat and light are intangible and incorporeal nevertheless, they act upon man and the same is true of other invisible influences. Man's body is not the real man nor is the material universe God. Man is composed of an invisible mind and a visible body, so too God has an invisible and a visible domain, in all we say that man is God, for man is not the body nor the soul but Mind, this is why man cannot die, 'Peace from A Son of Man'.

(B) Conclusion

I. Providence

The term providence is derived from Moorish Latin meaning prove and provide. That is to say, be guided by scientific knowledge of reality and share it with the unfortunates in order to liberate them mentally and thus solve their own problems. "God" is science of the human mind- realities. The devil is religious mythology, unreal, which spells emotional religious insanity, hatred, disunity, fear, violence and destruction. Those who only believe in (providence) realities and self and humanity and knowledge of solution of problems to live are violently and secretly hated by ones who

believe only in “Allah, God, Christ, Jehovah, Jesus, so-called religion, church, temple and mosque. Such is the perspective of religious insanity. This insanity makes a religious person condemn the very thing they proclaim to love, namely, the living truth- the work of nature- the Zodiac which is in reality themselves. This process of religious insanity makes them unconscious criminals, crucifies and murders by trade.

Through scientific knowledge of the universal law of nature as shown in the 12 signs of the Zodiac, and the square angle of 90 degrees the monetary dollar system was founded by the cultured Moors. Money has not and never will up lift fallen humanity or nations. It requires a national and international mass education of the Universal Law of Nature as shown in the 12 signs of the Zodiac, as shown by the four quarters of 90 degrees each which represent the 4 quarters of the Earth, also the 4 quarters of the dollar, as a medium of exchange on global scales. In order for the common masses on a global scale to inner/overstand the applied moral principles of the dollar system, it is necessary to temporarily destroy the dollar system until the science of the 12 signs of the Zodiac has been taught on global scales. Then the dollar system can immediately be reestablished with moral principle, equality, peace, justice, and prosperity minus the slave institutions known as Mosque, church, and temple.

II. Seek Light

Light means knowledge. Knowledge is power, it spells Freedom. Freedom is everybody’s responsibility, on a universal scale.

For instance, if a card shark was cheating you in a game of cards; it would be unintelligent to resort to force against him. Your most intelligent act is to seek one who teaches the art of cheating, having him teach you all angles of card cheating. Afterward you are well equipped with the

necessary knowledge by which it will enable you to protect your finance while engaged in a game of cards with card sharks. When they discover that you are wise to all of their tricks, the card sharks will automatically respect you as their equal there after. As a result, the old game of cards between you and them will be played on the square minus violence or hatred or fear. Ignorance creates violence, brute force and destruction, but wisdom, right knowledge and innerstanding creates unity, peace of mind, freedom, progress and the attainment of happiness.

Afterword:

13Ahava 13Baruch 13Raspect 13Shakor and 13Echad to all those who have read these pages. It is my sincere hope to not only educate but to elevate your consciousness to that which will help you to battle and defeat the demons within. We all struggle with the lower forces of creation, but we exist not singular but plural so as to assist each other to bring about healing and restoration for all which will set the foundation for those who shall come after. We build not for ourselves but for our babies so that they will not have to suffer as we have suffered and so that they will be able to live up to their highest ideals and principles. They walk in the footprints we leave behind as we have walked in our ancestor's light, guiding us to truth unequivocal. A lot of these things I did not personally author but rather I just put them together so as to show that there is but one truth and that it is our honorable duty to shine the light of truth on all the expressions of divine love as we are one and the same with truth, good, bad and ugly. I end this book with an ancient homily:

“Love is always stronger than death, and unto that love you have now returned. I order you, o sleeper, to awake! I did not create you to be held prisoner in hell. Rise from the dead, for I am the life of the dead. Rise up, work of my hands; you were created in my image. Rise; let us leave this place, for you are in me and I am in you. Together we form only one person and we cannot be separated.”

Wa Alaikum As Salaam

Once again, I appreciate you indulging this literature and I ask that you use this energy wisely and to the best of your ability for your education and edification. It is my opinion that the value of a book depends on what it instills in the reader. If you learned nothing new then I simply and sincerely apologize for any waste of energy caused and I ask that you pass it along to one which you feel might benefit from this combination of knowledge. Shalom, hotep, and shanti to you, yours and ours; one. Also, here is a list of honorable and respectable businesses that provide quality services combined with 13Love:

Apparel

We are all different and unique. The way you dress can be a reflection of your inner self and personality. Your wardrobe is a form of self-expression that allows you to be creative and expressive. It's in our DNA to love colors, vibrancy and beauty. Here at Impressions we strive to offer clothing that supports this. More importantly, you over stand that at the end of the day, style is a PERSONAL statement, unique for yourself, but identifiable to others. Let your style be your own work of art and signature of who you are!

Beyz Coffee™
Organic Ethiopian Coffee

Beyz Coffee™ is dedicated to bringing coffee lovers the original taste of coffee from the same mountainous region it once came from, Ethiopia. We believe that business is about the love of people, the environment and their well-being. Our business is about the love of our product and service. By bringing these two loves together we present to you Beyz Coffee™.

Acknowledgements:

First and foremost, I want to thank and give honors to Allah, Th Most High for thy mercy and grace. I extend my gratitude to all Th true divine manifestations and emulations of Th Amma Momma such as all the great prophets and prophetesses that came before, that walk beside me now and those who shall come after. Peace and blessings be upon Sheikh Sharif Abdul Ali who by the benevolence of Allah gave us everything it takes to save a nation. Full honors to Rvbeypublications for their due diligence in helping to uplift fallen humanity. A lot of the information within this manuscript is directly from that site. Honors to all the Great Seal Moors both official and unofficial such as C.M. Bey (Clock of Destiny & Circle of Life), Hakim Bey (author of the Journal of The Moorish Paradigm), Taj Tarik Bey, Abdullah El Talib Mosi Bey, Yaffa Bey, Mario El Bey, Dr. Alim El Bey and Th mighty Moors of Canaanland. Also, much 13Ahavah to my TLC Seastars and brethren and to my Rabbi Ninesun Amaru Bey A.K.A Da 13th Sun for all the inspiration and guidance. I will all those who live right: peace, heath and prosperity both now and forever.
